ENDOWMENT IS GROWING

Life Insurance is Being Sold to Alumni and Friends in the Interest of Otterbein.

SPLENDID SPIRIT SHOWN

New Plan Appeals to Many Who Have Not Given to Otterbein in the Past Campaigns.

In order to bring the endowment up to the $200,000 mark a new scheme has been devised by the college authorities. This plan is on a life insurance basis. The friend of Otterbein insures his life in favor of Otterbein for any amount no matter how large or how small. He pays his premium each year for a period of twenty years or until death at which time the sum insured comes into the possession of the college. Of course, it will be twenty years until a great part of this falls into the hands of Otterbein.

The advantages of this plan is that a great many friends of Otterbein will be interested in this plan who have not given in the past. Although they may not have a great sum of money they have been inclined to give. They have had the desire but not the means. A policy of $250.00 with a premium of about $10.00 is the average amount of insurance being taken out. A sum of this amount does not seem much at the time yet in the course of twenty years the college has a nice sum to its credit.

The Gem City Life Insurance Company of Dayton, Ohio, is handling the proposition through their representative E. N. Fries. Mr. Fries is a former Otterbein student and thoroughly in sympathy with Otterbein's policy. He has had a great deal of experience in the insurance business. Since working on this scheme, he has exhibited great enthusiasm and has been very successful. At the present time Mr. Fries is visiting the conferences in the co-operating territory. He has been given a list of all friends and alumni by the college administration and will solicit them just as rapidly as he is able to get around.

This is a plan that is being used by many eastern schools in their efforts to increase their productive endowment. It has worked successfully wherever it has been put into use. If Otterbein can bring up her endowment by this plan, it will be much to her credit and add greatly to her prosperity.

Music Department Shows Marked Increase.

Music Department shows an excellent increase in membership this year. The enrollment in the music department breaks all former records.

The enrollment in the music department shows a marked increase this year. The number of students in this department has reached a "high water mark." This year that number has been surpassed. The professors in the conservatory are working to the limit. Some of the new students show splendid ability and are already doing excellent work.

(Continued on page five.)
ENROLLMENT LARGE

Attendance This Year Surpasses All Previous Records—Many States Represented.

Expectations for an increased attendance have been far exceeded this fall. After graduating such a large class last June, there was a little doubt as to the likelihood of passing the large attendance record of last year. Now there is no doubt of it. The number of new students is very large, many former students have returned to complete their courses and the number of withdrawals has been very small. At the end of the first week of registration the record shows twenty-two in excess of the record at the same time last year. This number will be enlarged some during this week for some have not reported this year.

The enrollment in the college classes will be larger than that of last year despite the large loss by graduation last year. In fact, it is brighter than ever before in the history of Otterbein. Many things around the college buildings and on the campus could tell some rare tales if they could speak. Here is a little history connected with an old stone which lies half buried near the rear of the association building.

In former times, in fact up until last year it was customary for each graduating class to leave something to Otterbein besides their good wishes. In the year of 1908, the senior class secured a large stone and had their numerals inscribed upon it. This stone was placed on the college campus on the east side near the rear between the Association and Administration buildings. This was done during commencement week. However, ever before commencement day some "live wires" of another class put their energy into the undertaking of burying that huge stone. One morning the stone was gone and the only trace left was some fresh earth. This caused great excitement but no "scrap" occurred at that time.

The stone rested quietly until the following fall when some of the class of '98 returned and during an autumn evening the stone was again brought above the sod. It remained here but a short time for it was again taken. All kinds of threats were made against the culprits who performed the disrespectful deed. In order to do the job up right it was decided to take the stone away and dump it into the chilly waters of Alum Creek. Again the stone was raised and this time it was loaded on a wagon to be hauled away. However the wagon was not strong enough and it broke down before the stone was off the campus. In the fall a part of the stone was broken off and the class numerals fell downward. Since then the stone has rested quietly, little noticed and got respected as a monument to the memory of the class of '98.

