MEMORIAL WILL BE ERECTED
WHEN FUND IS RAISED

The memorial to the Otterbein students who have fought in the First World War will be erected in the near future. The committee which has thus far made this charge has been working steadily. There is yet much more to do, and this is such as soon as this amount is secured the work will be started. Contracts from various companies have been considered so that his thoughts can go on ahead with the total expenses provided for.

The memorial will be in the form of a monument which will be placed upon the campus. Upon this monument will be placed a bronze tablet bearing the name of each student from Otterbein who followed the Stars and Stripes in the sixties. This memorial will be a very beautiful affair. It will cost about $800 when completed.

The gifts which have been received vary in amounts from $5 to $30. Many of the alumni and friends of Otterbein have responded nobly. It is hoped that the balance can be raised immediately and that all pledges will be paid soon. If this is done the dedication and unveiling of the monument will take place in the near future. A monument of this kind will add greatly to the appearance of the campus and is due the memory of these veterans.

ENTHUSIASM AROUSED

Football Rally Stirs Up Otterbein Spirit—Good Speeches Given

—BONFIRE HELD

Where is the pessimist who said there was no "Otterbein Spirit" this year? He attended the football rally Wednesday evening and had his Janus's "doings" started with a parade forming in front of the Conservatory, marching down College Avenue to State Street. There the band played and yells were given. Then all marched to the chapel, the band playing "Oh, We're Proud of Our Alma Mater."

After being seated in the chapel the seniors "pulled off their stunt." It was a very impressive wedding ceremony. To the strains of "Oh, Holy Night," the March Wedding, played by Miss Emma Nel, the bridal party marched in and took their places before the altar. With smiles of happy expectation, the vows were taken, the rings being used. The bride, Clifford Schnake, was gowned in white, wearing the veil. The groom wore a tuxedo, the best man a garter. The Rev. E. J. Pace performed the ceremony.

The maid of honor was Helen Moses, little Mary Pore carried the ring, and dainty Katherine Cobelns and Lela (Continued on page five.)

STUDENTS ADDRESS

Leader in International Sunday School Association Speaks at Chapel on Wednesday.

The students were addressed Wednesday morning at the chapel hour by Mr. W. C. Pierce, head of the Adult Department and the Education Department of the International Sunday School Association. Mr. Pierce is one of those speakers whom the students wish were more numerous for he has the art of presenting with lessons in an interesting and impressive way.

"Get ready to live" was an epigram he emphasized especially. "Don't get restless" was the world cannot wait until you are thoroughly prepared for your work. "Learn to be thorough" in everything you do. "Don't give up." He illustrated this point by a story of a foot race by boys and girls down the country road.

The speaker showed the great opportunities of a young man or woman (Continued on page six.)

Church Work Society

Will Serve Chicken Dinner.

On Wednesday the Church Work Society of the United Brethren Church will serve a splendid chicken dinner at the Association Building. The society is doing this in order to raise their pledge for the new church building. It is hoped that the various boarding clubs will close Wednesday and Thursday evening and that all will attend this delicious repast. Tickets will be twenty-five cents.

KENYON WINS OPENER

Otterbein's Varsity Loses Hard-Fought Game to Old Rival on Home Field.

EPISCOPALIANS ARE LUCKY

Intercepted Passes Prove Fatal to Tan and Cardinal—Team Loses Experience.

Kenyon defeated Otterbein in a closely and hard-fought game here Saturday afternoon. It was at this point that the game began with more spirit and gaiety than has been shown here for some time. Kenyon kicked off and Otterbein was unable to gain and was forced to punt. Kenyon returned, was unable to gain and was forced to punt. Sigh was the story of the first quarter of the game. A forward pass was resorted to at times, but few gains were made. Straight foot ball was used by both teams. Kenyon seemed at first to play a little steadier than Otterbein and forced the Cardinal and Tan warriors back to Otterbein's yard line. It was first down and a touchdown was feared. The Otterbein line held and Kenyon was able to fake a pass which went over the line. Huber leaped in the air pulled it down and ran for 12 yards. It seemed hard to keep Kenyon from reaching Otterbein's goal and soon again the ball was within yards of the coveted line. Goibran narrowed the margin to 6. With more than yards to go for first down, the Kenyon fighters were again held at bay by the Otterbein line. Otterbein took the ball and punt. Big Higelmire received the ball on the 60 yard line, which Kenyon out of bounds. It was then that the prettiest part of the game was (Continued on page five.)
MARIETTA SPANNED SURPRISE

Contest for Prestige of Athletic
League of Ohio Colleges Made

Hot by Marietta.

