GENERAL INFORMATION

HISTORICAL STATEMENT

With the founding of Otterbein College the work of higher education in the United Brethren Church began. The founder of Otterbein College, Rev. Lewis Davis, D.D., is the father of higher education in the denomination.

The General Conference of 1845 authorized and recommended the founding of a college. The Board of Trustees met for its first session in Westerville, April 26, 1847. The work of the College began September 1, 1847.

From that time to the present, Otterbein has made growth and progress through varying degrees of success from a plant valued originally at \$1,300 with only one professor and three instructors, to a plant whose present valuation, including endowment, is over two million dollars, with a faculty of forty professors and instructors, and eleven buildings.

This institution has offered only the traditional liberal arts courses demanded of a school of this character. In recent years, however, in order to meet the pressing demands of the age, more emphasis has been placed upon the importance of vocational work. Of special note is the work in the department of education and its emphasis on teacher training.

Otterbein has been aggressive in that she has stood out in a marked fashion with an identity peculiarly her own in several particulars. A few examples will serve to illustrate. Otterbein furnished the first State Young Women's Christian Association secretary in the world. Its Young Men's Christian Association and its Young Women's Christian Association were the first college associations in the State, and its splendid building for Association purposes was the first of its kind in the country. Otterbein was the second college in the world to admit women on an

equality with men. In slavery times she stood staunchly in defense of the rights of the black man and has always figured prominently in temperance movements.

She maintains her well-earned place in the front ranks of the colleges of Ohio. Otterbein College is a member of the Ohio College Association, the North Central Association of Colleges and Secondary Schools, and the Association of American Colleges, and is on the approved list of colleges of the Association of American Universities; also a member of the American Association of University Women.

LOCATION

Otterbein College is located at Westerville, Ohio, twelve miles north of Columbus, on the Cleveland, Akron and Columbus branch of the Pennsylvania Railway. Convenient transportation by bus, Buckeye Stages, leaving terminal station nearly every hour. Running time, 40 minutes.

Westerville has a population of 3,000 and has all modern improvements. These material conditions, coupled with the high moral tone of the village, make Westerville an ideal place for a college town.

BUILDINGS AND GROUNDS

Otterbein's buildings and grounds occupy about forty acres on the west side of Westerville. About twelve acres of this ground are in the main campus, the balance in various contiguous locations separated only by streets from the main campus.

The college group consists of eleven commodious structures.

1. THE ADMINISTRATION BUILDING—A large four-story structure of brick in Gothic style of architecture. Erected in 1870.

2. SAUM HALL—Erected in 1855, recently remodeled and furnished as a dormitory for girls.

3. THE ASSOCIATION BUILDING—This building is devoted to the interests of the Young Men's and Young Women's Christian Associations. It was constructed in the year 1892 by the student body with the aid of friends. It was the first College Association building in the State of Ohio. It is also the headquarters of the Women's Department of Physical Education and is fully equipped for this purpose.
4. COCHRAN HALL—Constructed through the generous gift of Mrs. Sarah B. Cochran, of Dawson, Pa., in the year 1905. It contains rooms to accommodate nearly one hundred women.
5. THE CARNEGIE LIBRARY—It is the gift of Andrew Carnegie. Erected in 1908.
6. THE LAMBERT FINE ARTS BUILDING—This structure, four stories high, is the generous gift of Mr. G. A. Lambert, of Anderson, Indiana, as a memorial. It is the home of the Conservatory of Music, the Home Economics Department, and the Art Department of the College. Erected in 1909.
7. THE HEATING PLANT—Installed and constructed in 1906.
8. THE PRESIDENT'S HOUSE—The President's House is a comfortable, eight-room structure, located on the north side of the college campus.
9. THE MCFADDEN SCIENCE HALL—Funds for this building were appropriated from the money secured during the 1918 campaign. There is ample space for offices, recitation rooms and laboratories for the science departments. Erected in 1919.
10. KING HALL—A building for men constructed and donated by Dr. and Mrs. John R. King, class of 1894, in 1926.
11. THE ALUMNI GYMNASIUM—It contains a floor

sufficiently large for two parallel basketball courts and an auxiliary floor of ample size. There is seating capacity for 1,400 spectators. The gymnasium contains in addition a suite of rooms as alumni headquarters and four recitation rooms. Erected in 1929.

HOUSING AND SUPERVISION OF STUDENTS

Otterbein College believes that the physical and social interests of the student can be served best by providing well for their home life while at college. As far as it is humanly possible, fatherly and motherly care is exercised in behalf of both young men and women.

To secure a room, a retaining fee of five dollars is required of each student. No room will be regarded as assigned until said fee has been deposited with the Treasurer. The fee is retained to the end of the year, or to the time of graduation, when the value of any breakage of furniture or damage to the room is deducted. This fee for new students making early application is refundable up to September 1st, provided previous notice is given of the student's inability to enter college.

Board and room rent for both men and women are payable strictly one month in advance. Any student neglecting to settle in this manner, unless by special arrangement with the Treasurer, will be charged with a delinquency fee of twenty-five cents a day until settlement is made.

MEN—All Freshmen and Sophomores are required to room and board in King Hall. Others desiring to room there may have the privilege until the Hall is filled. Rooms in King Hall range from \$2.00 to \$2.50. Board, \$4.50 per week.

The men may furnish their own bedding except mattress and pillows. If furnished by the Hall an extra charge of \$5.00 per year will be made.

The housing of all non-resident men of the college will

be under the direct supervision of a special committee known as King Hall Committee.

The Philip G. Cochran Memorial Hall and Saum Hall are the residence Halls for women. Saum Hall is reserved for freshmen and accommodates thirty students. The rooms rent for \$2.25 or \$2.50 per week, per student.

Cochran Hall has accommodations for eighty-five residents as well as the common dining hall for women. Rooms in Cochran Hall vary in price from \$1.50 to \$2.50. Only a few rooms are available at the lower rate. Board in both halls, \$4.50 per week.

The students supply their own towels and bedding except mattress and pillows. Curtains, dresser and table covers are not furnished. Rugs are provided. Students living in the Halls are required to provide for themselves table napkins, also bedroom slippers without heels or with rubber heels. *No women will be permitted to room or board outside the residence Halls except with the approval of the faculty.*

HEALTH SERVICE

As a part of the health service a professional nurse is employed to care for all minor illnesses of students. Two hospital rooms, one in Cochran Hall and one in King Hall, are set aside for this purpose.

LIBRARIES

The Library, including the libraries of the Philomathean and Philophronean Societies, contains about thirty-five thousand volumes and pamphlets.

RELIGIOUS SERVICE

A chapel assembly is held every morning, except Saturday and Sunday, at eleven-thirty. All students are required to be present at the regular chapel service.

Public worship is conducted at ten-forty-five every Sun-

day morning in the college church. All students are expected to be present, except those who arrange to worship elsewhere.

A well-organized Sunday School is conducted every Sunday morning at nine-thirty o'clock.

PHYSICAL EDUCATION

Physical training is required of all college students in the Freshman and Sophomore years. The Department of Physical Education now offers a major and a minor to both men and women which meets the approval of the State Department of Education.

Each student is given a physical examination on entering.

Athletics include Varsity teams in football, basket-ball, tennis, baseball and track. The college participates in intercollegiate contests with other colleges in Ohio. Intramural activities are arranged in the various sports for both men and women.

Uniform gymnasium clothing is required for those who are members of the gymnasium classes. It is advised that the purchase of equipment be deferred until arrival here.

The Varsity "O" Association is composed of honor men who by virtue of certain proficiency in the various athletic sports are admitted to membership.

The Women's Athletic Association, affiliated with the Athletic Conference of American College Women, fosters athletics for the women of the college. Membership is on a point basis. The object of the Association is to promote high ideals, encourage participation and to afford training for those who may be desirous of becoming teachers of physical education.

STUDENT ACTIVITIES

LITERARY SOCIETIES

There are four societies—Philalthea and Cleiorhetea for women; Philomatheia and Philophronea for men. The society halls are furnished in attractive fashion and are quite spacious. Frequent open sessions are held at which special programs are given. All students are urged to join one of the societies.

MUSICAL ORGANIZATIONS

The Otterbein College Men's and Women's Glee Clubs, the Banjo-Mandolin Club, the College Orchestra, and the College Band, are all made up of students of the college.

A Music Club composed of members of the faculty and students of the Music Department meets at regular intervals.

