MEN NAMED FOR NEW POSITIONS
Martin and Iddings Are Nominated by Board of Control for Places in Athletic System.

COLLEGE COMMITTEE ELECTS
Martin Will Direct and Manage Department—Iddings Will Coach Football and Basketball.

Athletic interests in Otterbein were given the greatest impetus of years last Thursday evening when the meeting of the Board of Control, R. F. Martin was nominated to the position of professor of physical education and Harold J. Iddings was selected for coach of football and basketball. This body will be referred to the executive committee of the college for final approval. This body will no doubt meet this week. Many splendid candidates were brought to the attention of the nominating committee. These were all given much consideration. The men selected are particularly fitted for their abilities in their respective lines of work. The ability of Mr. Martin as a teacher, manager and director of physical work has never been questioned. He is the best gymnasium man that Otterbein has had and is equally well qualified for his other work as head of this new department. Mr. Iddings is well recommended by all who know him and looks like a real coach for Otterbein.

The new policy gives the general charge of the department to Mr. Martin. He will direct all physical work and no doubt teach some work in physical education, hygiene and playground administration. Besides this he will act as graduate manager for all teams. Mr. Martin's experience in all these lines of work makes him particularly well fitted for this new work. He is a graduate of the greatest Y. M. C. A. training school in the country at Springfield, Mass., and has spent several years in Association work and several summers in playground work. As a graduate of Otterbein, Mr. Martin thoroughly understands the needs of the position and will give them his very best efforts.

Harold J. Iddings comes to Otterbein with a great record behind him. In the University of Chicago he distinguished himself as a member of that football team for three years during the seasons of 1906, '07, and '08. For two years he had the honor of being universally selected as halfback on the mythical all-western team. During his career at Chicago he played on championship teams. (Continued on page five.)

DAYTON PEOPLE HEAR GLEE CLUB

Great Enthusiasm Aroused Among Otterbein's Friends in Gem City by Concert at Association Hall.

Club Sings in Germantown
Each Number Pleases Large Audience in Both Towns—Members Are Well Entertained.

Dayton enthusiasm for Otterbein was stirred to the core last Friday evening when the glee club appeared in the auditorium of the Young Men's Christian Association before a large audience of students, graduates and friends. A hearty applause arose from the entire house upon every appearance of the club. Each number on the program created a burst of real Otterbein spirit. The concert was given under the auspices of the Dayton Ministerial Association and members of the alumni. A splendid crowd turned out to hear the student singers.

The full concert program was given with several vocal and instrumental numbers by the Otterbein Concert Quartet. Professor Fritz read two selections in a very pleasing manner. The cordial way in which the club was received in the beginning put each member in high spirits with a determination to do his best. This was evident during the entire evening. Each number was given without a break of any kind and in real college style. Many of those who heard the concert heard the work of the club saying that it excelled that of the other club in the past.

Club Goes to Germantown
On Saturday evening the club appeared in Germantown, singing in the town opera house. The club was entertained for supper at the Reformed Church. After a bountiful chicken repast the boys entertained the church folks with several popular selections. A very nice audience greeted the club at the concert and enjoyed the program to the fullest. At both Miami Valley towns the members of the club were treated royally. The people of these localities were very greatly interested in Otterbein and its progress. Upon being informed of the election of Mr. Martin to the directorship of physical education and of Mr. Iddings as coach of football and basketball the feeling was most favorable. Dayton alumni have been enthusiastic about the newly adopted policy of physical education and of Mr. Iddings' coaching of football and basketball the feeling was most favorable. Dayton alumni have been enthusiastic about the newly adopted policy of physical education and of Mr. Iddings' coaching of football and basketball the feeling was most favorable.

Negative Meets Mt. Union Affirmative Saturday Night in Chapel.
Followers of forensic interests in Otterbein will have their last chance to hear one of the best debating teams that Otterbein has ever produced on next Saturday night, when the Mt. Union Affirmative team clashes with the Otterbein negative in the chapel. Those who will make the onslaught of words for Otterbein will be, J. O. Todd, S. C. Ross and E. L. Baxter. The ability of these gentlemen was put to the test and found true at Muskingum a few weeks ago, when they trimmed "Chuck" Layton's men by a two to one vote. Quite a crowd is expected and no one should miss the forensic treat. The debate begins at eight o'clock. The question is: Resolved, That the Initiative and Referendum should be abolished in the state of Ohio. (Continuity conceded.)

