FANNING TO AID CHORAL SOCIETY

Seventy Voices to Sing "The Peace Pipe," "The Village Blacksmith," and "Lockinvar's Ride."

SINGERS WELL PREPARED

Noted Baritone Will Render Two Groups of Songs that Made Great Hits in Gotham.

Otterbein Choral Society will give its annual concert next Tuesday evening, Feb. 27, having as its soloist the famous Columbus baritone, Cecil Fanning.

This concert will be one of the regular numbers on the Lyceum Course and it will indeed rank as one of the best. The society will sing three selections, "The Peace Pipe," a cantata, and two choruses, "The Village Blacksmith," and "Lockinvar's Ride."

"The Peace Pipe," a cantata by Frederick S. Converse is taken from Longfellow's "Hawtha. The story is about how "Gitchemamito," the Master of Life, descending from Heaven, calls the Indian tribes together and asks them to give up their squalls and wrangling. The Indians met with him, finally, after he had shown them how to mould the play into peace pipe, and, has persuaded them to wash off their warpaint, they agree to bury the hatchet and live a peace pipe, and, have persuaded the painter. This is followed by the soothing strains of the Great Spirit who quiets this restlessness and the (Continued on page five.)

Family Suffers Loss.

All hearts of Otterbein students and friends go out in sympathy to Mr. and Mrs. J. T. Harris in their loss of a baby born on Tuesday, February 20. For a time after birth everything looked hopeful but later in the day and on Wednesday things changed for the worse and on Wednesday morning the baby passed away. Mrs. Harris is improving as well as could be expected under such a grievous condition.

The funeral services were held in the Harris home on Friday afternoon. Reverend E. S. Durney made a few very fitting remarks and then the little white casket was taken to Otterbein cemetery and buried. The service was very modest and attended only by the members of the family and a very intimate friends.

FRANCIS' LECTURE PLEASES

Superintendent of Columbus Schools Delivers Entertaining and Instructive Address Thursday.

John H. Francis, '92, Superintendent of schools in Columbus gave the closing address of the Farmers Institute in the United Brethren church Thursday evening. Francis was the subject of his address was, "Conserving the Nation's Greatest Asset." Mr. Francis spoke in part as follows:

"The multitude good roads constructed, forests preserved and preparatories made for the coming generations. Above all these things her greatest asset is the youth of the land, but we are not aware of this. We have been wasteful and selfish but we are improving. The schools proper half a century ago were not equal to the schools of today but there was then a school better than the present—the school outside the school-house. We are proud to think that we are exceedingly liberal in our expenditures for education. The idea is a fallacy. The surplus paid in the county that portion upkeep tobacco and boot are many times the amount paid for education."

"On the other hand we pay too much for unnecessary such a system in our public schools. We place all types of children in one class and expect to make them all alike. Herein do we fail for through this mechanical method the child loses his very self. With all the years of education and training we have failed to learn that diversity among man is more characteristic of him than uniformity."

"The world is suffering today chiefly from two things—too many people are doing what they are doing by accident rather than from studied choice and too many people are going through life with no definite purpose. College is too fine for the (Continued on page five.)

MUSIC GIRLS TAKE HONORS

By Defeating Freshmen the Music and Art Quintet are the Champions of 1917.

Last Tuesday evening, on the school gym floor the girls championship game was staged, in result of which the Artists were victors over the first year girls by a score of 10 to 6. This game was the best and most interesting of the entire series, the two teams being very well matched. Before the game general opinion was that the Freshmen, who had stood the acid test of the elimination series, would take the long end of the score; but a few loyal musicans held firm and were confident of their representatives. During the course of the game spirit ran high, and at times cheering exceeded that heard at a varsity game. At seven o'clock the crowd was small, nevertheless referee Martin called the game and the big fight was on. The Music and Art girls were given, the first chance to score but failed to make good a free throw. The Freshman girls were more fortunate and made good their first chance which raised a cheer that fairly rent the walls of the building. During the remainder of the first half the "Fresbies" whipped their score to 5, while the artists were let down scoreless.

