News From The Graduate School - Allied Health

Otterbein University
Letter From Dean Barb Schaffner - A Trusted Information Source!

Let Otterbein be your trusted information source for new information affecting your day-to-day professional life. The Otterbein Graduate School newsletter is taking on a new vision, purpose and look.

We are excited to launch the newly revised newsletter, whose purpose is to serve you as a developing professional, lifelong learner and leader in your discipline. The newsletter will provide you with information that will affect your professional career. Whether it be a policy change, a cutting edge new practice or a controversial story that has your discipline talking, we will try to bring it to you in each edition.

New Vision: Serve as a Trusted Information Source for your professional life.
New Purpose: Provide You with Information on new developments and issues affecting your discipline.
New Look: Short and Sweet - identifying the new development/professional issue with links to more information.

Health & Sport Sciences (HSS) Showcase
April 9, 2019

Spring Practicum Presentations
April 18, 2019

Doctoral/Masters Commencement
April 27, 2019

Workplace Wellness

A significant trend in the workplace today is the introduction of workplace wellness programs. These programs can range from educational sessions on healthy lifestyles to the creation of on-site fitness centers and health clinics. This trend is having a large impact on health promotion related majors at Otterbein University.

Lauren Quintana, a 2017 graduate of Otterbein's Master of Science in Allied Health (MSAH) - Exercise and Health Science track, is experiencing this first hand. She is the corporate fitness manager for OhioHealth Employers Services. In her role, she oversees the fitness center programs offered to local employers. Learn more here about these type of partnerships.