Have You a Handbook?

The Otterbein handbooks have been given out to students during the past week. The book this year is similar to that of former years, containing all the information about Otterbein. They are a very neat little book. One should be in the hands of every student. If you haven’t one, get one.

Grandstand Will Be Ready.

A large and commodious grandstand labeling constructed on the west side of the field. Owing to the lack of sufficient funds, a number of the more loyal students have volunteered their services in the construction. Professor Rossetto is directing the work and the stand will be in readiness for the opening game which is scheduled for the 25th with South High.
Great Variety of New Names and Men Welcomed at Association by Doctor Jones.

The opening meeting of the Young Men's Christian Association presages a very successful year. The attendance was very good. Doctor Jones, professor of Bible and Missions gave an interesting and helpful address of welcome.

He explained the meaning of the Association and said that it stood for all around development and was characterized by the spirit of helpfulness. The formation of the Otterbein Association and the construction of the present building, largely through the efforts of the students, were reviewed briefly to show the students the present the richness of their heritage. The place that the Association has held in the lives of the students was emphasized and every man in school was urged to give one hour of every week for its meetings.

In planning a summer trip Doctor Jones said that he took great pains in finding out all that he could about the places he was to visit that they might be of greater interest to him when he saw them. While we are planning our journey of life we must follow carefully the Guide Book of Life, for the laws of life are inexorable. Never was there a human edict but that he could find a warning against the thing which placed him adrift some place in the stream.

Doctor Jones advised each man to treasure up the truths of the Bible, to have them constantly before them in all of their actions.

New Suits Given Out.

During the past week Manager Glunt has distributed a number of new suits among the football players. The suits this year are made of the very best of material, and of the latest design. In order to keep track of all material and to insure its return after the season, blanks will be filled out. Each player will be held responsible for each piece of equipment given him. All of this must be returned to the manager at the close of the season. This rule will be enforced very rigidly by the Athletic Board.

It is the habitual thought that frames itself into our life. It affects us more than ever before. Never was there a kindlier feeling than to look out with delight over the literary society. If they are as capable and enthusiastic as their appearance indicates we need not worry about their future prosperity.

The campaign for new subscribers has progressed rapidly. If you have not already ordered the Review you should do so immediately. After your college days, a record of these events at Otterbein will be good to read. Every student should keep his own file. Give your name to E. L. Boyles, Circ. Mgr.

We were mighty glad to see the splendid spirit at the reception Saturday evening. Some of the so-called "rough necks" made their debut at the Otterbein circles and a few of the real dignified actually "loosened up" a little.

The hot weather of the past few days has made work rather tiresome but most students are as busy as can be.

Don't Crowd.

Don't crowd the world is large enough.

For you as well as me;
The doors of all are open wide—

The realm of thought is free.
In all earth's palaces you are right—

To choose the best you can—
Provided that you do not try
To crowd some other man.

Don't crowd the good from out your heart.

By fostering all that's bad,
But give to every virtue room—

That which may be had.
To each day's record such a one
That you may well be proud;
Give each his rights—give each his room.

Don't ever try to crowd.

—Charles Dickens.

Scrap Day.

This business of settling disputes between lower classmen has long been a heavy load for the college administration to carry. This year the former barbarous methods are to be set aside and real contests are to decide the entire affair. Scrap Day seems to be a good name for this occasion. We want it to be a scrap from start to finish, yes so much a fight that when the sun sets next Friday every member of the freshman and sophomore classes will feel so completely exhausted that he will wish he were a senior and away from such "horse-play."

In order that this event may prove to be a success we must have some violent enthusiasm for it this week. Those who are not contestants must support it and stir up spirit among the classes. The contestants themselves should get together and form a perfect organization for each event, they will help to bring victory and certainly it will make the events more interesting for the spectators. Get into this thing with all your might.

Let us make this first Scrap Day one which shall never be forgotten. It will be a clean and safe fight all the way through. The more spirited the better.