The second half was started in the same manner as the first was carried on, but it grew in speed and interest as it progressed. The freshmen made one more point which ended their scoring for the evening. Close guarding on the part of the losers prevented their opponents from getting a start until the last two minutes of play, when the crash came. Miss Miles broke a way and sagged a pretty one while Mary Siddall duplicated in rapid fire order. One more basket by Miss Miles and then Mary Siddall pulled the spectacular shot of the evening.

Otterbein Goes Strong in Second Half But Lose Washington's Birthday Game at Wooster.

In celebration of Washington's birthday, the fast Otterbein five handily won the game from Otterbein with a score of 28 to 21. This was the last game for the Tan and Cardinal boys. The Wooster team was strong and as they rightfully won their victory, although Iddings' men played an excellent game. This contest was one worth seeing, as it was clean and fast from start to finish. The Otterbein team went into the second half without having a foul called on them.

Referee Gibson stood on the floor and called the game at the appointed hour and the contest was on. The Wooster lads started early to take the lead, which they held during the entire half. The Otterbein defense was strong, but the offense of their opponents was too strong for them to overcome. As a result of this the half ended with Boles' men leading by a good margin, the score being 18 to 7.

Coach Boles saw fit to relieve some of his men, and as a result four new men appeared for the second period. It was in this half that Otterbein showed up the best. True to their reputation they came back strong and showed an offense and punch that made the Wooster backers feel uneasy during the second half. Otterbein did not waste any time or give their opponents a chance to make points from fouls, playing an exceedingly clean game. During this half the Schreitz-Fox combination demonstrated their ability and the cleverness of their work was a pleasure to witness. Otterbein in this half out scored their opponents by 4 points. Time was the only thing lacking to bring victory to the victorious Cardinal boys and the game ended, Wooster leading with a score of 28 to 21.

For Boles' men: J. Kirk and Quimby were the Individual stars. The latter playing right forward during the entire half. The Otterbein men appeared for the second period. At the regular Meeting of the F. W. C. A. held last Tuesday night, the following officers were elected for the ensuing year:

President—Alice Bliss
Vice President—Helen E. Miller
Recording Secretary—Audrey Nelson
Corresponding Secretary — Helen Ensor
Treasurer—Merle Black

Otterbein Folks Improving

Mrs. A. R. Spassard was taken to Grant Hospital, Columbus, 11 a.m. Wednesday and was operated on for what proved to be a severe case of appendicitis. In the next room Mrs. A. P. Rosselot was taken after an operation which turned out to be less serious than was expected. When the two become convalescent they will occupy the same room and enjoy each other's company. In the adjoining room is Mr. E. L. Wineland, '91, secretary of the Board of Trustees, who was operated on for appendicitis a week or so ago. He is improving rapidly.

MISSION TOPIC DISCUSSED

Harriet Raymond Leads Sunday Evening's Endeavor Meeting on Subject of Home Missions.

The missionary committee had charge of the C. E. meeting Sunday evening, the topic being "Our Home Mission Board." Miss Blanch Groves sang "It is for me." The leader Harriet Raymond in an interesting way told the meaning of "Home Missions." She said "it was not paying the Pastor's salary," but "that real home mission work was carrying the gospel and supporting those who were in the field." She also told of people in the U. S. that hadn't heard a sermon since they were little children and that a grown girl when shown the picture of Jesus said, "I thought that name was a cuss word." She gave the seven wonders of the Missionary world, which are: (1) Large gifts of money, (2) the spread of the English language, (3) modern travel, (4) the mingling of races, (5) the growth of education, (6) the progress of religion, and (7) the propagation of the individual. To someone who has added an eighth wonder, the Christian who in this age of the world does not believe in miracles and has no interest in them.

Many of the members were given a chance to speak on the subject and many phases were discussed as, the immigrant, the mission of the Jews in this country, Mormonism, the Indian before and after he is Christianized, the Inland Mission in New York, and our duty to these causes.

How Did You Die?