RAPFOLD WINS FIRST
Will Represent Otterbein in State Prohibition Contests—Baxter and Coble:ent Take Other Prizes.

In the prohibition contest held in the college chapel last Thursday afternoon O. S. Rappold was chosen to represent Otterbein in the state intercollegiate Prohibition contest to be held here April 15. E. L. Baxter and Katherine Coble:ent were awarded the other prizes. There were nine in the contest and each gave a splendid account of himself by the manner in which he handled his subject. The judges were George Eister and Dr. A. F. Bishop, prominent Anti-Saloon League officers and Rev. J. B. Hawk of the local Methodist Episcopal church. The prizes offered were of fifteen, ten and five dollars each. Dr. Charles Snavely presided at the contest.

Program.
"Guarding Against the Future"—O. S. Rappold.
"Preparedness"—E. L. Baxter.
"The Nation's Crisis"—Katherine Coble:ent.
"Beneath the Dome"—DeWitt Mills.
"America's Greatest Enemy"—E. H. Sholy.
"Protection"—J. L. Philpoff.
"Sand in the Works"—E. L. Boyles.
"Preparedness"—A. F. Peden.

Is Noon Meeting Speaker.
President Chamberlin will speak at the Grand Theatre in Columbus on next Saturday at the Men's Noon Lenten Meeting. These are attracting great attention and interest among the Columbus business and professional men.

PROFESSOR WELL TRAINED

Doctor Snively Heads Popular College Department—Active in All College and Civic Interests.

Otterbein is exceedingly fortunate in having at the head of the Social Science Department a man who is as well qualified for the work as Dr. Charles Snavely.

Doctor Snively was born near Massillon, Stark County, Ohio, on November 6, 1864. He received his elementary education in the district school and afterwards he taught in the country school for two years. He did not attend high school, but in the fall of 1888 entered the academy of Otterbein University. His preparatory work was finished in two years, and in four years more he graduated from Otterbein University and was granted the degree of A. B. During the first year after his graduation he taught a graded school near Massillon, and in the following year, he was a teacher in the public schools of that city. Then in 1896 he went to John Hopkins University and took up graduate work in the department of History and Political Science. With the exception of one semester spent in the University of Chicago, Doctor Snively took three years of work at John Hopkins University, and in 1900 he accepted the professorship of the Social Science Department at Otterbein University. At first he taught all the history offered by the University and had classes in Political Science, Economics, Sociology, Bible and Criticism. In 1902 he received the degree of Ph. D. from John Hopkins University.

During his residence in Westerville, Doctor Snively has been active not only in the affairs of the University, but in the interests of the village as well. In 1905 he was elected as a member of the Village Council, and has distinguished himself by the ability and thoroughness with which he has discharged his duties. Over the past two years he has been the leading spirit of the Village Library Association, and has given the greatest impetus of years to the library system of the village.

(Continued on page five.)
Professor McCloy and E. L. Boyles give elaborate discussion before Science Club.

Those present at the meeting of the Otterbein Science Club on last Monday evening, listened to two interesting discussions: "The Making of the Halftone" by E. L. Boyles, and "The Habitability of Mars" by Professor McCloy. In his paper regarding the halftone, Mr. Boyles remarked that although so many people enjoy the illustrations and the figures by hand, today most of the work is done by the camera. He stated that when an engraving is carefully examined, it will be discovered that it is in fact made up of a number of minute dots and their intensity governs the degree of blackness of any certain part of the picture. A photograph of the original picture is made through a finely ruled glass plate upon a sensitized sheet of copper or zinc. This composition upon the metal is such that it will strike it so that, when it is immersed in certain acids, the coating decomposes where the light has struck it. The exposed places are etched away so that the ink upon the printing roller will not touch, that part of the plate. After beveling and mountining upon a well seasoned wood block the engraving is ready for the printer.

Engraving in more than one color may be done by making the photograph through color screens of red, yellow, and blue upon three different plates and then printing upon them the same plate of the paper using the appropriate color of ink for each impression. Engravers have so increased their efficiency that on a rush order the work can be finished in about an hour. Professor McCloy in speaking of "The Habitability of Mars" said that careful study revealed the fact that Mars is the most likely of all the planets to be inhabited. Astronomers say that this planet is about one-half the diameter of the earth and one-one-half our distance from the sun. Its year is twice as long as our own and the mean temperature is comparatively low. The atmosphere is very thin. It is quite probable that the Equatorial belt supports life. In viewing the planet through a telescope the most interesting characteristics observed are the polar cap (Continued on page 3).

