Varsity "O" DROPPED FROM STUDENT CHEST

BY STUDENT COUNCIL

Homecoming Plans and Women's Intersocial Group Council Discussed at Last Meeting.

There were many important matters of business which demanded attention at the regular meeting of the Student Council on last Wednesday night. Discussion of the Student Chest was held because many students had presented opposition to the chest last year. After thorough consideration it was decided that no other plan had ever so efficiently and fairly served for all concerned. It was therefore resolved that the Student Chest be retained for the year. An alteration, however, was made in the list of organizations benefitting from the chest. It was voted that the Varsity O be dropped from among the number of organization receiving money because it is a campus organization only in a limited sense.

Much discussion was held on the case of a certain Freshman who has a few hours credit from another institution. The matter presented was this: shall this Freshman be obliged to wear a cap or not. It was finally determined that the aforesaid gentleman was a super-freshman, though still verdant, and that he would not be obliged to wear a cap.

"Faith" was the topic for discussion in the young people's Sunday School. Louis Weinland led the devotions. Quentin Kintigh talked on "Faith" and Betty White gave a reading. The special music was a violin solo by Lavelle Rosselot. During the business period James Harris was elected representative to the religious education board.

WORK OF 1928 SIBYL PROGRESSING RAPIDLY

Cover of Green and Gold Has Been Chosen. Simple Art Theme Will Be Used.

The Juniors have begun work on the student year book for 1928. Due to a very early start, much has been accomplished on the Sibyl.

Editor Robert Bromley reports that a cover of green and gold has been selected. The theme will be one of straight art. A new feature of the book will be the introductory page to each section or department. A caricature of the president or captain of each division will grace this page. This year the co-eds have the great honor of having the book dedicated to them. This surely marks an epoch in Otterbein's history. The editor says he hates to do this but he believes it is one way of getting every girl to buy a book.

Many of the pictures have already been taken. Pictures of spring sports were taken last year and the football and campus scenes were taken last week. A number of snow scenes that are to be taken this winter will complete the photographic scenic section. Pictures are now being completed of the Freshmen. Pictures of the other three classes will be taken soon. Campus organizations will have pictures taken after the individual pictures.

JOHN DRINKWATER'S FAMOUS DRAMA OPENS LECTURE COURSE

FAMOUS PLAY "ABRAHAM LINCOLN" COMES FIRST

STAGED IN HIGH SCHOOL

Course Includes Comedy, a Popular Science Number and Costume Musical Numbers.

"Abraham Lincoln," the famous drama by John Drinkwater, will be presented in the High School Auditorium Saturday night, Oct. 8, as the first number in the Lyceum Course for this season. This great play will be presented here by a cast of twelve New York actors chosen especially for their ability to fit into the historical characters they portray. This is without question one of the most notable dramatic productions ever offered by the Redpath Bureau during its entire history of nearly sixty years.

Contrary to the custom in past years the entertainments will all be given in the High School Auditorium. In addition to the great drama, "Abraham Lincoln," the course includes a comedy, a popular science number, a South Sea Islander in costume, and the Plantation Singers.

Marsh Has Tickets

Lawrence Marsh has charge of the ticket sale. Season tickets cost \$1.50, each season ticket having reserved seat privileges. These reserved seat coupons will be given out from the High School on Friday, Oct. 7, from 2 to 5 p. m. and on Saturday from 2 to 5 p. m. and at 7 p. m. Each purchaser will call for his reserved seat

Troop To Lead Y

Professor Horace Troop, Head of the Department of Economics and Business Administration will lead the Y meeting tonight. Mr. Troop was active in Y work when he was in school and went to the Lake Geneva Student Conference last spring with the student delegates from Otterbein.

TWO BULLETIN BOARDS TO BE USED IN HALLS

Chapel announcements have become so numerous that a new system of posting has been worked out. Announcements pertaining only to the day will be posted on the bulletin board outside the treasurer's office. Those carrying over news for several days will be placed on the bulletin board near the chapel stairway.