DEBATE, ORATORY AND DRAMATICS

In addition to the regular courses in Public Speaking, ample opportunity is offered for varied forensic expression. Otterbein is a member of the Ohio Inter-collegiate Debating Association, and the Ohio Inter-collegiate Oratorical Association, and each year is represented in these contests. Otterbein participates in both the Peace and the Constitutional contests which are sponsored by national organizations.

Otterbein maintains an active Cap and Dagger Club for those interested in Dramatics. The Otterbein Chapter of Theta Alpha Phi, national honorary dramatic fraternity, honors with membership those students who have fulfilled certain requirements.

There is a chapter of Pi Kappa Delta, an honorary forensic fraternity. Only those students who have represented the college in inter-collegiate debate or oratory are eligible for membership.

RELIGIOUS ORGANIZATIONS

The Young Men's Christian Association and the Young Women's Christian Association meet weekly in halls of their own in the Association Building.

Two Christian Endeavor Societies of high grade exist at Otterbein. The meetings are held regularly every Sunday evening.

The Young People's Department of the Sunday School has its own organization. Services are held at 9:30 each Sunday morning.

The Life Work Recruit organization offers encouragement to those interested in Christian work and training.

CAMPUS CLUBS

The following are important departmental clubs on the campus conducted and participated in by the students and faculty:

The Quiz and Quill Club, for those interested in creative writing; Chaucer Club, for the study of contemporary authors; International Relations Club; Epsilon Chapter of Sigma Zeta Fraternity; Home Economics Club; Apollo Art Club; Cap and Dagger Club.

GOVERNMENT

A well-organized system of student government is in charge of the student activities, under the approval of the faculty. The Cochran Association and the King Hall Association function as student self-governing agencies in the residence halls. The Student Council and the Campus Council are representative of the student and faculty interests.

STUDENT PUBLICATIONS

The Tan and Cardinal is the official college paper. Every phase of college life is given its share of notice.

The Sibyl is a student publication issued annually by the Junior Class.

The Quiz and Quill is a magazine composed of the best English productions of the college students during the year.

The Association Handbook, published yearly by a joint committee of the Y. M. C. A. and Y. W. C. A. members, is a neat pocket manual containing valuable information for new students.

FACULTY CLUB

A faculty club composed of all the members of the faculty meets monthly at the regular faculty hour for the discussion of current educational problems.

OFFICIAL PUBLICATIONS

The official publications of the College are issued quarterly, in October, January, April and July.

The October and January numbers are general publicity bulletins.

The April number is the general catalog number containing detailed information relative to the life and work of the college. This number contains the complete register of students for the year.

The July Bulletin contains chiefly an account of commencement week, including the names of graduates and reports of the President and the Treasurer to the Trustees.

The Alumni Register, containing a complete list of the officers, trustees, and alumni of the institution from its founding, is issued every fifth year. The next issue will be October, 1933.

CURRICULUM REQUIREMENTS

The normal load for a student is fifteen to seventeen hours. A student may be permitted excess hours providing he has made a point average of two during the preceding semester and has been carrying at least fourteen hours of work. A student who makes less than a one point average in the work of the preceding semester may be asked to

reduce his work below the normal load. In either case the number of hours carried must receive the sanction of the committee on excess hours.

In music, full work shall consist of two lessons per week in a major study (Piano, Organ, Voice, or Stringed Instrument), one lesson per week of a minor study (Piano, Organ, Voice, or Stringed Instrument) and either Harmony, Counterpoint, or History of Music, one hour per week. In art, full work shall consist of regular work in the studio and at least one text-book subject.

FRESHMAN PERIOD AND ORIENTATION

Freshman Period begins Saturday, September 10, at 2:30 P. M. and continues through Sunday, Monday and Tuesday. This is not an optional introduction to the college course. It is an integral part of it. (Detailed program of the period will be available about August 10.) This is the freshman's opportunity to make a good beginning of his college work toward the attainment of scholarship and the development of character.

This work of Freshman Period is continued throughout the first semester in a one hour credit course known as the Orientation course. *Participation is required of all freshmen not only in the class work of the Orientation course but also in the exercises of Freshman Period.*

GRADING SYSTEM

The letters A, B, C, D, F, X, Inc., and W are used in ranking students. The letter A stands for extraordinary attainment in the course. B is above average; C average; D below average; and F failure. X is given for unsatisfactory work, failure to take examination, notebook not in, or other similar reason *within the control of the student*. Inc. is used to mark a course which is temporarily incomplete on account of illness of the student or other circum-

stances *beyond the control of the student*. W is used to mark a course regularly discontinued by permission of the instructor and Dean. When a student leaves college within a semester W is used to mark the courses in which he was enrolled if his work was satisfactory at the time of withdrawal.

REMOVAL OF CONDITIONS. A condition not removed by the end of the corresponding semester of the next year shall become an F.

POINT SYSTEM

The following Point System is a basis for scholarship and graduation honors:

For each semester hour of A.....	3 points
For each semester hour of B.....	2 points
For each semester hour of C.....	1 point
For each semester hour of D, F, X, Inc., & W.....	No points

For graduation a student must have at least 124 hours and 124 points. Work taken outside of class will receive one point per hour. In the case of private lessons in music the regular point system will be followed.

SCHOLASTIC HONORS

A point average of 2.3 for both semesters of any one year entitles a student to be listed as an honor student. The list will be published each year in the college catalog.

SCHOLASTIC HONORS AT GRADUATION

A point average of 2.3 for the entire course entitles a student to have "cum laude" on his diploma.

A point average of 2.6 for the entire course entitles the student to have "magna cum laude" on his diploma.

A student may be eligible for honors at graduation on the basis of two years of work at Otterbein, provided he submits evidence of excellent grades in work transferred from other standard institutions.

EXAMINATIONS

Written examinations in all classes are held at the middle and close of each semester and grades are reported to parents or guardians.

DEGREES AND DIPLOMAS

The degree of Bachelor of Arts (A.B.) will be conferred upon those who complete satisfactorily 124 hours of college work and earn 124 or more points, as prescribed in the college catalog; the degree of Bachelor of Science (B.S.) may, on the same conditions, be conferred upon those majoring in the departments of Biology, Chemistry, Mathematics, or Physics.

The degree of Bachelor of Music (B.Mus.) will be conferred upon those who satisfactorily complete the work prescribed in music, as described in that department, and the degree of Bachelor of Public School Music (B.P.S.M.) upon those who satisfactorily complete the work in Public School Music.

The degree of Bachelor of Fine Arts (B.F.A.) will be conferred upon those who complete satisfactorily the work in art as described in the department of art.

GENERAL REGULATIONS

No secret society is permitted and no other self-perpetuating society or organization may be formed without permission from the Faculty.

A student who is a member of any college organization representing Otterbein in intercollegiate or special extra curricular relations shall not participate in such activities unless a satisfactory standard in scholarship is maintained. A student in an individual capacity representing the college shall conform to the same standard.

Five unexcused absences from daily chapel shall be the maximum for a semester. Any student who has more than

five unexcused absences shall be suspended by the Dean for a period of three days.

Every absence from the last recitation in any study before a recess, or from the first recitation in any study following such a recess, or vacation, shall reduce the credit for that course one hour.

REGISTRATION

Registration as a student of Otterbein is understood to imply a willingness to comply with the social ideals and traditions of the college.

Entrance credentials must be sent early in the summer.

Students will not be enrolled unless their entrance certificates or certificates of transfer from other institutions with letters of honorable dismissal, are in the hands of the Registrar.

Students are required to register in person with the Registrar and make all necessary arrangements for studies not later than the first day of each semester.

As a part of their registration, students are required to choose an adviser not later than the beginning of the Junior year. This choice is to be made a matter of record by the Registrar and any change of adviser must likewise be recorded.

Students shall have their studies for the following semester entered by their professors on cards for that purpose, and deposited in the college office at least ten days before the close of the semester then in session.

FEES FOR DELINQUENCY AND CHANGE OF SCHEDULE

All students not entering for the first time, failing to register as above directed, will be required to pay a penalty of \$1.00 for each day of delay. The same penalty will be imposed for failure to pay tuition and laboratory fees at the time set for such purpose.

Each freshman who fails to register at the time scheduled

in the Freshman period will be charged a fee of \$1.00. The same charge will be made for each of the examinations of the Freshman period taken out of scheduled time.

A fee of fifty cents is charged for change of schedule.

PAYMENT OF BILLS

Students are required to pay bills on or before the second day of the first semester and on or before the first day of the second semester.

EXPENSES

Due to the emergency arising out of the present economic depression Otterbein College makes the following reservations and hereby announces that all tuitions, laboratory fees, room and board rates, and regulations concerning housing are subject to change without notice at any time. This change may be in the form of an increase or decrease in rates as circumstances demand.