THE OTTERBEIN REVIEW

Alumni are Making Plans
for Commencement Events.

The Alumni are to be especially ac-
tive in the 1916 Commencement. For
several years members of the Asso-
ciation have thought that some plan
ought to be adopted to make Com-
encement week more enjoyable to
the Alumni. Last June definite ac-
tion, was taken looking towards this
end.

Professor L. A. Weiland, presi-
dent of the Alumnaal Association, has
been working out the proposition and
has tentative plans ready to submit
to a general committee which will be
appointed during the next few days.

In his plans he proposes an Alum-
nal Day,—probably Wednesday of
Commencement week. It has been
suggested that there be a ball game
in the forenoon and the Alumni give
a program of "stunts" during the
afternoon. They would be varied
and original, bringing in Alumni
from as many places as possible, re-
calling events and doings of college
days, and bringing back to memory the
old "pranks" and "frolics" of youth,
giving opportunity to relaugh the
laughs that they used to laugh, in
fact, the people to forget their cares
for a day and re-live, briefly, their
college life.

There is also some talk of change-
ning the Alumni banquet from Thurs-
day to Alumnaal Day.

An Alumnaal Headquarters will
probably be established. Here they
will go to register, to look, to meet
their friends, to find who of their
"college chums" are here, to obtain
possible rooming places, etc.

Watch this column for important
announcements and plan to attend
commencement.

Because of the inability to secure
dyes, the paper wholesalers are
even to supply the Otterbein Re-
view Publishing Co. with the usual
high grade stock.

Thy Will Be Done.

The sweetest peace the soul can know
When we our selfish thoughts forego,
And to the Father, Spirit, Son
Can truly say: Thy will be done.

Why should we worry, fret or frown,
With faith and say: Thy will be done.

Then let us give our hearts' best love
To Him, who guides us from above
And helps us say: Thy will be done.

To Him, who guides us from above
And helps us say: Thy will be done.

For all who in life's race will run
And enter all the mall hours of the
Day, bringing back to memory the
college life.

Girls Entertain Friends at
Dayton—Club Given Party.

Ruth Fries and Alice Hall took a
jolly bunch of girls to Dayton last
Friday afternoon for a house party
over the week-end. The girls attended
the glee club concert in a body.
After the concert a progressive party
was held. The girls together with
the members of the Glee Club went
to the home of Ruth Fries on War-
der street where they enjoyed a splen-
did time and the first part of a delici-
ous lunch. The party then assembled
again at the home of Alice Hall on
North Main street where they
enjoyed a splendid time and the first part of a
delicious lunch. The party then assembled

EDITORIALS

It takes So Little.

It takes so little to make us glad, just a cheerful clasp of a friendly hand.

And we finish the task we long had planned.

And we lose the doubt and the fear we had. So little it takes to make us glad.

Adieu and All Hail.

Another year has come and gone with it the work of the Review staff. With this issue the new members assume the duties.

Because of a complexity in the situation the editor will remain in office for a while until the new staff can be more definitely organized and trained in their respective duties. Hence we bid the old staff adieu and in the same breath hail the new men who are to be a part of the Review.
of Trade of Westerville. He has been chairman of the College Committee on classification for fourteen years, and has held the chair of Social Science for sixteen years. He is a member of the American Historical Association, and of the American Political Science Association. His thesis at John Hopkins was, "The History of the City Government of Cleveland." He has received recognition by Professor W. B. Munro, of Harvard in his book on "The Government of American Cities. At present he has classes in American History, Political Science, Economics and Sociology.

All students, who have had the privilege of his great stock of knowledge received a rare training in his classroom. He delights in a good joke, and one may hear his charges at any time burst into a laugh, which cannot be helped. His jokes always bring out a point, which sticks like a postage stamp. His friendly disposition and droll humor endears him to all who know him. His group is one of the most popular of all the college classes. Each of his students takes real delight in his work and the pleasant way in which he conducts the classes. As a friend to the student he is recognized and his wise counsel is much appreciated.

MEN NAMED FOR NEW POSITIONS

(Continued from page one.) Mr. Iddings spent two years at Miami where he coached. The first year he had a splendid team but during the second he was not allowed to play freshmen because of Miami's entrance into the Ohio conference. He has a splendid record at Simpson College in Montana. His life's race being run, John L. Morrison died at his home, Friday, March 31st, at the age of eighty-three years. Two weeks before he had seemingly recovered from his illness and ventured out, but the exposure proved too much and he suffered a relapse.