Soon after the beginning of inter-college football there were many
tensions at organization among
the various colleges. Some of the larger
schools like Ohio State and Oberlin
with four others, were united in
a league known as the Ohio State
Athletic League. Otterbein did not
get in this organization, so together
with four other colleges, Ohio, Marietta,
Wittenberg and Miami she formed
the Athletic League of Ohio Colleges,
in the spring of 1889.

A baseball schedule was made and
a pennant was to be awarded to the
champion. Otterbein was in the
lead until the last of the season. The last
game was with Marietta. They came
up here and took their umpire with
them. That was the custom in
days for it was thought that
the advantages of the home field
could be partially overcome by al-
lowing the visitors the umpire.
The game was rather slow and uninter-
esting, and in the last, when Marietta
awoke and got in some extra runs.
The game ended 6 to 7 in favor of
Marietta. This score tied Otterbein
at first place. The deciding
game was played after
the season was over at Recreation Park
in Columbus. Both teams used ring-
er batteries but Otterbein came out
on top.

The Athletic League of Ohio Col-
leges was a rather short lived organi-
sation as it broke up after the foot-
ball season the next fall. The pen-
nant which Otterbein won is still to
be found among the collection of
athletic trophies. It serves to remind
us of the surprise given our con-
dent team by Marietta and to warn
us to be ready that we may not
be surprised again in the football game
which we have with their team next
Saturday.

The Spur of Failure.

Failure shouldn't be a brake,
Make of it a spur,
Mend your pace and keep awake
When its stings occur.
Make of it a call to fight,
Not a cry to quit;
When your plans aren't going right
Rouse yourself a bit.
Failure's not a stopping place,
It's a starting line,
Just the first lap of a race,
Do not pause to whine.
When itsrowels come to you
Take them like a man;
They are not meant for you to do
Something that you can.
If by failure you are spurred
You can win again;
Many a time this occurred
To your fellowmen.
Therefore you may take you
When you are troubled.
It's when a failure is a brake
That a fellow's lost.

--Detroit Free Press.

FORWARD PASSES.

Otterbein To Have Several Teams in
Field For Whirlwind Prohibi-
tion Campaign.

At a meeting of the Inter-collegiate
Prohibition Association, on Sunday
grand enthusiasm was manifested
on the part of some of the men to carry
into effect the plan which was out-
lined by the general secretary, Doctor
Colvin. Quite a few men have al-
ready volunteered their service in the
State campaign, but Otterbein's quota
is not near full. Of the twelve hun-
dred college men wanted in this fight
Otterbein's share would be at least
fifty and in this she should "take
back seat."

Every man who is interested in any
phase of the temperance movement
can find a field to work in the next
few weeks. There is need for men
who will give their time and effort to
help the team. There can be a chance on
the front lines and from there can hurl
weapons at the enemy in the beer
barracks. The argument will be divided
into four parts, viz., Political, Scientific,
Economic and Moral. The teams will be
composed of our men and each one
will present one line of argument.
A professor in Ohio State University
will prepare a brief and a bibliography
on each phase of the question in
order to abate much difficulty in arran-
ging a speech. But not to these
chairs is there opportunity of John
in the campaign. Musicians of all sorts
are wanted, those who can sing in
the quartet or those who play any sort
of an instrument, as a quartet of mus-
ic makers is to accompany each team
of speakers.

Thus this section of Ohio is to be
given a whirlwind campaign and every
one who is interested in the great
fight may join the struggle by seeing
Mr. E. L. Baxter who is chairman
of the deputation committee of the local
organization.