ENTRANCE FEES

A registration fee of \$1.00 is charged all students.

An incidental fee of \$14.00 is collected from each student. This is payable at the time of matriculation and covers all necessary personal expenses for all athletics and physical education, including a free ticket to all home games and health service from the resident nurse.

Two dollars of this amount is appropriated to the *Tan and Cardinal*, the weekly student publication which covers the student's subscription to this paper.

RHODES SCHOLARSHIPS

Men who have completed their Sophomore year at Otterbein College are eligible to compete for the Cecil Rhodes Scholarships, tenable for three years at Oxford University, England, with a stipend of £400 annually. These scholarships are awarded on the combined basis of character, scholarship, athletic interest, and leadership in extra-curricular activities. Further information may be obtained from the president of the College.

AMERICAN ASSOCIATION OF UNIVERSITY WOMEN FELLOWSHIPS

The A. A. U. W. offers fourteen annual fellowships in various fields, of the value of \$1,200 to \$1,500 each. Some of them are for special fields, some undesignated, and some

for foreign study. All women graduates of institutions holding membership in the A. A. U. W. are eligible to compete for these fellowships.

LOAN FUNDS

THE EBERLY FUND:

By will of Rev. Daniel Eberly, D.D., of Hanover, Pennsylvania, a fund of over five thousand dollars has been left, the income from which will be loaned without interest to worthy students.

THE CLEMENTS FUND:

A fund of \$10,000, to be known as the Luella Fouts Clements Memorial Fund, has been established by Mr. F. O. Clements, '96. The income from this fund is available to worthy and needy students.

THE ALBERT J. DEMOREST MEMORIAL FUND:

In memory of their father, a loan fund to be known as the Albert J. Demorest Memorial Fund, has been established by Professor and Mrs. Merrick A. Demorest, '20-21. This fund is available to a worthy, high-grade student.

PRIZE SCHOLARSHIP

Pièrre Frédéric and Louise Marguerite Rosselot Scholarship, \$1,000. For a Senior who shall have attained high rank in the departments of American and European History, Political Science, and French Language, and who shall have made a special study of some phase of international relations.

PRIZES

Rev. Howard H. Russell, D.D., founder and associate superintendent of the Anti-Saloon League of America, has established two series of prizes for those who win distinction in Public Speaking and Oratory at Otterbein.

1. RUSSELL PRIZE, DECLAMATION CONTEST—Three prizes of twenty-five, fifteen and ten dollars each, are offered to students who win the first three places in the annual declamation contest for underclassmen.

2. RUSSELL PRIZE, ORATORICAL CONTEST—Three prizes, twenty-five, fifteen and ten dollars each, are offered to students who win the first, second and third places in the annual oratorical contest for upperclassmen.

3. BARNES SHORT STORY PRIZE—Mr. J. A. Barnes, of Wellesley, Mass., class of '94, has established a short story prize scholarship amounting to \$2,000, the income from which is to be used for prizes of \$40, \$20 and \$10 each for the best stories on Good Citizenship. The sum of \$50 is to be used for the purchase of books for the library bearing upon the subject. This scholarship is established in the memory of Mr. Barnes' brother, Walter Barnes, of the class of '98.

4. WEAVER MATHEMATICS PRIZE—A prize of \$10 is awarded annually by Mr. and Mrs. James H. Weaver of Columbus, Ohio, to the student who distinguishes himself most in the department of mathematics. The student is selected and the prize awarded by the administrative authorities in connection with the head of the department of mathematics. In order to be eligible for this prize a student must be carrying a course in mathematics of Junior rank or above.

5. THE LAWRENCE KEISTER CLASSICAL GREEK PRIZE FOUNDATION—Rev. Lawrence Keister, D.D., Scottsdale, Pennsylvania, gave \$1,000 as a permanent foundation for annual prizes in classical Greek.

Students in the first year course who rank B or better for the year, and earn a credit of not less than 90 per cent in the annual test shall receive two dollars each as a recognition prize. The course prize is ten dollars.

In the second year class prizes of ten, five and three dollars shall be awarded to the pupils in order of their rank.

In the third year, the second and third prizes shall be five and three dollars, respectively. The first prize shall be the residuum of the \$60 yielded annually after the above awards are counted out.

Such variations in all the prizes may be made as changed conditions and discretion suggest.

6. THE LAWRENCE KEISTER NEW TESTAMENT GREEK PRIZE FOUNDATION—The foundation for these prizes consists of \$500. In the fourth year course the major study will be New Testament Greek. To pupils in this course prizes of fifteen, ten and five dollars shall be made in order of class rank. These awards shall be made in chapel about June 1 of each year. The winners shall also be announced on Commencement Day.

7. THE COX PRIZE FOUNDATION FOR DEBATE—A prize of \$25 is awarded by Mr. J. O. Cox of Valparaiso, Ind., to the winning team in the Freshman-Sophomore debate.

8. QUIZ AND QUILL FOUNDATION, \$1,220—This fund was established by members of the Club to promote the *Quiz and Quill* magazine, to provide prizes for the annual contest promoted by the Club, and to further the interests of creative writing on the campus. Prizes of \$10, \$5, and \$3 are awarded by the Quiz and Quill Club for the best English essay or poem written by either a Freshman or a Sophomore.

THE FREDERICK N. THOMAS MEMORIAL LECTURESHIP FOUNDATION

For the purpose of establishing a fund, the income of which shall be used to secure special lectures on religious, literary and scientific subjects, Mrs. F. N. Thomas and daughter, Mary Burnham Thomas, of Westerville, have

given the college the sum of \$5,000. This foundation is known as the Frederick N. Thomas Memorial Lectureship Foundation.

REQUIREMENTS FOR ADMISSION TO COLLEGE

Fifteen units of work are required for admission to college.

Four one-hour recitations a week, or five recitations of forty-five minutes a week throughout the school year of thirty-six weeks, constitute a unit of work for requirements of admission.

Graduates from first-grade high schools who rank in the upper two-thirds of their classes are admitted to freshman standing upon presentation of a certificate of graduation. Those in the lowest third of the class will be received only at the discretion of the Committee on Admissions. If such a candidate is admitted, he will be placed on probation and must earn a minimum of twelve hours and twelve points the first semester or retire at the end of the semester.

Candidates coming from other colleges or universities who have not earned a minimum of twelve points in their last semester may not be accepted.

The units presented for entrance should include the following:

English	-----	3 units
Foreign Language	-----	*4 units
History and Civics	-----	2 units
Mathematics	-----	†2 units
Science	-----	2 units
Electives	-----	2 units

*If a student is admitted with 4 units of foreign language, only 8 hours will be required in college. If a student is admitted with 3 units, 12 hours will be required in the college. If a student is admitted on 2 units or less, 16 hours will be required in the college.

†Elementary algebra, one unit, must be offered.

See Point System.

If the credits presented from the high school contain total number of units but are deficient in any of these five departments, the candidate may be allowed entrance to the Freshman class but will be required to make up the deficiency on the basis of one college unit for two high school units. This must be made up by the close of the sophomore year.

The minimum hours of work required to obtain entrance to the various classes above Freshman are as follows:

At the beginning of the first semester a student must have completed, in addition to any entrance conditions—

For Sophomore standing	-----	24 hours and 24 points
For Junior standing	-----	56 hours and 56 points
For Senior standing	-----	90 hours and 90 points

At the beginning of the second semester the numbers stand as follows:

For Sophomore standing	-----	40 hours and 40 points
For Junior standing	-----	72 hours and 72 points
For Senior standing	-----	106 hours and 106 points

REQUIREMENTS FOR GRADUATION

The following is a description of the Major-Minor System adopted by the College:

A semester consists of 18 weeks, or one-half of the college year.

A semester hour is one class hour a week continued through the semester. For illustration, a subject in which a student recites two hours a week for a semester would count two semester hours of credit. One in which he recites four hours a week would count four semester hours of credit.

To graduate, a student must have completed satisfactorily 124 semester hours of work, and have earned at least 124 quality points.

No student can graduate in any department of the College without spending at least one year (the Senior year) in residence at Otterbein.

A major consists of not more than 32 nor less than 24 semester hours in one subject or department.

A minor consists of 15 semester hours in a subject or department other than that in which the major is taken.

One major and one minor must be completed for graduation. However, no student should take more than 36 hours in a department. A student may complete two majors in different departments under the direction of the heads of these departments and may designate who of the two professors shall be the adviser. This arrangement provides for both reasonable specialization and freedom of election and at the same time insures a liberal and general distribution of work through the entire curriculum.