Some one will be appointed to remove the announcements at the end of the day so as to avoid confusion. All notices posted should be dated and signed. The plan will be given a trial for the time being.

Only important announcements will be made in the chapel.

RUSH RULES ADOPTED FOR WOMEN'S GROUPS

TWO PARTIES ALLOWED

Other Rules Similar to Regulations of Last Year. Sunday Light Lunch Considered as Party.

Freshman women are putting their best foot, or feet, forward these days. Why? Need anyone ask, who has observed the near-fights between upper classmen of different clubs over the all-important question of who should escort certain particularly desirable freshmen to dinner, literary society or what not!

The rush season is on, and all other activities, including classes, are relatively unimportant. Even those freshmen who by virtue of relatives or in-laws are probably sure in which fold they belong and those who with admirable determination have already selected (at least so their room-mates inform us) the club which is to have the unparalleled honor of receiving them into membership, are not too indifferent to invitations from groups beyond the pale. One is a rushee but once, and parties after the rush season are few and far between.

Surely, money invested in marcel and smart clothes is well invested

ENROLLMENT IN SCIENCE DEPARTMENT SHOWS AN INCREASE OVER LAST YEAR

Notwithstanding the fact that actual college enrollment is a little below level this year, the number of students in the various science classes is larger than usual. Especially in the chemistry department is the increase noticed.

Professor Louis A. Weinland reports that 85 freshman have enrolled in first year chemistry classes; twenty students are taking quantitative analyses, and 13 organic chemistry. This is not taking into account several special classes.

In biology 47 students have elected zoology, and 33 botany, but these classes are made up largely of sophomores and juniors. In the latter quite an extensive plan of field work is being pursued.

This year ten seniors are enrolled in the class of special methods in teaching science. "This is the largest number that has ever been enrolled in this course," states Professor Hanawalt, "and proves that many students are interested in the teaching side of this field."

Besides the regular courses offered this year, geology has been resumed under Professor Hanawalt.

The collection of new specimens for the museum is progressing rapidly, and by the Holidays it is hoped a number of new articles will be added to the already increasing display.

One hundred new metal moth-proof cases have been secured for the insect display in the third floor corridor.

Ask Emerson Horner why they call him "Moses."

Mr. Roy Burkhart, who has been the General Superintendent of Young People's Work for the U. B. Church during the past four years, was recently elected and has taken up his work as Associate Director of Young People's Work for the International Council of Religious Education, headquarters in Chicago, Ill.

"Burkie" was on the campus during "Freshman Week" and helped materially in getting Freshmen "officially" started.

der, and Donald Borror has offered to arrange the insects in these new cases with regard to group and family classification. Heretofore the display has been miscellaneous.

The biology department is congratulating itself on the acquiring of a beautiful new Frigidaire, model 12, one to set the apparatus at a certain temperature in the various classes in the department to keep food stuffs, and tests for an indefinite time, as it is only necessary to set the apparatus at a certain temperature and it will remain constantly.

The display case in the lower hall which aroused so much interest last year will be resumed soon, but students probably will be assigned to look after it this year.

The sensational number of the course is Drinkwater's drama, "Abraham Lincoln." This usually appears only in city courses, for it is an expensive production, costing \$500 for a night. The Committee in presenting this remarkable number is appealing to the Otterbein students and to the townspeople to see if they will respond

to such a classic.

Produced In England

"Abraham Lincoln" was originally produced in Birmingham, England, with great success, and later scored a phenomenal triumph in London. The play faced a new test when the time came for its American production. It was staged for the first time in America at the Stamford Theatre, Stamford, Conn. After performances in Atlantic City, it was taken to Washington, D. C. Here it faced a memorable test, since the National Press Club, which took charge of the first night, had as its guests many of the most prominent men in national life. More than one among them had known Mr. Lincoln personally. Without exception the audience endorsed the play heartily, and on this wave of endorsement it rode into New York to be greeted by one of the most brilliant audiences the city had ever seen. A notable assemblage, made up of

persons prominent in the social register, and leaders of the literary, art, and musical worlds, cheered both play and author and acclaimed "Abraham Lincoln" as a great achievement in the American theater.

