More Response to the Towers Hall Question

I cannot see spending the amount of money necessary to recondition the building. My suggestion would be to replace it . . . and stylize into the new building the present bell tower. Perhaps it would also be possible to incorporate some of the furnishings, stained glass and chandeliers of the society rooms as a memory to prior students. — Member Class of '56

Although I never graduated from Otterbein, both of our children did. Moreover, I was privileged to live for 22 years on College Avenue. Every time I went out my front door I could see Towers Hall. Its beauty and grace fed my soul for all those years.

Liberal Arts Colleges were built to develop the well rounded person. What a travesty if this Liberal Arts College, Otterbein, should destroy the building which is the heart of its philosophy! In a world which has become increasingly secular, architectural beauty should not be destroyed.
— A friend of Otterbein

It is my understanding that progression is still foremost in the minds of the leaders at Otterbein and rightly so. Realizing that (Towers Hall) is in dire need of remodeling I would be in favor of completely replacing the building with a new structure. Should the decision be made to replace Towers Hall I will be happy to make what contributions I can based on my somewhat meager salary. This type of progressiveness can only help to better Otterbein.

— Member Class of '69

I have my memories — they are free — but the educating of today's youth is what is important. I'm sure the Trustees will reach the right decision and I will try, in my small way, to contribute to whatever plan they decide on. We must look to the future — Member, Class of '48

To me Otterbein won't be the same without "the Ad Building," on the other hand, I'm practical as well as sentimental and I feel two million is too much to pay for sentiment when it could be used to help educate young people. Could some sort of replicas be made, say for paperweights or just ornaments? Or could some of the bricks or flooring be turned into some sort of souvenirs?

— Member Class of '29

In response to the request in TOWERS for opinions concerning the fate of Towers Hall, we would like to register two votes in favor of saving this beautiful and memory-packed building. We cannot help wondering how many of the advocates of this so-called progress are true Otterbein people. That is, are alumni who have lived and worked and loved in and around Towers Hall advocating its demise, or are these people imports who have been hired to do a job, but have little or no feeling for Otterbein's heritage?

It would seem best to retain and restore the grand old exterior of Towers Hall while redesigning and rebuilding the interior to meet the needs of the future.

As concerned alumni, we would like to pledge \$100 toward the restoring and rebuilding of Towers Hall, should this course be decided upon.

— Class of '60 and '62

I (have) wondered if possibly the engineering studies were not designed to come up with the pre-determined answer desired by those who would tear it down. I wonder if they have exhausted all the possibilities. The suggestion to erect a replica in external appearances at least, strikes me as a means of doing all things necessary with least pain to the more emotionally involved. I don't trust modern architects to be sympathetic to things like this. — Member Class of '36

In the corner of my desk blotter, at work, I have a colored picture post card of Towers Hall. People look at it and ask what it is. I tell them it's the college where I used to teach. Then they say, "What on earth are you doing in Miami (Florida)?" They think it is utterly beautiful. Tear down the "Sosh" building or anything else — all else is monstrosity.

— Former Teacher

Please do not consider doing away with Towers Hall in favor of a new and modern building "in which the dreams of future students can be born" as someone argued in the first TOWERS editorial. This country needs dreams for the future that have some roots in the past. Far too many traditional places and things, not to mention the ideals they fostered, are being discarded or taken lightly today. Most of those who come to Otterbein are drawn there because it IS a college with traditions.

Colleges need to keep up with the times, of course. But money used to preserve the traditional beauty of our main campus would certainly be money well spent. I, for one, am willing to pledge now at least \$100 to be used for that purpose.

— Member of Class of '29

I would say, raze the old building and build what is truly desired in light of present trends and needs, and that will go down the years serving the oncoming generations of students as once did the old structure. I am grateful for that old building and will treasure its memory, but the succeeding generations will be grateful for the new one—and I vote for them!

— Member Class of '40

I wish to register formal and vehement protest to any plans for the tearing down of this building. Towers is easily the most beautiful building on campus, the most interesting architecturally speaking, and the dearest to Otterbein tradition.

Surely a college can afford to spend money to repair a landmark which has attracted and bound the loyalties of many people to her "halls of ivy."