REQUIRED WORK

Bible required in Sophomore year. All other work elective in all years.

There shall be a special advisory committee for Freshmen to be appointed by the faculty.

The following are the minimum requirements of all students for graduation:

English Literature or Advanced Public Speaking	6 semester hours
Composition and Rhetoric -----	6 semester hours
Bible -----	6 semester hours
History, Religious Education or Social Science--	6 semester hours
†French, German, Italian, Spanish -----	6 semester hours
Greek, Latin, or Mathematics -----	6 semester hours
Science -----	6 semester hours
Philosophy and Education -----	6 semester hours
Physical Education -----	4 semester hours
Electives -----	72 semester hours
Total -----	124 semester hours

Explained more fully, the above means that the amount of work indicated in each subject named will be required of all students for graduation, no matter what may be the major subject. More than these may be taken if it does not conflict with the regulation touching majors and minors.

*Neither Greek nor Latin in review will meet this requirement. In Mathematics, courses 421 and 422 or 423-424 are required.

†An ancient language may be substituted for a modern on faculty action.

PRE-PROFESSIONAL COURSES

For the convenience of students who desire to make an intelligent arrangement of their work in college, preparatory to professional courses after graduation, the following suggestive arrangement is presented. In no case is this work prescribed or required by the college. Requirements vary in different professional schools, hence these are merely suggestive and quite flexible.

PRE-THEOLOGICAL COURSE

Following is a suggestive arrangement of work for persons preparing for the work of preaching or foreign missionary service:

Bible	Modern Language
English Composition	Philosophy
English Literature	Psychology
Ethics	Public Speaking
Greek	Religious Education
History	Science
Logic	Social Science

PRE-LEGAL COURSE

The following outline is a suggestive arrangement of the field of work for those desiring general training leading to professional work in law:

Economics	Mathematics
English Composition	Modern Language
English Literature	Political Science
History	Psychology
Latin	Public Speaking

PRE-MEDICAL COURSE

The student's course is planned with reference to the requirements of the particular medical school which he desires to enter when such choice has been made.

The following outline is suggested as perhaps most satisfactorily meeting the student's needs.

Biology, including Zoology, Comparative Anatomy, Cellular Biology, Histology, Embryology, Physiology.	Foreign Language
Chemistry (three or four years)	Mathematics
	Physics (one or two years)
	Social Science
	Psychology
	English

The course will be worked out by years in consultation with the student's adviser.

PRE-ENGINEERING COURSE

Some students may desire to take one or two years at Otterbein, then transfer to an engineering school. Some may desire to complete a Liberal Arts course at Otterbein before taking the engineering course. The following suggested curriculum should accommodate both:

Biology	Mathematics
Chemistry	Mathematics (applied)
Economics	Modern Language
English	Physics
History	Public Speaking

The course will be worked out by years in consultation with the student's adviser.

EXTENSION COURSES

A limited number of such courses may be taken. The regulation is: "Not more than six semester hours may be taken by *correspondence* in one department, and a total of not more than eighteen semester hours may count toward graduation; more hours may be completed, but not counted toward graduation."

"Extension courses may be done for more hours if pursued in groups, or classes, in the *presence of the instructor*. The limit will be determined by the Director and the Professor concerned."

FEEES

Each student on entrance will pay a registration fee of one dollar, and tuition at the rate of five dollars a semester hour, if the work is done by correspondence; or, seven

dollars a semester hour if the study is taken under extension teaching. In case of correspondence courses, the student will be required to pay one dollar a course to cover postage and stationery.

Extension courses are carried in connection with the teaching load of our regular professors. The following teachers are willing to undertake a limited amount of this work and also will be accessible for some summer courses.

Accounting and allied subjects—Professor Troop.

English, Bible and Religious Education—Professor Engle.

Biology—Professors Schear and Hanawalt.

Child Development, The Family and Home Economics—Professor Hoerner.

English Composition—Professor Altman.

Business English—Professor Pendleton.

American History—Professor Snavely.

Mathematics—Professors Glover and Menke.

Mechanical Drawing—Professor McCloy.

Physical Education—Professors Martin and Johnson.

Public Speaking—Professor Smith.

Romance Languages—Professors Mills and Rosselot.

Religion and Adult Education—Dean Potts.

Sociology and Missions—Professor Hursh.

For further details write to F. J. Vance, Director of Extension work.

PARENTAL EDUCATION

Committee: Professors Hoerner and Mendenhall.

- I. A minor of 15 hours in parental education may be chosen from a group of selected subjects, if there is no overlapping with other majors and minors. The approval of the committee should be secured in each case. Open to Juniors and Seniors in the college.
- II. The courses included in this group of studies are open to any adult, whether or not enrolled in the college, who desires work of this kind to help him meet his parental responsibilities. However, no college credit will be given unless the student is regularly matricu-

lated. The courses requiring prerequisites can be taken only with the permission of the professor giving the course.

Suggested courses:

Principles of Education...190	Principles of Christian
Observation.....191 or 192	Living -----604
History of Education ----196	Genetics -----126
Social Problems -----632	Hygiene (Phys. Ed.) --521-22
Rural Sociology -----633	Child Development -----375
Principles of Religious	Family Relationship ----388
Education -----601	Foods or Nutri-
	tion -----373 or 374
	Household Economics ----173

SPECIAL WORK FOR TEACHERS

The Ohio State University Intelligence Test, which is required of all students entering the college, has been approved by the State Department of Education as the entrance test to be administered by the college in accordance with statutory requirement (Ohio General Code, Sec. 7659), which prescribes that all applicants for admission to teacher training institutions must pass an entrance examination. A student failing to pass the intelligence test is not eligible to continue work in the Education Department.

Students transferring to Otterbein College from other institutions which administer the Ohio State University Intelligence Test may present to the College Registrar, with the transcript of credits, a certified statement (on form 2662) of the record made on the Ohio State Intelligence Test at the other institution in lieu of taking the test at Otterbein College.

Sufficient work in education is offered to enable students to meet the requirements of the State law of Ohio for the four-year provisional High School Certificate. Following are the requirements of the State Department of Education:

Educational Psychology	3 semester hours
Principles of Education	3 semester hours
Special Methods	2 semester hours
Observation and Participation	2 semester hours
Student Teaching	5 semester hours
Administration and Supervision	3 semester hours

and six additional semester hours to be taken from the field of technical education, making a total of 24 semester hours.

Electives from which to choose are offered as follows:

Principles of Teaching	3 semester hours
History and Education	3 semester hours
Educational Sociology	3 semester hours
Tests and Measurements	2 semester hours
General Psychology	3 semester hours

Every prospective teacher must have a teaching major of 18 hours in one department and two teaching minors of 12 hours each.

COURSES OF INSTRUCTION

In the numbering of the courses, first semester courses have odd numbers and second semester courses even numbers.

Year numbers are indicated by two numbers separated with a dash (201-202). Credit hours in such courses are given for the year.

Courses marked with an "E" following the regular course number indicate courses in Special Methods for teachers.

Days of the week are abbreviated thus: Monday, M.; Tuesday, T.; Wednesday, W.; Thursday, Th.; Friday, F.; Saturday, S.

ART AND SCULPTURE

MRS. DELPHINE DUNN, ART DIRECTOR

25. History of Architecture and Sculpture from their rude beginnings in primeval times to the Renaissance, with special stress on the Egyptian, Greek, Roman, and Early Christian. Text: Apollo Reinach.

3:00, M. 1 hour

ASTRONOMY

PROFESSOR MCCLOY

51-52. Descriptive Astronomy. Prerequisites, Plane Geometry and High School Physics. This course will include some observation, but it is recommended that the student take 53-54 also.

9:30 W., F.

4 hours

53-54. Observational Astronomy. Prerequisite, Trigonometry. Two to four hours a week devoted to the taking of measurements and their reduction.

Hours to be arranged

2-4 hours

BIBLE AND RELIGIOUS EDUCATION

PROFESSORS ENGLE, HURSH, AND POTTS

A major or minor in this department may be taken with emphasis on either Bible or Religious Education. Courses are planned to be helpful to all interested in this field, as well as foundation work for vocational religious workers. Students choosing a major in this department will confer with the head of the department for selection of courses, from twenty-four to thirty hours being required.

61. OLD TESTAMENT HISTORY AND LITERATURE. A survey course intended to give a proper appreciation of the Old Testament with special attention to its literary and religious values.

8:30, T., Th., S., 9:30 and 2, M., W., F.,

3 hours

1:00, M., W., F.