Tan and Cardinal Gridders Play Exceedingly Good Ball But Could Not Down "Big Red"

MIAMI TEAM HEAVY AND EXPERIENCED

TAN PUTS UP REAL BATTLE

Come Close To Goal Line in Second Quarter. Complete Two Out Of Three Passes.

The "Big Reds" of Miami University defeated Otterbein's football team at Oxford Saturday by the one-sided score of 33-0. The score does not even hint at the dogged battle that was put up by the Tan and Cardinal moleskin warriors. Miami's team was built around three men who are known from one end of the state to the other, Stryker, fullback, McCall tackle and Wohlwender, quarterback. A long with these men they have other stars too numerous to mention. All this goes to show that Otterbein went into the game under many handicaps. Yet so well did they give account of themselves that no Miami man ever broke loose for a very long run. Otterbein completed two forward passes out of three attempted; Miami tried four and completed none. Pinney outpunted Miami's kickers as long as he was in the game.

Hankinson proved to be the best ground gainer for Otterbein. He substituted for Minnich in the second quarter. He gave a demonstration of how to carry the ball on an off-tackle play that was noticed by the spectators and players with great delight, when he charged and dodged for a 32 yard gain through the Miami team. A minute later Pinney directed a pass toward him which was knocked down by a Miami man, Hankinson grabbed the oval before it hit the ground and turned the play into a twelve yard gain. Another pass Pinney to Lee made five more and Otterbein was but five yards from a touchdown, but the half was over.

There were numerous bright spots in the play for Otterbein. Lee ran back the kickoffs four times for an average of eighteen yard gains. Crawford and Reck showed up best on the line. Pinney punted 35 yards consistently.

Miami seems to have a heavy, all-

star team with plenty of reserve strength. In the first five minutes of play Miami made a touchdown on a series of line rushes by Stryker, and Whitaker which took the ball 63 yards on 9 plays. Wohlwender kicked the point. Again in the first quarter Stryker and Whittaker took the ball over the line from the 36 yard line in 6 plays. Again Wohlwender kicked the point.

They did it again in the second quarter when they carried the ball over from the 36 yard line in six plays. This time the try for point failed. Stryker made his fourth touchdown in the third quarter. Again Wohlwender missed the kick. In the last quarter Coleman made a touchdown and Wohlwender's try for point was perfect.

GIRLS URGED TO JOIN VOLLEY BALL TEAMS

More girls are urged to come out for volley ball practice on Wednesday and Friday afternoons. Mrs. Johnson would like to have as many teams as possible for the tournament.

A new system of points and numerals is being worked out and will probably be announced in next week's Tan and Cardinal.

Christian Endeavor, Section A

There was a good meeting at Christian Endeavor Sunday night. Bob Knight was the leader and chose for his subject "Consecration." The topic was very well handled both by the leader and by those on whom the leader had called for comments. James Harris gave two vocal solos. Jack Zimmerman expressed his pleasure over the presence of 97 women and 46 men, but hoped that the attendance would be larger in the future.

MARIETTA IS NEXT ON PIGSKIN MENU

River Team Will Likely Resort To Aerial Route When Teams Clash Saturday.

The Tan and Cardinal team faces the Marietta eleven at the river city next Saturday. Last year down there Marietta worked a pass in the last part of the game to win. Duke Hayes, Marietta, '18, is the new football coach down there. He has built up a national reputation for himself at coaching in high school. Rumors are out that Marietta is building their offense around the forward pass and certain trick plays.

Coach Sears' team is out for victory. Every day brings improvement in team play. The boys are optimistic. They went through the tough Miami game unscathed and received some experience that was greatly appreciated by the Sophomore members of the team.