Y. M. C. A. Membership
Campaign Will Be Waged.

On Wednesday evening the Y. M.
C. A. membership committee will run
a whirlwind campaign for new mem-
ers. All new students and all others
who have not been on the associa-
tion record will be seen. If the man
is not at home he will be seen later.
Every one will be visited and asked
to line up with the Young
Men's Christian Association. The dues
are one dollar for the year. This is a
very small amount when the wonder-
ful good obtained is considered.

At Denison this same kind of a
scheme is followed to increase the
association membership. Their cam-
npaign was held a week ago. They
report that with the exception of
seven men all have joined the Y. M.
C. A. If this is possible in a section
surely all Otterbein men will rally to
this great organization.

Boost for the team.
SUNDAY SCHOOL RALLIES

Large Attendance Comes From Efforts of Workers.

Sunday was Rally Day at the Westerville United Brethren church. Nearly every college student attend-
ed this special service, but there was still plenty of room for those who did not come.

At the close of the regular exercises Mr. Weiland, Superintendent Emer-
tis of the Sunday School made a short talk, commending the young people upon the
great progress the school had made in the thirty-five years that he had been connected with it. The first or-
chestra, he said, consisted of one coro
net which was played by Frank E. Miller, now professor of Mathe-
natics.

President W. G. Clippinger, the head of the Ohio State Sunday School Association, told of the vast op-
portunities in this type of religious work. There are now 32,000,000 Sunday School students in the U. S. and 18,000 of these are in North Amer-
ica. Approximately one-tenth of this number are teachers. College men and women who book-learning the nature
and extent of their training to be the
leaders of the world. In no phase of the world's activities are there
stronger calls for the proper man or woman than in the Sunday School work. It therefore behooves every one who has the privilege of attend-
ing a Christian College to its thres-
themselves for this great field of service.

Girls Hold Frollic in Association Parlors.

Rar'e prejudice and caste differences fell to the winds on Friday night when the Young Women's Christian Association entertained themselves and their friends. Saucy picanninies joined hands with polished white trash, while gay society belles flirted with cadets and country swains. Children were in abundance and one
fond mother with her baby in a cab. All classes gave their yells. Even the alumni were heard from when three members of '15, gave a lusty "Hurray!" Yet the Seniors sur-
passed all the classes in eating, both in quantity and speed, for even after winning in a cracker eating race, they still consumed quantities of pickles, sandwiches and ice cream cones.

It was one good time, and when at last everything had been said and everything had been eaten, everybody went home thinking; "Thanks to Y. W. and her Social Committee—the best Frollic yet!"

Wooster Has New President.

Dr. J. Campbell White, L. L. D., late president of the layman's forward missionary movement, has been elected president of Wooster College. Dr. White has distinguish-
ed himself all over the world as a great missionary leader. Wooster is fortunate in having such a valuable man as chief executive.

Training Rules Drawn Up and Signed.

In order that the football men may be in the very best physical condi-
tion Coach Martin has drawn up a set of rules. The candidates are to
line in splendid fashion and subscrib-
ed to the rules. The rules and signers are as follows:

We, the undersigned, candidates for positions on the 1915 football team of Otterbein University, agree to observe the following rules of training during the football season.

1. To refrain from the use of to-
bacco and alcoholic liquors.
2. To observe regular hours of sleeping, retiring at least by 1:30 p. m. and on Friday night at 10:00 p. m.
3. To eat a minimum of foods con-
aining grease in large quantities and to refrain from eating pastries.

4. To receive all instructions given from time to time regarding training.
5. To report daily for practice un-
less excused by the Coach or Cap-
tain.

The Pleasant Smile.

He was not rich in worldly goods; No offices he held;
In no one field it might be said Of him that he excelled;
He managed but to get along.
To march with rank and file, And yet he was unique in this—
He had a pleasant smile.
While others careworn faces wore, He smiled his way through life; For had his share of trouble too, Of worldly care and strife; But somehow furrowns never came That mark the weary mile; His face a benediction was— He had a pleasant smile.
He made our burdens lighter seem, Our worries chased away; His cheery greeting always made A brighter, lighter day; Or never made his pile? He had a pleasant smile.