3 hours

68. THE USE OF THE BIBLE. A study is made of how the Bible has been used, from the Jewish use of the Old Testament, to present day use of the Bible. Intended especially for those students majoring in Bible or Religious Education, but open to all who have had at least six hours of Bible in content courses. Alternates with Course 72. (Not given in 1932-33.)

1:00, M., W., F.

3 hours

71. PRINCIPLES OF RELIGIOUS EDUCATION. This course provides a comprehensive survey of the movement of religious education, dealing with the history, the underlying philosophy, the objectives, the curriculum and technique. It acquaints the student with the various phases of the movement, its expanding program, its present trends and problems. The course is intended as a thorough introduction and background for further work in religious education. Miss Potts.

10:30, M., W., F.

3 hours

72. ORGANIZATION AND ADMINISTRATION OF RELIGIOUS EDUCATION. A study of the organization of the church for

Religious Education, and its correlation with other religious and educational agencies. Mr. Engle.

1:00, M., W., F.

3 hours

73. INTRODUCTION TO THE PSYCHOLOGY OF RELIGION. A study of the nature of religious experiences; the function of religion in the development of personality; religious consciousness; conversion; worship; leadership, etc. Prerequisite, Course 71, Psychology, or Educational Psychology. Mr. Engle.

1:00, M., W., F.

3 hours

74. PRINCIPLES OF CHRISTIAN LIVING. Attention is given to the fundamental meaning of ethics and morality, to the development of Christian ethical ideals and their application to human relationships in the home, church and community. Alternates with course 76. Miss Potts.

10:30, M., W., F.

3 hours

75. METHODS AND MATERIALS IN RELIGIOUS EDUCATION. An introductory survey course dealing with principles of method applicable to different age groups, as a basis of study and evaluation of programs and materials in teaching religion. (Offered when demand justifies). Miss Potts.

10:30, M., W., F.

3 hours

76. THE CURRICULUM OF RELIGIOUS EDUCATION. The course considers historical theories and modern concepts of the curriculum, together with a study of basic principles and an evaluation of available materials for curriculum construction in Religious Education. Alternates with Course 74. Miss Potts.

10:30, M., W., F.

3 hours

77 THE CHRISTIAN MOVEMENT OF THE MODERN WORLD. A survey course on the spread of Christianity in the modern world. As a background a review will be made of the growth of the church from the beginning to the end of the

Eighteenth Century. A more intensive survey will be made of the modern missionary movement in all lands from the beginning of the Nineteenth Century to the present. Mr. Hursh.

10:30, T., Th., S.

3 hours

78. NON-CHRISTIAN AREAS. This course will include not only a study of geographical areas in the non-Christian world, but also a survey of non-Christian areas of life and thought in so-called Christian lands. Mr. Hursh.

10:30, T., Th., S.

3 hours

79. REQUISITES OF A CONSTRUCTIVE MISSIONARY PROGRAM. This course will consider: the program of missionary education for the development of right racial attitudes; the preparation of missionaries for the diversity of specialized services demanded on the foreign field; the training of nationals for leadership in the development of indigenous churches; attitudes necessary for effective administration of the entire missionary program. (Not offered in 1932-33.) Mr. Hursh.

10:30, T., Th., S.

3 hours

80. THE RELIGIONS OF THE WORLD TO-DAY. This course will make a brief study of the background of the prevailing religions of the world, and follow this with a more intensive consideration of their present status, the adaptation of their message and program to the new nationalism, the impact of western civilization, and especially the relation they sustain to Christianity. A chief objective of this course will be to furnish a truer perspective of Christianity—the religion of Jesus as it grows among other religions. (Not offered 1932-33). Mr. Hursh.

10:30, T., Th., S.

3 hours

BIOLOGY

PROFESSORS SCHEAR AND HANAWALT

The combination of courses which may be offered as a major in Biology depends upon the line of professional work for which a student is preparing and must be chosen in conference with the Head of the Department. Geology is offered as a part of a 32 hour major, but will not be accepted as a part of a 24 hour major in Biology.

91-92. GENERAL BOTANY. A general survey of the plant kingdom, emphasizing the economic aspects of the subject. Two lectures, three laboratory hours, and an average of one to two hours of library or field work each week. Mr. Schear.

9:30 or 10:30, M., W.; Laboratory, 2 Sections,
M., or T., 1-4; Field work F. afternoons.

8 hours

101-102. GENERAL ZOOLOGY. This course begins with the history of zoology and some of the problems associated with life. The animals are studied in an ascending order to man, concentrating upon a few of the most important forms and upon the essential principles of the subject. An opportunity is given to study animals in their natural environment. Two recitations and four hours of laboratory work each week. Mr. Hanawalt.

9:30, M., W., or T., Th.; Laboratory, M., W., or
T., Th., 1-3

8 hours

103. ENTOMOLOGY. A general study of insect life, the insect being studied in its natural environment as much as possible. Instruction is given in the collection and preservation of insects, insecticides and their application, life histories, natural enemies, winter condition of insects and its significance. One lecture, one quiz and two to three laboratory hours a week. Laboratory fee \$1.50. Mr. Hanawalt.

8:30, T., Th., S.

3 hours

104. ORNITHOLOGY. Study of birds and bird life. Thirty or more lectures, recitations and frequent reports on assigned topics. Nest building and home life will be investigated in the field. Two lectures; four to six hours in library, laboratory and field. No deposit. Laboratory fee \$1.50. Mr. Hanawalt.

8:30, T., Th., S.

3 hours

105. COMPARATIVE VERTEBRATE ANATOMY. A detailed study of the comparative anatomy of vertebrates. Throughout the course the interrelationship of structure and function is emphasized. One lecture and four laboratory hours each week. Prerequisite, Biology 101-102. Mr. Hanawalt.

7:30, Th., Laboratory, 1:30 to 3:00, T., Th.

3 hours

106. CELLULAR BIOLOGY. A study of the intimate structure and the activities of the cell, divergent types of cell specialization, cell division and growth. Prerequisite: one year of Biology. Mr. Hanawalt.

7:30, Th.; Laboratory, 4-6 hrs. a week.

3 hours

107. GENERAL EMBRYOLOGY. Includes karyokinesis and the early development of amphibians, reptiles and birds; the germ cells and the processes of differentiation, heredity, and sex determination. The subject matter is approached from the standpoint of general biological relations and will be found useful to the student who wishes to understand the general principles of the science of life as well as to the student preparing for the field of medicine. One lecture and four laboratory hours each week. Prerequisite Biology 101-102. Mr. Hanawalt.

7:30, T.; Laboratory, M., F., 1-3

3 hours

108. HISTOLOGY AND ORGANOLGY. The course includes a study of histological technique, histogenesis and microscopic structure of the tissues and organs of the vertebrate body. Emphasis is laid on the relation of structure to function. One lecture, one quiz, and two to four laboratory

hours each week. Prerequisite, Biology 101-102. Mr. Hanawalt.

7:30, T.; Laboratory, M., F. afternoons 3 hours

115. GENERAL BACTERIOLOGY. A general course giving instruction in the preparation of culture media, principles of sterilization and disinfection, methods of cultivating, staining and studying bacteria, fermentation with special reference to those affecting foods, and in the relations of bacteria and other micro-organisms to health. Two lectures and four to six laboratory hours each week. Prerequisite, one year of Biology. Mr. Schear.

8:30, T., Th.; Laboratory, 1-4, T., Th. 4 hours

116. ADVANCED BACTERIOLOGY. A biological examination is made of air, water, foods, and soil. Special attention to milk and some of its products. Isolation of bacteria in pure culture from their natural habitat. Specific study of a few of the more common pathogenic organisms. One lecture, one quiz, and four to six laboratory hours each week. Prerequisite, Biology 115. Mr. Schear.

8:30, T., Th.; Laboratory, 1-4, T., Th. 4 hours

121-122. HUMAN PHYSIOLOGY. An introduction to the general principles of physiology and a consideration of their application to the human body. Sufficient attention is given to anatomy and histology to lay a foundation for the study of the properties and hygiene of tissues and organs. Certain advanced problems receive special attention—for example, the properties of muscle tissue, special physiology of the nervous system, the receptor system, the circulating tissue, the innervation of the vascular system, the digestive process and metabolism. Two lectures and six laboratory hours each week. Prerequisite, one year of Biology. Mr. Schear.

10:30, T., Th.; Laboratory, 1-4, W. 6 hours

126. GENETICS. A study of the general principles of

heredity. Types are chosen from both plant and animal material. Heredity characters found in man are given much consideration. Toward the close of the course a few lectures on eugenics are also included. Prerequisite, one year of Biology. Mr. Schear.