Only a few weeks ago Mr. Morrison had published a book of poems written at various times during his life, which he called "Heart Poems." They dealt with many subjects and evidenced a great depth of feeling on the part of the author.

Mr. Morrison was a veteran of the Civil War, being a hundred day man in the 157th O. V. I. He was a member of James Price Post, No. 50, G. A. R., having been its chaplain for sixteen years.

Mr. Morrison was born Sept. 27, 1832, on a farm near Liberty, Four many years ago he was a teacher in the public schools. Later he was a solicitor for the Union Biblical Seminary at Dayton and for Otterbein university. When sixty years old he started the bookstore at its present stand, where he continued in business actively for twenty years. Mr. Morrison is survived by two children, Samuel F. Morrison, '87, of Omaha, Nebraska, and Mrs. J. W. Jones, '88, of South Vine street, Westerville, at whose home he lived. The funeral was held in the college chapel at eleven o'clock on Thursday morning. Rev. E. E. Burtner was in charge of the service. Dr. Snively read the obituary and Dr. Jones, the scripture lesson. President Clippinger spoke of Mr. Morrison's deep interest in Christian education especially in Otterbein. Rev. E. E. Burtner, '87, uttered some very tender words concerning Mr. Morrison's fatherly spirit toward a large number of college students. Dr. Sanders gave a personal appreciation of the innumerable in which Mr. Morrison was held by those who knew him. Interment was made in the family lot in Otterbein cemetery.

caps and the net work of probable canals which supposedly carry water from the poles to the different parts of the planet and connect the small bodies of water which exist. Most of the planets is of an ochre color supposed to be caused by the great expanse of dry desert area, which is irrigated by the wonderful system of canals. These canals are of such geometrical straightness that only highly intelligent beings could plan and construct them. They appear and disappear with the seasons so that it is supposed that it is not the canals themselves which are visible by the vegetation on their banks. The people did not need irrigation by irrigating their dry land and their common need causes them to work together, thus killing any warlike spirit which may have existed in the early history of the race.

and duty to perform in life. The high school at Carroltown is spending much service. This work relates to the evangelisation of the world. Last week in the interests of the Anti-Saloon league, Mr. Kline is to act as advance man for the speakers of the league for the next two months in their temperance campaign of the entire state.

12. Miss Alva Lyons, of Woodburn, made her friends at Cochran Hall a visit last week.

13. Mr. and Mrs. H. C. Plott, of Fostoria, are spending their vacation at the home of the McFarlands on East College avenue. Sunday evening they assisted in a musical service at the Presbyterian church.

10. Miss Grace Cobleantz, teacher in the Miamisburg High school, spent the past week with her mother and sister in Westerville.

12. Miss Ruth Brundage, Director of the Conservatory of Music at Washington College, spent the week-end at her home in Westerville.

13. Miss Nellie Homrighouse, of Otterbein, Indiana, has accepted a position with the Culver Art and Frame Company of Westerville.

12. Miss Edith Bennett, teacher in the Barnesville high school, is visiting at her home in Westerville during her spring vacation.

15. C. M. Campbell reports a very successful basketball season at Marlington. Mr. Campbell began the season with an inexperienced team and developed them to be one of the best in that section of the state. "Chuck" is spending his vacation at home in Westerville.

13. C. W. Foltz, who is attending the Boston Conservatory of Music, made a short visit in Westerville Friday night. Mr. Foltz is giving piano concerts in Ohio and at different places between here and Boston.

12. L. M. Troxel, teacher in the high school at Carrolltown, is spending his spring vacation with old friends in Westerville.

13. H. B. Kline went to New York last week in the interests of the Anti-Saloon league. Mr. Kline is to act as advance man for the speakers of the league for the next two months in their temperance campaign of the entire state.

Trophy Will be Given
To Class Baseball Champs.

This year there is going to be a new feature in the line of baseball. One week ago last Wednesday the Athletic Board decided to have inter-class games. To the winning team will be given an excellent trophy which any class will be proud to gain.

Turner and Bercaw as a committee will select this prize and their choice is always good.

Last year we did not have inter-class baseball and everyone should take advantage of this opportunity to come out. Good class teams mean a better varsity squad and now is the time to show your class "pomp" and boost your own team. Who will capture the trophy?