Conservation of Time Discussed by Young Women.

Did you hear "Time" discussed by Helen Ensor last Tuesday evening or are you a girl who thinks, "No time for Young Women's Christian Association?" Benjamin Franklin said, "Yes, use some of it!" Then do not squander time for that is the stuff of which life is made.

If you have not time make time to schedule and consequently get more done. But if one cog in your wheel is out, you are thrown out of gear. If you miss breakfast and "cut" your seven o'clock class your day is spoiled. So make a schedule and stick to it.

Concentrate! Half your time is in hap hazard planning. If you have not time to study begin now and save time.
The time gained is yours to spend. Use it to help others. Use it, for this is a day for the Christian associations.

Wesleyan.—A caricature appeared in last week's Transcript representing the student body as a hen setting on a nest of eggs, each one of which represented an Ohio college which Wesleyan will meet on the gridiron. Below was the request "Let's hatch a nest of eggs, each one of which represents an Ohio college which Wesleyan will meet on the gridiron.

Effects of European War on Medicine Discussed.

Dr. J. W. Fuik, an Alumnus of Ot-
terbein and very widely known citizen of Westerville gave the Young Men's Christian Association a rare treat, Thursday evening, in the way of an address. His theme was "The Effect of the War on the Medical Profession." The production was so full of information that after any comment, of excellent subjects for thought, that it is to be regretted that every man in Otterbein was not present.

The attendance was very good but there is still room for a great deal of improvement in this line. It is impossible to determine the good a young man derives from the associations and influences that can be brought about in no other way than through the Young Men's Christian Association. Any young man who neglects to attend regularly the Thursday night meetings is sadly neglecting a wealth of college life and college education. After all, our college education should mean more to us than merely a college record. It means a mental record of facts; it should mean a thorough understanding of ourselves and of the other fellow. In no other place can this be better accomplished than in the Christian associations. We must have this to be the broad-minded, sober-thinking citizen that our college life strives to make of us. So come out next Thursday evening, fol-
lows; and set the Association help the college make men of you.

Examination Will be Held In October.

Competitive examinations for the Ohio Rhodes scholarship will be held October 5 and 6. President W. O. Thompson of Ohio State University is chairman of the committee of selec-
tion whose duty it is to pick from the list of those who pass the examina-
tion the student who represents the interests of Ohio for three years.

The scholarship carries with it $1,400 a year. It is one of those established by Sir Cecil Rhodes, the late South African capitalist and statesman.

To be eligible for the scholarship a student must have completed two years of collegiate work and must have received the largest part of his education in Ohio. Similar scholar-
ships will be offered in 1917, 1919 and 1900.

Marietta Next.

On next Saturday the Tan and Card-
inal squad goes to Marietta to play the college at that place. The team must expect a hard game, for Marietta won from Case at Cleveland last Saturday. It has been a long time since Otterbein has won a game there; but the custom may change. All Ot-
terbein expects great things to happen Monday night. The team is used to tackling and running interference, and the team ought to be impregnable. This will be developed this week and a victory is looked for. The line-up will likely be changed; but as yet we cannot publish it. A stronger team is sure to meet Marietta than clashed with Kenyon and unless something happens Marietta had better worry.

Does This Hit You? Spiking the Guns.

One thing said of Macaulay was that he had occasional flashes of silence that made his conversation perfectly delightful. It is useless to add that the great historian had the reputation of talking too much.

This reference to Macaulay we re-
commend to professors with eight-
cylinder vocal chords, to the student who takes up all his time with a set-
ing with an erupition of "bon mots," and to the co-ed who bombard her meek caller with a fusillade of phonics until the alarm rings.

EDITORIALS

The law imprinted on the hearts of all men is to love the members of society as themselves. The universal, unchangeable law of all beings is to seek the good of one another, like children of the same father.—Cicero.