8:30, M., W., F.; Laboratory, Sat. A. M.

3 or 4 hours

130-E. SPECIAL METHODS. The teaching of the biological sciences in secondary schools is studied by means of lectures, library references and laboratory work. Special attention is given to the place of laboratory instruction in secondary education, the organization of courses and equipment. Mr. Schear.

8:30, F., S.

2 hours

LABORATORY FEES AND DEPOSITS. All students who register for laboratory courses requiring the use of dissecting instruments, magnifiers, etc., are required to make a deposit of \$5.00 in addition to the regular laboratory fee, which covers only cost of materials consumed. The cost of apparatus injured or destroyed is charged against the deposit and the balance refunded. See page 30 for statement of laboratory fees.

CHEMISTRY

PROFESSORS WEINLAND AND ESSELSTYN

A major in Chemistry shall consist of General, Quantitative and Organic Chemistry, making a total of twenty-four hours. A minor consists of fifteen hours.

151-152. GENERAL CHEMISTRY. The attempt is made in this course to give a thorough drill in the fundamentals of Chemistry and to lay the foundation for the future work of those students who intend to follow this line further. Two hours a week are spent in recitation and four hours a week in the laboratory, working out a care-

fully graded system of experiments. The last third of the year will be devoted to elementary qualitative analysis.

*Three Sections: 10:30, W., F., and
9:30, 10:30, T., Th.*

8 hours

153-154. QUANTITATIVE ANALYSIS. The best known gravimetric and volumetric methods for the quantitative examination of substances are used in this course. Prerequisite, Chemistry 151 and 152. Six to eight hours in laboratory and two lectures a week.

8:30, M., W.

8 hours

153B-154B. ADVANCED ANALYTICAL CHEMISTRY. May include special methods in quantitative analysis or advanced qualitative analysis.

Hours to be arranged

4 or 8 hours

155-156. ORGANIC CHEMISTRY. A study of the compounds of carbon with special reference to industrial applications. Prerequisite, Chemistry 151-152.

7:30, M., W., F.; two laboratory periods

10 hours

155B or 156B. ORGANIC QUALITATIVE ANALYSIS. The separation and identification of organic compounds. Prerequisite, Chemistry 155-156.

Hours to be arranged

2 hours

157-158. HOUSEHOLD CHEMISTRY. One semester of organic and one semester of applied Chemistry with appropriate laboratory work.

7:30, T., Th., S.; one 3-hour laboratory period

8 hours

159-160. ADVANCED INORGANIC CHEMISTRY.

10:30, T., Th.

4 hours

161-162. MINOR PROBLEMS IN CHEMICAL RESEARCH. A course designed to familiarize the advanced student with the tools and technique of chemical research. Prerequisite,

Chemistry 151-152, 153-154, and 155-156 or 163-164. May be elected only by special permission. Fees to be arranged.
Conference, library and laboratory work 2 or more hours

163-164. PHYSICAL CHEMISTRY. An introductory course in physical chemistry.

8:30, T., Th. 4 hours

165-166. INORGANIC PREPARATIONS.

Hours to be arranged 4 hours

167. METHODS IN TEACHING CHEMISTRY. This course is designed to supplement work of the Department of Education by presenting problems peculiar to the teaching of chemistry.

Hours to be arranged 2 hours

LABORATORY FEES. To cover cost of materials a fee of \$7.50 will be charged every student taking a laboratory course.

CIVILIZATION

PROFESSOR ROSSELOT

169-170. CIVILIZATION OF LATIN EUROPE. This is a study of the social, economic, and political conditions and structure of Italy, Spain, Portugal, France, Belgium and Switzerland. A study is also made of the Art, Literature and Music of these countries with special reference to their influence on the character and ideals of the people. As very little attention is given to political history it is very important that those taking this course should have had a course either in European History or the History of France.

8:30, T., Th., S. 6 hours

168B-170B. CIVILIZATION OF LATIN AMERICA. Similar to courses 167-170, but dealing with the countries of Latin America.

8:30, T., Th. *Conference periods at hours to be arranged.* 6 hours

ECONOMICS

PROFESSOR TROOP

A MAJOR of from 24 to 32 hours may be taken in this department.

A MAJOR in social science may be taken by combining Economics 171-172, or 173 with European, English, or American History, Sociology, and Political Science.

A MINOR of 15 hours may be taken.

For students specializing in Economics, the Principles of Economics is a prerequisite for the specialized courses in Business Economics.

Students specializing in other fields than Economics may elect Corporation Finance, Business Law, Marketing, Money and Banking, or Accounting (any or all five) by offering the Principles of Economics as a prerequisite.

Courses in this department are open to Sophomores, Juniors and Seniors.

171-172. THE PRINCIPLES OF ECONOMICS, a general course in Economics: economic ideas; change and progress; the language of economics; land, labor, and capital; and their rewards—rent, wages, interest, and profits; business organization; value and price; competition and monopoly; money and credit; transportation; foreign trade; public utilities; government and our money; goal of economic progress. (Given every year.)

10:30, T., Th., S.

6 hours

173. INTRODUCTION TO ECONOMICS. A one semester course designed to acquaint students not primarily interested in the field of economics and business, with the fundamental principles of our industrial and economic structure. This course will not be considered as a prerequisite to advanced work in economics or business. (Given every year.)

7:30, M., W., F.

3 hours

174. **ECONOMIC HISTORY AND COMMERCIAL GEOGRAPHY.** A course designed to give a broad view of the setting for our present economic system. Of primary interest to those students expecting to do further work in the field of economics or business. (Not given 1932-33.)

7:30, M., W., F.

3 hours

175. **ACCOUNTING I.** The legal, industrial, commercial, and financial principles involved in determining how the operations of a business affect the value of its assets and the amount of its liabilities, profits, and capital; presented through accounting practice beginning with the balance sheet and the profit and loss account, and thence to the law of debit and credit. (Given every year.)

A knowledge of bookkeeping is not a prerequisite.

2:00, F. Laboratory, 2:00 and 3:00, M., W.

3 hours

176. **ACCOUNTING II.** A further development of Accounting I. Students specializing in Economics and electing Accounting I are given credit therefor only upon completion of Accounting II. (Given every year.)

MATHEMATICS

PROFESSORS GLOVER, MENKE, AND McCLOY

A major in mathematics shall consist of twenty-four hours, which must include Course 461-462, and of thirty-six points. A minor shall consist of fifteen hours.

421-422. FRESHMAN MATHEMATICS. Prerequisites, elementary algebra and plane geometry. Four sections will be formed. Those students of highest ability will be

assigned to Section I; those ranking second best, to Section II, etc. The first assignment to these sections will be made on the basis of examinations administered at the first class session. However, students will be changed from one section to another on the basis of their daily work, as occasion may demand. Students registering for this course must not register for other 8:30 courses. No student will be admitted to Sections I, II or III, except on the basis of the examinations or proven ability to do the work. Mr. Glover and Mr. Menke.

<i>Section I, 8:30, T., Th., S.</i>	<i>8 to 10 hours</i>
<i>Section II, 8:30, M., W., F.</i>	<i>6 hours</i>
<i>Section III, 8:30, T., Th., S.</i>	<i>6 hours</i>
<i>Section IV, 8:30, M., W., F.</i>	<i>4 hours</i>

423-424. MATHEMATICAL ANALYSIS. Section I is a continuation of Section I of Course 421-422, and Section II is a continuation of Sections II and III of Course 421-422. Mr. Glover and Mr. Menke.

<i>Section I, 9:30, T., Th., S.</i>	<i>8 hours</i>
<i>Section II, 9:30, M., W., F.</i>	<i>6 hours</i>

425-426. MATHEMATICAL ANALYSIS. A continuation of Section II, of Course 423-424. Mr. Glover.

<i>10:30, M., W., F.</i>	<i>6 hours</i>
--------------------------	----------------

431. BUSINESS MATHEMATICS. Prerequisite, Course 421-422. Topics: Interest, Discount, Annuities, Depreciation, Bonds. Mr. Menke.

<i>7:30, T., S. and a 2-hour laboratory period to be arranged.</i>	<i>3 hours</i>
--	----------------

432. ELEMENTARY STATISTICS. No prerequisites other than ability to compute with speed and accuracy. Problems will be drawn chiefly from economics. Mr. Menke.

<i>7:30, T., S. and a 2-hour laboratory period to be arranged.</i>	<i>3 hours</i>
--	----------------

433-434. PROBLEMS. Materials will be selected from

the elementary field and from the experience of the students. Open to all students.