Did you tackle that trouble that came your way With a resolute heart and cheerful? Or hide your face from the light of day With a craven soul and fearful? Oh, a trouble's a ton, or a trouble's an ounce. Or a trouble is what you make it, And it isn't the fact that you're hurt that counts. But how only did you take it? You are beaten to earth? Well, well, what's that? Come up with a smiling face, It's nothing against you to fall down flat. But to lie there—that's disgrace. The harder you're thrown, the higher you bounce; Good of your blackened eye! It isn't the fact that you've licked that count, It's how did you fight—and why? And you be don't to the death, what then? If you battled the best you could, If you played your part in the world of men, Why, the critic will call it good. Death comes with a crawl, or comes with a pounce, And whether he's slow or sly, It isn't the fact that your dead that counts, But only how did you die?

"The Business of Being a Woman" Well Reviewed by Irene Wells

Ida M. Tarbell has given us a very splendid discussion of womanhood in her book, "The Business of Being a Woman." A very interesting review of the salient points of this book was given by Irene Wells. The sub-title of the book, as given by the author in the preface, is the hope that she may strengthen the faith in the home woman. She distrusts Quimby's woman who has taken so many new steps recently; the woman who is ever restless and weary. The business of being a woman has long been held to be that of "making home and of training children to good citizenship. Oftimes the home is not as it should be. It is a place where stringent rules are laid down under which the child chafes. Instead of a place which is a social center and a place where the highest ideals of future growth finds shelter. Some home women envy the business women but if they would, they could very advantageously use her methods and plans in making their homes more efficient. Women should have interest not only in their own children but also in the unfortunate and homeless ones. By giving of their money and time to sympathetic help, they can accomplish a great deal. Fresh air funds are most worthy of their patronage. The ideals of womanhood are the same for all women. Upon the degree of allegiance to these ideals, depends the progress of woman toward the realization of perfect womanhood.

FACULTY MAKES RULING

Regulations Concerning Absences from Chapel and Class Adopted by Faculty Feb. 19, 1917.

1. Three Chapel cuts allowed. None from class.
2. Faculty to excuse for regular absences from Chapel and individual professors from classes for all legitimate reasons.
3. For all other Chapel absences student to report his excuse at office in writing at the time of absence.
4. For each unexcused absence from Chapel in excess of three and for each unexcused absence from class, 1-5 of a semester hour to be deducted from his total credit for semester.
5. Chapel tellers and professors to make a monthly report of accumulated unexcused absences at the college office.

These regulations to take effect at once.

Immediately after President Clippinger read these regulations in Chapel last Tuesday morning student opinion asserted itself to an exceedingly high degree. Instead of going to the regular chapel service the next morning a large majority of the students assembled quietly in the association parlors. Lyman Hert led in prayer. After the college song was sung C. L. Booth was elected chairman of the meeting and a committee was appointed in charge with the Faculty to represent the student body in the question concerning the faculty class cutting rules. The committee as chosen were: John B. Gavar, J. O. Todd, Edna Miller, Annette Braine and Lyman Hert.

At a meeting held Wednesday afternoon the committee decided to represent student opinion and ask that the Faculty be requested to reconsider the regulations with the Faculty to represent the student body in the question concerning the faculty class cutting rules. The committee as chosen were: John B. Gavar, J. O. Todd, Edna Miller, Annette Braine and Lyman Hert.

1818 CHAMPIONS

The intercollegiate champions for the past year have been rather evenly divided. Harvard won two and tied for first in another, while Princeton won two. These were the only colleges to win more than one championship. Following is a complete list of the champions in the various major sports:

Football ... Pittsburgh
Baseball ... Columbia
Soccer ... Princeton
Golf ... Princeton
Tennis ... Harvard
Fencing ... Annapolis
Track ... Harvard
Crew ... Syracuse and Harvard
Cross-Country ... Cornell
Swimming ... Yale
Water Polo ... Princeton

Punctuality.
The punctual man is a bird; he always is true to his word; he knows that the skiote who is ten minutes late is trifling and vain and absurd. He says, 'I'll be with you at four,' though torrents may ruthlessly pour, you know when the clock strikes the hour he will knock with the punctual man at your door. And you say, 'He is surely a trump! I've never seen the sign of his time, so he never offender. If he says he'll get married at nine, you bet he'll be standing in line, with his beautiful bride and the knot will be tied ere the clock is done making the sign. If he says he'll have cheered in at five, at that hour he will not be alive; you can order his lunch abroad and have it there before the boneyard.