Stadium Static

Among other things the occupants of the stands at Miami received a free bath as rain began to fall at the half and never completely stopped.

Cold figures all go to prove that Miami won the game. They gained 297 yards from scrimmage to Otterbein's 60. They got an average of 33 yards on punts, Otterbein got 30. However they lost 50 yards on penalties and Otterbein lost but 5.

A very dressy band consisting of six saxophones and 44 musical instruments represented the university. Among other things they played our Love Song. The cheer leaders had the Miami students stand while it was played.

The team spent Friday night at the Gibbons Hotel in Dayton. The traffic light signal bell began to ring about daylight. One of our noted tackles is said to have answered the telephone when the first one rang. Also the rumor persists two of the coterie missed breakfast due to oversleeping.

A dozen lust-voiced Freshmen sent the team away Friday night with a series of loud cheers for their Alma Mater.

Elect Heads

The King Hall Association met Monday, September 26 and elected members to the King Hall board. They are as follows:

President, Parker Heck; vice president, H. M. Erwin; treasure, John Vance; secretary, Alton King.
Representatives: Senior, G. Moore; Junior, R. Bromeley; Sophomore, F. Miller; Freshman, R. Broadhead.

Other Schools In The Conference

Miami is faced with seven straight hard games now including Wesleyan, Denison, Wittenberg and Dayton. They appear to be out for a great year. In their first two games they have made 113 points to none for their opposition. Graduation did not hurt them much last year. They say that their Freshman team which is being coached by M. A. Dittmer is nearly as big as the varsity.

Muskingum defeated Denison Saturday 26 to 0. They have built up a very strong offense around Wilson and Taylor who throw and receive forward passes in the order named.

Cleio-Phroneans Push

Cleiorhetea and Philophroneia, brother and sister literary societies, enjoyed their biennial outdoor "push" last evening, when about two hundred men and women hiked out to Devil's Half Acre. The evening was spent hilariously in games, songs and speeches, not to mention the wieners, doughnuts and cider which were properly forthcoming.

TO HOE AND EAT

In quiet days windmills pump very
little water. Foot ball teams win few
games without material. The wind
of interest and duty has turned the
fans of the Otterbein football machine,
but it is not yet whirling comfortably.

There are men in Otterbein that
ought to be out for football. Some
came out for a few days at the begin-
ning of the season and then quit. Here
again history's page for September has
been dittoed.

The student body turns out for the
first pep rally—some go out for the
team—and after the first game Ye
Olde Rutte claims the vast majority.
Everybody holds back to see what the
team will do. All the responsibility
for a winning team is allowed to fall on
the shoulders of the coach and fifteen
or twenty men. Everybody is from
Missouri.

The Student Body puts the team on
trial. If they win—the Student Body

says "I'll back 'em". Some players
say, "If they win a few games I'll go
out for the team. It'll be some honor
to play on the team then." One is
reminded of the ass that is always
willing to help eat the watermelon,
but never has time to help hoe it when
it is growing.

Is it possible that the student body
is going to allow this supreme chance
to rally the team from it's slump, go
by unchallenged? Shall we slumber
blissfully on in the now softened rut
of complacency?

The coach knows football. The as-
sistant coach has a great spirit of
drive and enthusiasm. The potentials
of a good team are in Otterbein's
reach. If we don't come to life this
year,—it's nobody's fault but our own.

Otterbein need not be afraid to back
its football team to the last ditch. It's
a fighting team. At Miami the score
was 20 to 0 at the end of the first half,
and even though the team was tired it
gave all it had that last half. Miami
is without doubt the best team that the
Tan men will meet this year. If the
student body backs them they ought to
win all the remaining games.

LIFE'S LYCEUM

Otterbein is very fortunate to have
the opportunity to hear a lecture course
of the caliber of the one that will be
presented this winter. The Redpath
Chautauqua which puts on this annual
lyceum course is recognized as one of
the best chautauqua companies in the
country.