The new students look pretty good to us. If they are as capable and enthusiastic as their appearance indicates we need not worry about their future prosperity.

All Out for the First Game.

On next Saturday, the Otterbein 
backers will have their first chance to 
see the team in real action. On that 
day the Tan and Cardinal stacks up 
against South High of Columbus. 
"Tink" Sanders of football fame and 
the best quarterback, that Otterbein 
ever had, is coaching the high school 
lads and "Tink" will do his best to 
drive his boys to victory. The Ot­
terbein gridders have not yet been 
chosen; but the team will likely be 
picked from Lingrel, Ream, Huber, 
Neally and Weaver in the backfield. 
Gilbert also will put in a bid at quart­
ter. The line will be chosen from the 
following men: Counsellor, Booth, 
Walters, Higelmire, Miller, 
Peden, Mase, Phillips, Schnake, Bale, 
Thomas and Evans. A mass of beef, 
something which Otterbein has not 
boasted of for years, will represent 
the Tan and Cardinal in the opening 
game. Students, old and new come 
out, get the Otterbein spirit, and 
"yell your heads off!"

The new church was dedicated Sunday, August 15 at a total cost of about $50,000. He worked continually about the church and this combined with his regular pastoral duties proved too much for him. Doctors advise Mr. Weaver to leave Johnstown at once and stay for at least two months.

Miss Denton Sails for Porto Rico.

Miss Grace Denton, formerly teacher of music at Otterbein, sailed last Saturday from New York to Porto Rico, where she will have supervision of the music in the schools of San Juan. Before sailing from New York Miss Denton spent a couple of days at Ridgefield, N. J., as the guest of Miss Lillian Henry, formerly of Westerville. Earlier in the week Miss Henry also had the pleasure of a visit from Miss Maud Hanawalt of the Otterbein faculty.

Improvements Appreciated.

Much comment is heard among the students on the excellent improvements in the gymnasium. The work of those, who made this possible, is highly appreciated by the athletes especially. We surely needed the new baths, the old ones having been put in, so long ago, that the history of Otterbein no longer records it. The dressing room is clean and pleasant and should be an incentive for better work.

COCHRAN HALL.

Wednesday evening the old members of the Cochran Hall Association entertained the new girls with a frolic in the hall parlors. The object of the occasion was to get the new girls acquainted with the old girls and with one another. A jolly "get acquainted" game was played, followed by a program consisting of readings and musical numbers. After this refreshments were served and the remainder of the evening was spent in merriment and good-fellowhip. Both the new and old girls greatly enjoyed the evening and it is hoped that during the year many such good times will take place.

Again the doors of Cochran Hall have been opened to receive the new girls from far and near. We welcome you, girls into our midst and hope you will find a happy home with us.

At chapel Wednesday morning while the President was making his appeal in regard to smoking on the campus, Dona Beck was heard to say, "Why the heating plant smokes on the campus every day." And she is a Junior too!

Great was the joy of the girls who, upon returning, found their rooms with new rugs and retinted walls. Many thanks, Mr. Baker.

Owing to the crowded condition of the hall, Olive Wagle, Gale Williamson and Elizabeth Richards will occupy the same room. It will also be more convenient for them than their old room.

Remember, girls, no talk in the hall.

No homesickness has been noted among the little freshmen girls with exception of Irene Wells and Ruth VanKirk.

Stella Lilly was called to her home in Hicksville, Ohio early Friday morning because of the death of her step-mother.

See Walters for all kinds of flowers.—Adv.

Professor McCoy Married.

Rev. E. E. Burtnor performed the marriage ceremony uniting Miss Ona Milner, of Columbus, and Prof. James McCoy, of Otterbein university, at the home of the bride Wednesday evening, June 29. The service was conducted in candle light, which shed a soft glow over the room decorated with roses.

A large number of Otterbein faculty members attended the wedding. Mr. and Mrs. McCoy will live in Westerville on University street.