The punctual man is a Jov! The biggest success that I know! He is grand and sublime, he always on time, not late by ten minutes or so.

1876-QUADRAGINTA-1916.
By Prof. D. N. Howes, 76.

Just forty years ago today, from college scenes we hied away, a class of likely girls and boys.

With buoyant hopes and youthful joys.

We counted then just fifteen souls.

Who'd rounded out the college goals.

The ladies numbered only two;

The gentlemen the rest, 'tis true.

One thirty years of life had seen;

The youngest scarce nineteen, I ween.

Since then our years have even run.

Two score have come upon each one,

And soon the others changed their scene.

Now one has ten good girls and boys;

Another has nineteen such joys.

Our college days were scarcely past;

And now evocations chose us fast:

One into business straightway went

And four their time to teaching paid.

The lawyer tried all wrong to still;

The preacher's wife and preacher's son

Began to point the way to heaven.

Ambitions then, the foe to ease,

Brought in new ways our hearts to please.

As one by one each star of old

Shone dim, and残, and many died.

The preacher's wife and preachers

Please the Holy One and life.

Our coll ege days were scarcely past;

While three have gone to tilling land.

One's widowed now, the bishop's

And only five are here today.

We represented states just three,

But now we're spread from sea to sea.

And two have died along the way.

While three have gone to tilling land.

We represented states just three,

Though torrents may ruthlessly pour,

You know when the clock strikes the hour

He will knock with the punctual

At your door. And you say, 'He is surely a trump! I've never seen the sign of his time, so he never offender. If he says he'll get married at nine, you bet he'll be standing in line, with his beautiful bride and the knot will be tied ere the clock is done making the sign. The surest road to Happiness
That I’ve discovered is:
Is wanting nuthin’ more ner less
Than what I’m sure to get!
—John Kendrick Bangs.

Strasburg’s Contribution.

What more stately monument can
a man erict than when he calls the
aid of Nature and gives to the world
a magnificent tree? It stands immut­
ably as the beautiful monuments that should
be carved in stone by Nature and given to the world
as a legacy. The students of the college
were planted by students of the old
developed into a mighty tree.

A greater Otterbein is impossible un­
til there can be more co-operation be­
tween the faculty and students. A “get-to-geth­er”
will have to loosen up a little, for arbitration is impos­
sible when both parties are determined to
have their own way. It is not good for all concerned.

IT STRIKES US.

That something had to be done to
reduce the cuttings of some students.

The faculty went too far in
axing one-fifth of an hour’s credit off for
one cut.

That students have an inherent
right to express their ideas.

That those in charge should seri­
ously consider student opinion.

That work will be evidence
as long as the present situation lasts.

That the question should be decided
at the satisfaction of both sides.

That the party will have to loosen
up a little, for arbitration is impos­
sible when both parties are determined to
have their own way.

That every Olberbein hopes for a
speedy settlement of the present
situation.

Scrap.

It is peculiar how many people
agree to disagree. We all seem to
be compelled to scrap at some time or
the other. Scrap is caused by
many different kinds of little bugs,
chiefly bacillus misunderstandings, late
hours, jealousy, tight shoes and the
women. Sometimes when we scrap
we come to blows. This is a symp­
tom of the disease in its most aggra­
ated form. Arbitration is the most
common and effective cure for scrap.
But considering that it takes two to
and only one to arbitrate it is
often slightly dangerous for the ar­bitrator
to do his duty without becoming
infected with the scrap bug himself.

The best way to exercise the principle
of self government therefor is to
vacinate oneself with a good dose of
common sense, reason, and neutrality.
It can be demonstrated that a very
large percentage of those vaccinated have been
bitten by the scrap bug and suffered from
the loathsome disease. So, my
citizen, if you take advice of the sage
of old and vaccinate yourself.