This phase of campus life which con-
tributes to the cultural development of
the student should not be overlooked.
Every student can well afford to de-
velop an appreciation of the finer
values of life. The farther we get
away from the commonplace level of
life the keener will be our zest for life
at its best.

An education does not consist en-
tirely of a certain amount of class-room
mechanics.

some attention. The badges will be

the Student Council belonging to the

quet committee. Another committee
was named to work on the printed pro-
grams for Homecoming. C. Mumma
is to care for the erection of flags in
town. Still another committee is to
look after the celebrations of the day.

An amendment to the constitution of
the Women's Inter-Social Group Coun-
cil was proposed and passed. In sub-
stance it stated that the rushing period
for women begins the first Wednesday
after the Big Sister period and lasts for
six weeks. Each group is permitted
to have two parties. The price of food

COLLEGE STAG "GOES OVER BIG" TUESDAY

CONDUCTED BY Y. M. C. A.

Talks by Ferron Troxell and Louie Norris are given. Quartet and Eats Feature.

The men's bonfire meeting that was held last Tuesday night was a big success. Practically every man in school turned out. The weather was ideal, and everything was quiet and still, all this added to the effectiveness of the meeting.

The meeting was started by singing several songs. Then Ferron Troxel led in the devotions. The nature of this part of the program was very unusual and different. His theme was the four-fold life. He represented his points by building four bonfires. Each bonfire was to represent a side of the four-fold life. He brought his talk to a very effective close by having the last bonfire representing the religious side of a person's life. He made a very fine appeal and it was well accepted. Mr. Troxel is very good in this kind of work as he has worked with Roy Burkhardt for several summers at various leadership training camps over the country.

The second part of the program was conducted by Louie Norris. He told the fellows what the workings and ideals of the Y are and what its purpose is on Otterbein campus. He also gave a general outline of what the Y program was going to be for this year.

A quartet consisting of John Hudock, Fred Miller, James Harris, and Louis Frees sang two beautiful hymns.

After the program every one more than enjoyed the cider and doughnuts that were provided.

The rushing rules which are in force this year follow:

1. Rushing begins Wednesday the 28th of September after chapel, and ends at twelve o'clock noon November the ninth, making a period of six weeks.
2. There shall be only two rush parties. No parties are to be given after November the seventh.
3. No new girl shall be allowed to spend the night with a group girl except by special permission of the president of the Inter-Social Group Council and the Dean of Women.
4. Sunday night lunch with a club shall be considered a rush party.
5. Alumnae and men are not to be asked to rush.
6. Group girls shall not ask new girls for dates further than one week in advance, except for a rush party.
7. During the period of seventy-two hours in which bids are out, there shall be no communication between group girls and new girls.

He is now engaged in the Tuskegee Institute, Tuskegee, Alabama, the institution of advanced learning for colored men founded by Booker T. Washington, and probably the best of its kind in the country. Ross has our best wishes for success in his chosen work.

Many a man is doing work day after day that an electric motor can do for less than a cent an hour

College men and women recognize electricity as one of the principal aids to progress in the factory, on the farm, and in the home.

Guided by human intelligence, electricity can do almost any job a man can do. From stirring to grinding, from lifting to pulling, there is a G-E motor specially adapted to any task.

DAYTON SOROSIS SENDS REPORT FOR 1926-27

One of the live wire organizations of the Otterbein Alumni is the Dayton Otterbein Sorosis. All Dayton women who are graduates or ex-students are eligible to membership. We hope other communities may organize groups similar to this.

The following letter was sent in last spring too late for the May magazine but it's of interest now to show what the loyal Alumni are doing.

The first meeting of the year was held at the home of Mrs. A. T. Howard, 821 Five Oaks Ave. This meeting was in charge of Mary E. Brewbaker Howe. On her program she had a short greeting to Otterbein girls from the president, Grace Coblenz. This meeting was held in honor of the girls entering Otterbein in the fall. For the past two years it has been held at Mrs. Howard's home and is one of the most enjoyable meetings.