— Member Class of '69

Guest Editor

TOWERS' guest editor for this issue is Sarah Rose Skaates, '56, (Mrs. William H.B.). Sarah was a member and president of Quiz and Quill where she won prizes in the club's prose and poetry contests and the Barnes Short Story Contest. Since the establishment of the Quiz and Quill Foundation in 1965 she has served as its Executive Secretary. She is a free-lance writer of children's stories as well as adult fiction and feature articles.

Mrs. Skaates has been a Sunday School and religious education teacher, and formerly taught second grade in the Columbus and Westerville school systems. She was honored in 1967 by being included in the annual **Outstanding Young Women of America**. She and her husband Bill, '58, director of photography and printing at Otterbein, are the parents of two children, Joanna, aged 7, and Calvin, aged 4.

Halfway to Goal on Library Fund

The financial campaign for the new Otterbein Library has passed the half-way mark. The federal grant, giving from United Methodist Churches, funds from Focus on Achievement and pledges from alumni and friends are all important parts of the total effort. To date, \$916,566.12 remains to be raised to meet the goals for the Library and for United Methodist Scholarship Aid.

A growing number of alumni and friends are demonstrating in a substantial way their faith in and concern for Otterbein College. In addition, the many modest donations added together give tribute to the impact of Otterbein upon the lives of those who have known her.

The following represent major contributors during 1969 and into March, 1970: Erdis Robinson Trust, Chestnut Foundation, Medusa Foundation, Westerville Otterbein Women's Club, Dr. Homer D. Cassel, '17, (in memory of his parents, W. H. and Callie Cassel).

Dr. and Mrs. Elmer Loomis, '23 and '22; Estate of Shauck Barlow, A '78; Sanford G. Price, Hon. '68; Suburban Motor Freight (designated for Library, were prior gifts from 1965-67); Dr. David L. Rike, Hon. L.L.D. '65 (designated for Library, prior gift from 1967); Estate of Lena Robins (prior gift from 1966); Estate of Walter Maring, A '17, (prior gift from 1968); Friends (in memory of Eldon King).

Dr. David L. Rike, Judge and Mrs. Horace Troop, '23, Rike's Foundation, Mr. and Mrs. Charles O. Rall, Friends (in memory of Mack A. Grimes), Mr. and Mrs. William Nuhfer, Mr. Zene J. Smith, Miss Bonita Jamison, '14.

Grimes Memorial

Friends of the late Mack A. Grimes, '41, Otterbein Alumni Association President during 1968-69, may make contributions to the Library Building Fund in his memory. The Mack A. Grimes Memorial had received in excess of \$1500 at press time.

Posing on the bulldozer blade during groundbreaking ceremonies were Otterbein library assistants Jeanette Robinson, Lissa Blasi, Joanne Strecker, and Phlorence Caulker. The driver is Dan Colvin, representing Knowlton Construction Co.

Groundbreaking for New Library

In order to continue the free and responsible transmission of the cultural heritage of which we are a part;

We dedicate this plot to the building of a new library.

To the cultivation of the finer and deeper responses of man, as he seeks wisdom;

We dedicate this place to that end.

That the library which will be built upon this site may be a gateway to lead us from ourselves to the services of all mankind;

We dedicate this land that all mankind may grow in wisdom and service.

With these expressions of dedication, the first shovelfuls of earth were turned in ground-breaking ceremonies for the new \$2,187,100 Otterbein Library which were held February 23. Actual construction began promptly the next day.

The 54,000 square foot structure will provide study space for about 600 students and house more than 160,000 volumes. One level will be devoted entirely to audio-visual facilities.

In addition to construction costs, \$434,500 will be spent on interior furnishings and related items.

Financing for the library, being built where Saum Hall and Cooke House formerly stood, has been provided through a federal grant of \$657,000 under the Higher Education Facilities Act of 1963 and by church and private funds.

Program for the ceremonies included the Otterbein Symphony of Winds, under the direction of Gary Tirey. Sharing the ceremonial spade duties were Otterbein President Dr. Lynn W. Turner, Dr. Harold L. Boda, chairman of the Board of Trustees, and Woodrow R. Macke, Vice President for Business Affairs.

Dr. William K. Messmer, assistant to Bishop Gerald Ensley, represented the United Methodist Church. Also participating in the program were the Rev. Mr. Robert G. Clarke, Director of Religious Activities; Westerville City Manager John P. Deppen; Academic Dean Dr. Thomas J. Kerr; Student Senate President Stephen R. Spurgeon; Otterbein Librarian John Becker; and the Rev. Mr. Chester R. Turner, Director of Church Relations and Assistant Director of Development.