Show Your Spirit!

On next Saturday night the Basket­
ball quintet for 1917 will play a game.
Although not having as successful a season as one might
wish, we must remember that the team was not up to the standard
of past years. The efficiency of
Coach Kiddings is unquestioned. “Hall”
as he is known by his friends knows
the game and got the most out of his
material. The spirit at the last
game was far below the Otter­
bein standard. We not only owe
the team to give them a grand
farewell, but it is Coach kiddings’ last
game. Learn the new college song!

The band will be there and every
student should be out to get re­
venge on our old time Kayson opp­
onents. Let’s make this game a grand
farewell to our beloved coach and
the 1917 warriors!

castante ends with a satisfying vision of rest and peace. The scene will also sing two short choruses. Sir Walter Scott's ballad, "Lockhievar's Ride," set to music by Harry Rowe Shelley describes vividly, by its fast flashing movement, the gallantry of the Old English knight. Also Henry W. Longfellow's "Village Blacksmith" by C. F. Noyes will be sung, accompanied by the piano, organ and anvil. It is a very good interpretation of this well-known poem.

Cecil Fanning seeks no introduction to the music lovers of Otterbein, for he won the admiration of all when he sang here one year ago. He will sing two groups of songs.

The voices of the 1917 club are of unusual evenness of character - in strength well controlled, in ensemble work united. These characteristics showed up best in the first number which were clear and solid, all parts following the shadings, diminuendos and crescendos in balanced style, to the strong ending. At times numbers showed some rough spots but these will be smoothed over long before the next concert.

Manager Nealy expects to clinicians in the near future at Bowling Green, Van Wert, Barberton, Canton, Beach City, Steubenville, Wheeling and Dayton. As each of these places negotiations are nearly complete.

Clark Q. Bender was the man who made it possible for the Marion concert. Mr. Bender is a loyal supporter of Otterbein and he is not afraid to work for his college. The club sang two numbers at the University Bookstore store where Clark is employed.

COLUMBUS, O.
WORLD TEMPERANCE SITUATION was discussed by Miss Margaret Wint­ringer, a noted lecturer and writer, and an exhibit of war posters regarding drink was shown in the college chapel on last Tuesday night to over two hundred people. At the beginning of the war she considered Europe as a temperance laboratory and went abroad to study the problem and get the methods to use here in the effort to make Ohio dry by 1920. Miss Wintringer was for a number of years the National Superintendent of the Loyal Temperance Legion of America and made this special study for a series of articles for the Chris­tian Herald and the Sunday School Times.

The most important war poster shown was, "There is no time now to be weak, it is your job to stop the traffic of drink." This was a patriotic poster showing a woman in uniform, a bowler hat, and a sword. The poster was made to be distributed to soldiers in the army.

Another was, "There is no time now for the luxury of drink." This poster demonstrated the value of temperance during war time. The slogan "Drink means Waste" was also prominent.

While not all the posters were as forceful, they all highlighted the dangers of drink during a time of crisis.

The push of the week was Monday night in Betty Henderson’s room. Heaps of good eats; fine music and a jolly bunch were enjoyed.

The optical service rendered by my shop has been termed the “Most intelligent optical service in Columbus.” It is certain that no other optical store is more scientifically equipped, staffed by more skilled assistants. We have gone the limit, both in workroom and store, to make this the one Best Optical Store in Columbus.

THE QUALITY OF REED G LASSES IS GENERALLY ADMITTED

We have all the new tortoise mountings, in brown and silver, the new white-gold reading glasses of a character—in fact everything new and desirable is here.

Our regular prices are in most instances lower than other stores, but to you as an Otterbein student we herewith offer a special price.

If you will bring this Advertisment with you we will allow you a 25% Discount off our regular price—we do this because we feel you are entitled to it.

We will not permit a piece of work to enter our store if it is not absolutely right in every particular, so do not feel that in reducing our price to you, that we will in any degree lessen the super-quality of our goods.

Kindly remember that this 25% Discount applies only to students in regular attendance at Otterbein University.