The October meeting this year was held at Mrs. Howard's home and is Chloe Niswonger, '11, at 2 Otterbein Ave. At this meeting Mrs. A. T. Howard was elected vice president to fill the place of Mrs. Peden who had moved to Johnstown, Pa.

The chairmen for the meeting were Marie Comfort and Christina Wahl. As usual these girls gave a very interesting and unique program.

The charming hostess for the November meeting was Miss Ruth Koontz, 986 Manhattan Ave. Esther Harley

Palmer Fletcher was one of those lucky individuals who were fortunate enough to receive a position near their "Alma Mater." He is teaching Public Speaking and History in the Delaware High school. Remembering his ability as a "speaker" here we do not doubt of his success.

Josephine Flannagan is at her home in Van Buren, Ohio.

Mabel Eubanks is now Home Economics Supervisor in the Elyria, Ohio Public School System. She is enjoying this work to the fullest extent.

Lewis H. Hampshire, also a member of the Miami Conference, accepted a call as pastor to a local church near Dayton where he is attending the Seminary.

Phillippi, a former president of the Sorosis was in charge. Her subject was "Restless Minds." Altogether the girls decided this one of the most helpful and friendly of meetings.

Another charming hostess was Mrs. Mary Sechrist Fries, 405 W. Second St. on Jan. 13. This meeting was in charge of Ruth Ingle and was a musical program. Mrs. F. A. Z. Kumler beautifully played The California Garden selection. May Powell sang two lovely groups of songs in costume. Then Mrs. J. F. Williamson, '11, gave a very interesting review of her trip abroad last summer.

The weather as is its custom on Sorosis nights was at its worst, but it certainly did not keep the faithful Otterbein women at home.

On February 17 the meeting was held at the home of Mrs. F. A. Z. Kumler, 238 W. Herman. Bessie Daugherty Mattis was chairman. At this meeting, which was best attended of the year, the chairman had invited Dr. Mabel Gardner of Middletown to speak to the girls on the subject "Cardinals."

"Otterbein Babies" were asked to give the music for the evening. Larry Libecap sang "Lilacs" and certainly showed Otterbein might look forward to a coming tenor for its Glee Club.

Virginia Fries played beautifully one of Chopin's Waltzes, though she is only in the eighth grade of school. Her brother played equally well Mendelssohn's "Consolation."

The next meeting held April 14th was begun at First U. B. Church with a pageant by the Young People. Then the women were conveyed in Otterbein "busses" to the home of Mrs. Mary Kalter Libecap, 11 Glenbeck Ave. Lucille Wahl was chairman for the evening. She presented to the club a musical trio led by Mrs. Rhinehart, a former Otterbein student. Mrs. Rhinehart herself gave a violin solo. Miss Wahl then brought greetings from other Otterbein Women's Clubs. It certainly was an inspiration to hear the letter she had to read from other clubs. The Columbus organization was especially marvelled at.

This was election night and the following officers were unanimously elected:

President, May S. Howard.
Vice President, Grace Coblenz.
Secretary and Treasurer, Lucille Wahl.
Publicity Chairman, Esther H. Phillippi.

It is hoped our next years work will prove as successful and grow as much as it has this past year. Certainly for being only two years old the Sorosis Child is standing very well. After enjoyable "eats" this meeting was adjourned with special mention of the hostess and the lovely little Belgian skipper dog who gave quite a bit to the entertainment of the evening.

HOME COMING BALDWIN-WALLACE OCTOBER 22

The Columbus Dispatch recently carried an extended account about Mrs. James M. Davis who received her A. M. degree from Ohio State in June.

Mrs. Davis received her A. B. degree from Otterbein in 1893. After her graduation she took up school work and taught in the junior high schools of Columbus and during the war, in Cleveland Heights. Altho married seventeen years ago and the mother of a son now twelve years old she never gave up the idea of going on to higher degrees in education. She did summer work in Harvard and in O. S. U. and enrolled in Ohio State University in January 1926 from which she was graduated in June 1927.