Hours to be arranged.

2 hours

437-438. SURVEYING. Prerequisite, Course 421-422. Training in the adjustment, use and care of the different instruments, field practice, keeping of notes, plotting, and computation. One recitation a week. One period of two hours field work. Mr. McCloy.

1:00-4:00, F.

4 hours

439-440. MECHANICAL DRAWING. The elementary principles of orthographic projection. French's Engineering Drawing is followed for four to six hours a week. Mr. McCloy.

1:00-4:00, M., other hours to be arranged.

4-6 hours

451-452. ADVANCED EUCLIDEAN GEOMETRY. Prerequisite, Course 423-424, may be taken simultaneously with Section I of 423-424. Recommended to teachers. Mr. Menke. (Not offered in 1932-33.)

10:30, T., Th., S.

6 hours

453-454. ALGEBRA. Prerequisite, Section I of Course 423-424 or its equivalent; may be taken simultaneously with Section I of Course 423-424. Algebraic Solution of Equations, Number System, Arithmetic Solution of Equations, Determinants, Series. Mr. Glover.

9:30, M., W., F.

6 hours

455-456. ANALYTIC GEOMETRY, PLANE AND SOLID. Prerequisite, Section I of Course 423-424 or its equivalent; may be taken simultaneously with Section I of Course 423-424. Mr. Glover. (Not offered in 1932-33.)

9:30, M., W., F.

6 hours

461-462. CALCULUS. Prerequisite, either Course 453-454 or Course 455-456; may be taken simultaneously with one of these courses. Mr. Glover.

10:30, T., Th., S.

6 hours

463E. METHODS. Prerequisite, Course 461-462; may be taken simultaneously with Course 461-462. Mr. Glover.
7:30, T., Th., S. 3 hours

464. FUNDAMENTAL CONCEPTS. Prerequisite, Course 461-462; may be taken simultaneously with Course 461-462. Mr. Glover.
7:30, T., Th., S. 3 hours

465. DEFINITE INTEGRALS. Prerequisite, Course 461-462. Mr. Glover.
9:30, T., Th., S. 3 hours

466. DIFFERENTIAL EQUATIONS. Prerequisite, Course 461-462. Mr. Glover.
9:30, T., Th., S. 3 hours

PHYSICS

PROFESSOR McCLOY

A major in this department shall consist of twenty-four hours in the field of Physics or Astronomy.

551-552. GENERAL PHYSICS. Three recitations a week and two hours' laboratory work.* Mechanics, Sound, and Heat are taken in the first semester; Electricity, Magnetism, and Light in the second. Prerequisites, Trigonometry, High School Physics.

10:30, M., W., F.; Lab., T. or W., 1-3.

8 hours

553-554. GENERAL PHYSICS. To cover the same field as 551-552. A course for those who have not had High School Physics.

9:30, T., Th., S.; Lab., T. or W., 1-3

8 hours

555. ELECTRICITY. Electrical measurements form the basis of this course. Two recitations and two laboratory hours per week the first semester. Prerequisite, General Physics. Calculus should precede or accompany this course.

7:30, T., Th. Lab., W., 1-3.

3 hours

556. LIGHT. This course is intended for students who wish to obtain a comprehensive knowledge of geometrical and physical optics. Two recitations and two laboratory hours per week. Prerequisite, General Physics.

7:30, T., Th. Lab., W., 1-3.

3 hours

557. THEORETICAL MECHANICS. An advanced course which is intended to supplement the mechanics as offered in General Physics. Prerequisite, General Physics and Calculus. Two recitations and two laboratory hours a week.

7:30, T., Th. Lab., W., 1-3.

3 hours

*In order to satisfy pre-medical requirements the laboratory work may be increased to four hours a week.

558. **ADVANCED HEAT.** A course intended to supplement the work offered in General Physics. Prerequisite, General Physics and Calculus. Two recitations and two laboratory hours per week.

7:30, T., Th. Lab., W., 1-3.

3 hours

Courses 555 and 556 will alternate with 557 and 558.

561-562. **ADVANCED LABORATORY PHYSICS.** Prerequisite, General Physics.

SCHOOL OF MUSIC

The School of Music is located in the Lambert Fine Arts Building. Numerous practice rooms, equipped with pianos, which are rented at a normal rate, furnish a means for systematic practice. There is a recital hall which seats about three hundred persons. In this hall are held regular monthly recitals.

GENERAL INFORMATION

All students taking full work pay an incidental fee of fifteen dollars. Music students taking less than half work are not required to pay this fee. Out-of-town pupils and pupils in the public school grades are also exempt from the fee. The regular matriculation fee of one dollar is, however, required of all pupils. Tuition is payable in advance for each semester.

Reduction is not made for lessons missed, except on account of long illness, and then the college shares the loss with the pupil.

Lessons falling on holidays are not made up.

Students should enter at the opening of the year for the *Theoretical studies*, as classes in beginning Theory are not started during the second semester.

Pupils will be admitted at any time during the year for private lessons, but not for less than the unexpired part of the semester, except by special permission from the Director.

SYSTEM OF INSTRUCTION

It is the aim in the course of study to give a systematic training, which will prepare the candidate for successful teaching, and at the same time give him a thorough preparation for public performance.

The system of instruction is largely individual. Pupils are studied for their peculiar needs and taught accord-

ingly. Here the mature judgment and different methods mastered by each instructor are given full expression.

Theoretical work, such as Harmony, Counterpoint, History of Music, etc., is taught in classes.

LIBERAL ARTS CREDIT

Studies pursued in the School of Music may be used as electives in the Liberal Arts Courses. For graduation from any department of the School of Music, the student must hold a diploma from a first-class high school, or its equivalent.

DEGREES AND DIPLOMAS

Music may be studied both from the professional and cultural standpoint. Courses are offered leading to a degree in Public School Music Supervising, the Diploma of the School of Music, the Degree of Bachelor of Music. The Liberal Arts Course with Music as Major leads to the Bachelor of Arts Degree.

MAJOR IN MUSIC—TWENTY-FOUR HOURS

Sixteen hours of Applied Music.

Eight hours of Theoretical Music.

Not more than thirty-two nor less than twenty-four semester hours shall be permitted in Music for a major. Any music over the minimum of twenty-four hours shall be divided equally between Applied and Theoretical Music.

Four hours of Piano are required of all students who major in Voice or Violin. For outline of course with major in music see page 107.

MINOR IN MUSIC—FIFTEEN HOURS

Ten hours of Applied Music.

Five hours of Theoretical Music.

All music credited as Major or Minor toward the A.B.

degree shall be of the Freshman grade or above, as outlined elsewhere in the catalog.

PREPARATORY DEPARTMENT

Beginners in music have always been taken as students in the School of Music. This department is designed to prepare pupils from the very first grades up to the regular graduating courses of the school. Pupils who have been prepared in this department are not required to pass an examination to enter Freshman in any course of the School, but are advanced as the teacher sees fit. They will have had, however, the equivalent of the entrance examination (see Courses of Study requirements.) Pupils may enter this department under any teacher except the Director. There is a special rate for pupils who enter this department from the Public Schools. For rate, which includes the matriculation fee, see page 111.

SPECIAL STUDENTS

Students not wishing to enter any of the courses leading to a diploma are entered as Special Students and are not required to follow the prescribed courses, but are given systematic work in whatever musical study they take up.

LECTURES ON ACOUSTICS

Professor J. H. McCloy, of the College Faculty, gives a series of lectures to students on the Science of Acoustics. No music student should miss these lectures. This course is required for both the diploma and degree courses.

THEORY, HARMONY AND COUNTERPOINT

Otterbein offers an unusually well arranged and thorough course in Theory. From the very beginning in Ear Training, Sight Singing and the Elements of Harmony up to the highest forms of Harmony, Counterpoint, Musical Form

and Composition, the student is taught those principles which make for the development of his perception of true musical realization. The course of Harmony proper, runs two years, and must be completed as one of the requirements for the Diploma Course. Counterpoint may be carried the year following the completion of the course in Harmony. Two years' work is *required* for the Degree of Bachelor of Music.

History of Music is a requirement in each course of study.

ORGAN

With the constantly growing number of organs which are being placed in churches as well as many other public places, comes the insistent demand for trained players who have more than a passing acquaintance with the "King of Instruments" and its possibilities.

It is our purpose to help fill this demand, and with this in mind the course of study in organ is offered.

Prospective organ students must first complete the equivalent of one year and a half of regular work in the course of study for piano. (See page 102.)