Study.
The great trouble with many college students is that they do not know how to study. The power to study is something which must be cultivated continually. If we are lax in it for but a brief period it is a most difficult task to get back into the harness in order to be students in the true sense of the word there must be no let down in regard to the concentrated thought and continued work which we put on our line of study.

In order to make our study easier and of the most value there are at least three lines which should be followed. In the first place we must have a real interest in which we are to study. Nothing can be accomplished unless the heart is in sympathy with the to be action. If this basis of co-operation does not exist at once the problem is to bring it about. We must put our own bodies and minds in such a state that there will be only concerted action. When this situation is established, when such an atmosphere is formed we are able to proceed.

In the second place we must get a working knowledge of our subject. We can only build our higher structure as we have a firm and sound foundation. To do this a course of reading must be followed. This must be not only along the particular line which is being followed but also along the kindred topics and various phases of the subject which are related to the one in which our special work is being done. We must be thoroughly familiar with and adequately acquainted with every line bearing on the one in which we are working.

Our third point is that we must associate with those who have the same interests that we have. We must converse with them, get their ideas and opinions, find their methods and see out what they have overlooked. By doing this we are able to gain the advantage of all that they have accomplished.

In realizing these things we must apply ourselves and seize every opportunity as it may present itself. Our seeking mind must be ever open and alert. We must concentrate and get the highest results from our efforts. These traits or characteristics of study must be acquired early. Now is the time to practice. Soon they will become a part of our natures and then we shall be able to secure the greatest mental efficiency.

Go To Church.
For the past few years our churches have set aside a Sunday each year and have called it Go-to-Church Day. This movement has been begun by all religious papers and Christian organizations. Now the secular press has taken it up. Besides the regular church notices large publicity is given to the programs of various churches. Our large dailies publish a weekly editorial in which they give special emphasis to the important part the church plays in our every day life. The entire world is each day coming to a greater realization of the necessity of the Christian religion.

In Otterbein, students are not required to attend the Sunday services. In a great many other denomination institutions of this kind, all students are required to be in their places at the churches on Sunday as well as on other days. But the demands here are light—a fifteen minute chapel service five days a week being the requirement. The rest is left to us with the advice and help of the college administration that we attend church. In the end we are free to act as we see fit.

Many of us fail to attend the required chapel services as we should. All we go to chapel every day, some of us attend the Christian association meetings and about the same number go to church on Sunday. This is not the way things should be. All should be in some church service on the Sabbath. We have been accustomed to such regular attendance when at home and why should we do other wise when in college. We owe it to our parents, to our friends, to our God and to ourselves to be at Church on Sunday. If you have been attending regularly—keep up the practice; if you have not—make this year a better one in respect to your personal religious life.

Be Quiet.
Last year the method of assembling at chapel was changed on several occasions during the past few weeks the request has been made that the students take their places more promptly and quietly. These requests are heeded by a few but the great majority continue along the former lines of least resistance. There are some few students who have the burden of the college on their shoulders, if we were to draw conclusions from the amount of talking they do before chapel. This is not the case. There is no reason for such conduct on the part of some students. Better order must prevail.

If the old Athletic field is to be made a hay field we suggest that the crop be cut. The heating plant will soon be lost from view.

CLUB TALK

To the Editor:
The new system which has been inaugurated here in regard to the settlement of the rivalry between the freshmen and sophomore classes has been successful. The Saturdays were such that all the "prep" was taken out of the contests. The "prep" received was evidently appreciated. The victors were men after the victory. Neither class has made any disturbance since the day of the contest. Surely, this is a more satisfactory method of dealing with this question than that used in the past.

The use of a full day for such events is a splendid thing. The holiday gives it the sanction and backing of the college authorities and brings about a greater interest among non-contestants.

The faculty is to be highly commended for the interest they took for the holiday which they gave for the holding of the contests. The officials who had charge of the various events showed promptness and absolute fairness in all their decisions. The entire day's program was carried out without a slip.

Scrap Day will long be remembered as a great day in Otterbein history.