Mrs. Davis was one of the organizers of the Columbus Women's Otterbein Club and one of the most enthusiastic workers for its success, giving of her time and energy to this end.

Mrs. Davis is also interested in club work and when the Columbus Women's Club decided to build a new auditorium, Mrs. Davis was made chairman of the building committee in which capacity she has been one of the leading spirits in that great enterprise.

We rejoice with Mrs. Davis in her successes and appreciate her loyalty to Otterbein.

DEBATE, ORATORICAL SCHEDULES ANNOUNCED

EXTEMPORANEOUS DEBATE

Will Be Unique Feature of the Inter-Collegiate Forensic Wars This Year.

Otterbein forensic men are scheduled for two debates and four oratorical contests this year. A dual extemporaneous debate has been scheduled with Heidelberg for some time in the middle of October.

This debate as planned will be an experiment, the first of its kind tried anywhere before. The question for debate will be announced 12 hours before the contest. This will be a question that neither school has debated for at least three years. Both teams will use the same library. The side that each team will debate will be decided on the platform. It will also be an open forum debate allowing the audience to ask questions. Advantages over the old type of debating are evident in this new type of procedure. There is a demand for greater exploitation of the contestants mental resources and neither side is given the advantage of time or material in preparation.

Otterbein's men's debate teams will clash with the women's debate team of Ohio State university in a dual debate. The time of the events will be decided soon. They will debate on the official Ohio Conference question for the year which is: Resolved, That The Convention System Should Be Substituted For The District Primary. More debates will be scheduled

Scene from "Abraham Lincoln"

as the season advances.

The four oratorical contests in which Otterbein will be represented are: The Ohio Intercollegiate Peace Oratorical Contest, The Ohio Oratorical Association Contest, The Constitutional Oratorical Contest and the Pi Kappa Delta National Biennial Convention which will be held at Heidelberg this year. Robert Knight attended this convention two years ago in Colorado as a delegate from the local chapter. The constitutional contest was held at Otterbein last year. This association has as its members: Wooster, Wittenberg, Wesleyan, Baldwin-Wallace, Heidelberg, Otterbein, Hiram and Muskingum.

Otterbein's orators will not be announced for some time but it is reported that they are working on their orations.

To Organize Music Classes

For the benefit of those who for any reason do not care to enroll for private work in Violin or Banjo-Mandolin classes in these instruments, both elementary and advanced, are now being organized. These classes will meet once a week and one hour's credit will be given.

An effort will be made to prepare the students for orchestral work. Tuition for a class of eight is \$5 per semester. There is still room for a few more in each of these classes. Those interested should see Miss Barngrover in her studio in Lambert Hall at once.

Teaches During Summer

Miss Hazel Barngrover, class of '24 and '25, Instructor in Violin and Stringed Instruments, spent a profitable vacation at her home in Hamilton, Ohio. Here she instructed a large class of Piano and Organ students, at the same time holding a church Organ position at Mt. Healthy, Ohio, where she rendered an inspiring Organ Recital, August 23rd.

MONTROSE STUDIO TO MAKE SENIOR PHOTOS

SELECTED BY BALLOT

Each Member To Get Class Picture And Framed Enlargement With Each Dozen Photos.

The Montrose Studio of Columbus won out over three other photographers Thursday morning when the Senior class voted by a large majority to give them the contract for their Sibyl pictures this year. Others presenting contracts were Bachrach and the Baker Art Gallery of Columbus, and Miss W. M. McCahon of the local studio. The Montrose Studio is the one which did the photographic work for the Senior Class last year.

A display of the work of the various photographers was held in the Association Building on Wednesday night, giving the seniors an opportunity to compare the pictures and prices of the different companies.

The popularity of the Montrose Studio was probably due to an attractive special offer including a large picture of the entire class to be made for the Association Building, with a framed enlargement and a class picture measuring 11 by 14 inches to be given with each order of a dozen photographs.