Students of organ have access to two first-class organs of standard make, having the latest accessories of organ building. The action of the modern organ is as light as the lightest piano action, which makes organ playing a constant pleasure instead of the exhaustive labor of the past.

Otterbein now offers as good facilities for organ study as can be secured anywhere.

(See prices for instruction and practice under "Tuition" on pages 111 and 112.)

PIANOFORTE

The course of study with piano as the major, outlines a period of four years with the Diploma of the School of Music on completion.

To secure the Degree of Bachelor of Music the candidate must complete one year's work in his major study in addition to the above-mentioned course. For other requirements for both courses, see the outline of courses of study of Pianoforte on Pages 102 and 103. The Degree of Bachelor of Music carries with it as one of its requirements the completion of a first-class high school curriculum, besides the following academic courses:

English -----	12 hours
Logic -----	3 hours
Psychology -----	3 hours
Physical Education -----	4 hours

Total -----	48 hours

ENTRANCE EXAMINATION

All students of Pianoforte wishing to enter the course leading to graduation shall be required to pass an informal examination for admission to the course. Students wishing advanced standing must likewise pass an examination admitting them to the desired standing.

The examination for Freshman standing shall show satisfactory knowledge in elementary training, fundamental technic, rhythmic sense, scales and arpeggios; the candidate must be prepared to play any one of a self-selected list of three studies or pieces, which shall include one easy sonatine from Kuhlau or Clementi one of the easier Czerny or Bach studies, and one classic or modern selection of comparative grade. The latter should be memorized.

SCOPE OF COURSES OF STUDY FOR PIANO

The following courses are designed for the average pupil, and are simply models to give a general idea of the work required by the School in a course covering four or

five years' work leading to the graduate or post-graduate diplomas. Different pupils need different studies and individual training, hence no hard and fast outline of studies can be adhered to. However, the equivalent of the courses prescribed must be met to the satisfaction of the teacher before the pupil will be recommended for graduation. The time in years as laid down in the courses is not a hard and fast schedule, for there are some talented pupils who can take several years' work in one, and on the other hand there are pupils who can scarcely get out one year's work satisfactorily in the allotted time.

PUBLIC SCHOOL MUSIC TRAINING COURSE

This course is designed for students who wish to fit themselves for the teaching and supervision of music in the public and private schools of United States from the Kindergarten through the High School. Students who enter training for music supervision must be graduates of a recognized four year high school, or have the equivalent training. In addition the applicant should have special musical ability, a pleasing voice and a good ear.

Students taking this course will be required to belong to an Otterbein Musical Organization (Choir, Glee Club, Orchestra), for at least two years and should be able to appear creditably in student recitals (Piano, Voice, Orchestral Instrument.)

Realizing the extreme importance of more thorough preparation along this line, the State Department of Public Instruction in Ohio requires four years of training. This training must cover a specified amount of music, academic and educational work.

Upon completion of the course the student will receive the degree of Bachelor of Public School Music from Otterbein College and the regular Provisional State Certificate from the State Department.

NOTE—Following is a brief description of the School of Music work as it is outlined in the preceding course:

SCHOOL MUSIC 761-762—A study of Notation and Terminology which will help to form correct habits of notation and clarify thought and speech in defining and explaining musical terms.

SCHOOL MUSIC 763—A study of the voice of the child and application of principles involved in gaining a repertoire of children's songs.

SCHOOL MUSIC 764—This course is intended primarily for those

*Electives may be chosen with the help of Director and Supervisor of School Music.

majoring in Public School Music, but any music student who expects to direct musical organizations would find it to be of unusual value and may be admitted to the class. To establish right ideas as to correct and dignified use of the baton and to give help and suggestions concerning the management and control of musical organizations are the aims of this course.

SCHOOL MUSIC 765—General Survey and establishment of aims and ideals pertaining to all grades. Problems of 1st, 2d, 3d grades. These problems include song singing, listening lessons, monotones, observation work, ear training beginning sight-reading and a study of materials—with numerous other problems. Problems 4th, 5th, 6th grades. Continuation of work of previous grades, with more advanced work in song singing, listening, lessons, sight reading, ear training, theory, etc. Also study of Materials.

SCHOOL MUSIC 767—Problems of Junior and Senior High. First a study of boys and girls of these grades and how to keep them interested in music. Then the specific problems of chorus work, care of the changing voice. Appreciation, Theory and Beginning Harmony, Glee Clubs, Orchestra and Materials. And a practical study of band and orchestral instruments which will enable the student to handle this phase of school music with intelligence and the necessary assurance.

SCHOOL MUSIC 768—The ideal Supervisor, his relation to the officers of the school, to the teachers, the pupils and the community at large, is the final topic for study in preparing the student to take up his work as School Music Supervisor or Teacher.

HISTORY OF MUSIC

The aim is to give the student a survey of the entire field of musical development as presented in the light of recent research.

Lives and ideals of composers are studied with the idea of obtaining a keen, sympathetic understanding of their works and a fine discrimination that will enable the student to compare these works as they are presented and determine

for himself what these contributions have meant to the growth and progress of musical development.

LOW RATES FOR CHILDREN'S COURSES

Otterbein College announces the formation of classes in the lower public school grades. These classes are taught by experienced teachers of the School of Music using the most attractive and successful of the new methods of class instruction. The cost is within the reach of all. In classes of ten or more each pupil will pay 25 cents a lesson, payable at each lesson to the teacher in charge. Pupils will be registered individually at the opening of the Public Schools by the teachers in charge of the classes.

MINIMUM FEE FOR PUBLIC SCHOOL MUSIC COURSE

Otterbein College announces a reduction in the cost formerly charged for the courses in Public School Music. A minimum fee of \$125.00 a semester will cover all instructional costs in this course, unless the pupil wishes to study with the heads of departments in applied music. This minimum fee does not include matriculation, laboratory fees, or piano rentals, but does include all academic subjects.

SCHOOL OF ART

GENERAL STATEMENT

The aim of the school is to provide students with a sound technical training in the various branches of the Fine and Applied Arts to teach them how to put this training to a practical use in the creation of a work of art, to develop them individually, and to encourage them to seek the highest degree of excellence, which leads to a wider and nobler view of life.

The Art Department is conducted on the fourth floor of Lambert Hall.

GENERAL ART COURSE

The General Art Course No. 19-20 embraces the following subjects: Drawing—Antique, Life; Portrait and Costumed Figure; Still Life, Composition; Design; Painting—Oil, Water Colors; Clay Modeling; History and Appreciation of Art—Costume Design and Interior Decoration arranged for Home Economics Students.

Two crafts, elective Junior year.

All of the above subjects are required for a completion of this course.

The student is advanced as fast as he is considered able to do the work, and will receive a diploma when his work in all the subjects is considered satisfactory to his instructors.

Each candidate for graduation is required to leave a representative piece of work to become the property of the school.

Students are not allowed to remove their work from Lambert Hall until after the close of the Annual Exhibition.

NORMAL ART COURSE

In order to meet the standards of the State Department of Public Instruction for special certificates, a total of 24 semester hours is required in the general division of Edu-

cation and Psychology, including Special Methods, to receive a certificate. The object of this course is to prepare the student for the teaching or supervisory work in art in the public schools.

Admission requires one year's thorough work in the General Art Course or the equivalent of such work. If necessary, an entrance examination will be given.

Applicants must be graduates of a first-class high school.

For a certificate in the Normal Course 21-22, the candidate must have completed thorough courses in the following subjects:

Perspective; Design: Pure, Applied; Clay Modeling; Lettering; Basketry; Composition; Pencil Sketching; Water Color Painting; Drawing: Life, Still Life; Batik; Wood Block Printing; Methods, Psychology, Child Study; Colored paper construction and colored paper poster and illustration work; History and Appreciation of Art.

In addition to the work for admission the Normal Art Course will require three years of close application and much work outside of class hours. The student must plan to devote his Senior year to the art work in this course, and to practice teaching one-half day a week in the public schools of the town.

Candidates for diplomas in the School of Fine Arts must complete the general requirements for admission to the Freshman class of the college.

DIPLOMAS AND DEGREES

Students who complete the work of one or more of the classes may receive certificates signed by the instructor.

A Major in Fine Arts, leading to the degree A.B., requires twenty-four hours, consisting of Courses 19, 20, 21, 22, 25, 26, 27, 28, 29, 30. Not more than thirty-two nor less than twenty-four semester hours shall be permitted for a major. Sixteen hours Applied Art; eight hours Theoretical Art. A minor shall consist of fifteen hours.

Anyone wishing to teach Art in the public schools in Ohio must elect educational courses approved by the director.

TUITION