Get your order in now for your Easter Suit. E. J. Norris.—Adv.

THE CHEERFUL CHERUBS

I tried to smoke one day because
My brother said I couldn't,
I smoked for just a little while
And then I thought I wouldn't.

Willy's Choice.

When the small boy of the family needed a new pair of trousers, mother thought it would be nice to let him choose the kind he wanted. So when they got to the clothes store, mother told Willy, you may choose from these pants on the counter any pair you like.

"Mother, here's my choice, ma," said Willy. "See the card?"

It read: These pants can't be beaten.—Exchange.

New Ties in.

We Thank the Senior Class

For again favoring us as their CLASS PHOTOGRAPHER

It shall be our endeavor to please all of you. We also trust there will be many other members who may want photos at this time.

THE OLD RELIABLE

R. B. Thrush

The Boy Problem" Offers Opportunities for Y. M. C. A.

On Thursday evening R. B. Thrush spoke to the men of the Y. M. C. A. on "The Boy as the Future Citizen of the Nation."

Today European nations are depending upon their men to defend them, but they are looking upon their youth to reconstruct and build up their men in the future. So, it is in America. The boy problem has consequently become one of the greatest importance.

"One day J. E. Gunkle, of Toledo, happened to notice a "tough" little newsboy come into a grocery store, buy fifteen cents worth of hickory nuts, and hurry away again. Interested in what the boy might do with the nuts, Mr. Gunkle followed him, and saw him scatter them on an old bare hickory tree, and then saw his delight in watching some children find them, and triumphantly gather them. Mr. Gunkle, sure that there was some good in the little fellow, asked him to come to his house. Soon he had assembled a number of newboys in a similar way, and then they planned to have a banquet. At this dinner the National Newsboys' Association was formed, and the work of uplifting the newsboy rapidly progressed. The boys themselves became more and more interested in the work. Finally in Toledo a $100,000 building was erected, in which there was a gymnasium, a swimming pool, a reading room, game room, etc."

"This field of work opened up wonderful opportunities for the Y. M. C. A. The young boy is a hero worshiper, and if his thoughts are properly directed, he will soon prefer the helpful environment of the Y. M. C. A. to the degrading one of the streets. The Y. M. C. A. should take these boys in hands, and after finding out what appeals to them, should direct their movements in the right way."

COCHRAN NOTES

Ruth Drury is spending Saturday and Sunday in Grant hospital where she is having her tonsils removed. The operation proved more serious than was expected so Ruth's friends will not see her again until next Sunday as she will stay with her brother in Columbus until she fully recovers.

Catherine Walter, of Oberlin College, spent the week end.

A great discovery has been made! It has been found that since most of the girls on second floor left town that we can have an ideal dormitory. After this, Mother Carley will know where to locate the noise-makers. We extend our sympathy to the Hall and Pfeiffer families in Dayton where the girls attended a house party.

It is not unusual to have a birthday in the dormitory. But it is not an ordinary occurrence to have an aunt come with a basket and a trip home the next day. This happened to Dona Beck Thursday when Mrs. L. O. Baskette made a surprise trip to Westerville. Dona was overjoyed with Aunt Lillie and the eggs but when the trip home was suggested - she immediately packed her suitcase.

"Every bite proves a sensation of delight." Kate had the opposite sensation when "Doc" sent her a box of pebbles Saturday night. Kate is glad that April Fool only comes once a year.

Ruth, bursting joyously into the room, "Say, did I tell you Mickey had a case?"

Roommate, "One doesn't need to be told."

Ruth, "Oh, I mean a car case for my new guitar that Mickey gave me."

The "shut ins" are hoping next Saturday night will be as disagreeable as last Saturday night. It isn't so bad when the weather is bad but when the stairs are shining - Oh my! We feel sorry for those inmates that have four nights in.

Association Mission Study
Classes Begin Active Work.

The Mission Study Classes of the Young Men's Christian Association will begin this week. They have been organized and will meet as follows: seniors and juniors, Professor McCloy reader, at 6.15 on Tuesday evening in Professor West's reception room; the sophomores and academy students, Professor Baskette reader, at 5.15 on Tuesday evening in the tower room of the Association Building. The book to be studied is "Our Church Abroad" written by Dr. R. E. Hough. All classes use the same book and students will be allowed to go in the lower room of the Association Building.

We now have the 6A AUTOPHOTO KODAK SPECIAL with Kodak Range Finder making it impossible to misjudge distance.

Price-$66.00