KenyOn Wins Opener

(Continued from page one.)

made by Penen, who dashed around Kenyon's end for 80 yards. It was a wonderful sight to see his once-man after man and was only stopped by the Kenyon quarter back. Otterbein lost the ball on downs.

At this point Shoffsbill went for the 80-yard line and through two 10 yard penalties and a pretty run by Shafter, which netted 16 yards, Otterbein was forced back to her 80 yard line. Kenyon tried a pass; but Captain Lingrel intercepted and placed the ball on Otterbein's 83 yard line. With only forty seconds to play in the first half and as luck would have it, Shafter the Kenyon quarter intercepted a tried pass and advanced toward Otterbein's goal. Otterbein held for three downs; but on the fourth Shafter passed to Shoffsball, who was soon tackled, but slid across the line for the score. The kick failed. The half ended after Kenyon kicked off to Huber.

The third quarter was evenly played. Both teams pushed their opponents back only to lose the ball and this period ended with Kenyon's ball on the 80 yard line.

The fourth period started with Kenyon making first down. Shafter tried a forward pass. Neally in a wonderful catch intercepted the pass and darted up the field. A Kenyon man nailed him behind after he had run for 30 yards. Lingrel pointed to Shafter who fumbled, and Bill Counsellor dashed for the ball and held it on Kenyon's 10 yard line. The entire crowd was silent as Ream called the signals. The Kenyon team held for three downs like a stone wall and "scrap." The tackle of Kinder and Ader was the shining light of the Kenyon defense. Kinder is the best end seen here for some time, and Ader was not far behind.

The offensive work of the Kenyon backs was excellent. Golberach, the fastest back in the state played a good game at carrying the ball. Shafter was a star at quarter, being good in forward passing and shining as an open field runner. The Kenyon team was well balanced and fought from start to finish with the Kenyon "scrap." Otterbein 0; Kenyon 6;

PROGRAM ANNOUNCED

(Continued from page one.)

Beecher, Phillips and Grady of the local orchestra will present the program on the evening of January 24, the Killarney Girls will appear in Irish costumes and with an appropriate setting will present a program of instrumental music and singing. Miss Rita Rich, gives a very pleasing part of the program when she appears in her Irish folk-songs.

ENTHUSIASM AROUSED

(Continued from page one.)

Shaw were the flower girls. Among those present were the bride's parents, Russell Senger and Dorothe Beck, the groom's parents, G. L. McCall, and Mary Nichols, also others of the immediate relatives.

H. D. Bercaw presided at the rally. The first number on the program was a selection by the Otterbein band. There was a splendid showing of the band, there being twenty-one men in it. All then joined in singing, "We're Proud of Our Alma Mater." Many yells were given. Captain Elmo King, '17, gave a fine speech. He demonstrated that he can talk as well as carry the ball down the field. Ruth Drury, '18, responded with an excellent talk. Rollin Durant, '17, and Earl Baehnt, '18, favored the audience with a baritone yeld. Homer B. Kline, '13, gave an enthusiastic speech. Lydia Garver, '16, on the theme "Get Kenyon," gave an excellent parody of Lincoln's "Gettysburg Speech." A new song, "We'll Ne'er Forget Our Otterbein," was sung by the girls. The band played another selection. The hearty applause given Professor Fritz testifies to the merit of his football reading. J. B. Garver, '17, led the audience in singing a medley of Otterbein songs. Coach Martin was called on for a speech, to which he responded in a fine manner. Manager "Abe" Glunt, '16, gave a fine speech. His oratory vent itself in his appeal, "Boy, ain't it too mother's sake!" After more yells, all went to the athletic field, for the bonfire. The ladies, able of us, gathered around the fire, bearing the signs "Get Kenyon's Goat." The juniors demonstrated how to "beat up" on Kenyon.

Much credit is due Stanton W. B. "Cocky" Wood in the enthusiastic way in which he led the rooting. This accounts for much of the "pep" of the rally. All who were there took up the slogan "Get Kenyon."

STUDENTS ADDRESS

(Continued from page one.)

A woman in the Sunday School work. To show the necessity of such work he stated that he has found by his own investigations that the men who were giving the most service in the world were men who had received some of the "pep" in the Sunday Schools.

"If the college men fail our nation, I will bite the dust, old Glory will trail in the Sunday School work."

Cabinet Meeting Tonight.

The Young Men's Christian Association Cabinet meeting will be tonight at 8 o'clock in the cabinet room in the Association building. This meeting is important and a full attendance is desired.

Men.

I'm not just sure who took my part.
But this I know, he has my heart.
For I'm the "frail" corn-fed.

I've a stand a lot before I'd bite
That girl who's called a dream,
But I will bite and I will bat,
If she calls my man a "scream."

I know I'm not a cat at rhyme,
But it sure does set me wild
When some sweet girls with raven curls
calls a six-foot a "child."

I'm not a girl so a la mode
But that my heart would burn
If some fair dame, with fancy name,
should take my man for her's.

As far as I'm concerned, you know,
(Now don't begin to sigh)
But I always rather admired the girl
Who could call a man a "guy."

Then, too, the girl has sure some nerve,
Be she bad, bold, or subdued,
Who can look a man square in the face
And call him a "poor boop."

She should have some credit, too,
Who can always calm say,
After looking them over in a crowd,
My, did you see that "Jay."

Another girl who's awful cute,
And sure not in the blink,
As the one with her in the air
Who calls a man a "squirrel."

But the best of all we've saved 'til last,
And we'll hand it to the girl,
Who, without an eyelash quiver
Designates a man a "squirrel."

CHORAL SOCIETY WILL

Give Two Concerts.

The Choral Society promises to be the best in the history of the organization. A change in program is to be followed this year. Beside the commencement concert the society will give a mid-year concert in January. It is hoped that one of these will be given in costume.

Professor A. R. Spessard will direct the choral society this year. During the past two years Professor Binger has been in charge but because of the large increase in his number of pupils in voice it is impossible for him to carry this extra work. The work of Professor Spessard as director of the college glee club, band and orchestra has been excellent in every respect. The same will characterize this work with this larger organization.

Teacher.—"Where is the Dead
Sea?"
Tommie.—"Don't know, ma'am."
Teacher.—"Don't know where the
Dead Sea is?"
Tommie.—"No, ma'am—'I didn't
even know any of them was sick,
ma'am."
—Yonkers Statesman.

The Superiority of the

OLD RELIABLE

Baker Art Gallery

COLUMBUS O.

Is Well Established

We excel in artistic pose, fine lighting, and without doubt the most durable photographic work that can be produced.

See our special representative for Special Otterbein Rates.

"Efficiency."

Much fun has been "poked" at the teaching done in Sunday Schools.

The Washington Herald prints the following list of questions and pupil answers taken from examination papers in a Maryland school. Rather musing? Yes.

**True Scholarship.**

What was the chief event of Solomon's reign? He died.

What came before him and who came after him? David, the Queen of Sheba.

Name some of the early Christian fathers. Jerome, Oxygen, and Ambrosia.

What religion had the Britons? A strange and terrible one—called the religion of the Dudes.

What caused the death of Cleopatra? It was because she bit a wasp.

Where is the climate hottest? Next to the Creator.

What causes perspiration? The culinary glands.

What are molar? Teeth which grow outside the head.

What do you call the last teeth which come to a man? False teeth.

What is the form of water drops? A drop of water is general spherical, for various reasons, best known to the gracious Providence who made them.

What of the surface of the earth composed? Of dirt and people.

What is the function of the gastric juice? To digest the stomach.

Define interloper. A very idle person.

Define ignition. The art of not noticing. Define interloper. One who runs away to get married. Define omnious. (1) Power to be all present. (2) Power to eat everything.

Define flinch and use it in a sentence. Flinch, to shrink. Flannel flinches when running all over the body; it is considered very dangerous.

What is the spinal column? Bones running outside the head.

Did you get a taste of the Otterbein Spirit at the Rally Wednesday ev'ning? If so subscribe for the Review and keep the spirit alive.