Convocation Speakers

Consumer Guardian Here

"Pollution is environmental violence," the nation's number one consumer guardian, Ralph Nader told an Otterbein College convocation Feb. 23 as he explored the topic "Environmental Hazards; Man Made and Man Remedied."

Nader told the Cowan Hall audience of about 1200 persons that knowledge to stop air, soil, and water pollution is not "being used to its fullest."

He called the lack of cooperation by big companies "corporate myopia. There are no serious technological obstacles to deterring pollution, so they call it too expensive. Actually, the non-polluting engine is one of the most trivial projects we have tackled in the last 20 years," he said.

Nader told his youthful audience to develop technical skills, which, coupled with a system of personal, human values, would enable them to aid in attacking the problems which they will inherit. "There is no point in new politics without new citizenship," he instructed. Develop the stamina and the character, and couple that with a sense of what's right and what's not. This, he concluded, would enable the students of today to attack, and to change the pollution problems, which scientists concur may become disastrous within the next 30 years.

Nader is presently engaged in a one-man crusade to rectify a wide spectrum of ills confronting America's buying public. Air pollution and its causes is one of Nader's continuing battles. He and his unpaid force of young lawyers, "Nader's Raiders," are presently hitting government and industry in an effort to clean up the environment.

Concern with water pollution, dangers of radiation overexposure, and air pollution caused by the automobile industry have prompted Nader's efforts. In the past, his vocal opposition has led to the National Traffic

and Motor Vehicle Safety Act, Radiation and Control of Health and Safety Act, and the Wholesale Poultry Products Act, all of 1968.

International Space Expert

Sir Bernard Lovell, distinguished director of Great Britain's Jodrell Bank Observatory, addressed Otterbein students and faculty at the April 14 convocation planned as part of the current Year of Science emphases.

Generally acknowledged as the foremost international expert on Russian-American space efforts, Sir Lovell is the only Western scientist to ever tour Russian space facilities within the Soviet Union. Recently, at the invitation of Mstislav Keldysh, president of the Soviet Academy of Sciences, Sir Lovell inspected all the major Soviet optical and radio observatories, the Russian deep-space tracking network, and the main Soviet facilities in radio astronomy.

At the conclusion of his 12,000 mile tour, he made world headlines when he declared that, for all practical purposes, the United States was alone in the race for a landing on the moon, since Soviet space efforts were directed at orbiting a manned satellite, 150 miles above the earth. In the United States, national news media rushed to interview him, and his views were profiled in THE NEW YORK TIMES, NEWSWEEK, U.S. NEWS & WORLD REPORT, and CBS-TV.

A noted educator in England, Sir Lovell is an honorary Foreign Member of the American Academy of Arts and Sciences and an honorary fellow of the New York Academy of Sciences. Sir Lovell was cited for his work with the American space program by the National Aeronautics and Space Administration and President Eisenhower honored him for his work in the tracking of the deep space probe Pioneer V.

Sir Lovell is also the author of "The Individual and the Universe" and "The Exploration of Outer Space."

Basketball Coach Curt Tong was awarded the game ball as a souvenir of his 100th Otterbein victory.

Winter Princess Polly Anslow

Frank Hott and Chris Chatlain in a scene from "The World of Carl Sandburg."

Winter Homecoming Highlights

While the calendar and clock were set differently from previous years, the traditions of Winter Homecoming were enhanced rather than neglected.

The earlier date, January 31, coincided with the weekend of the student production of the Otterbein Theatre, "The World of Carl Sandburg." In order to avoid conflicts, the Homecoming basketball game with Hiram was played at 2 p.m.

The afternoon victory proved to be more than the usual "nice win for the alumni," as Otterbein coach Curt Tong, '56, chalked up his 100th basketball victory since coming to his present post seven seasons ago.

The customary Varsity O search of the crowd resulted in a court of sophomore lovelies to reign over the second half of the game. Honored were: Miss Polly Anslow, Queen; Miss Mary Lou Ahrens, Maid of Honor; Miss Cynthia L. Arganbright, First Attendant.

In the evening "The World of Carl Sandburg" was given excellent staging by a student cast and crew under the direction of senior Teri Hiatt.

Winter Homecoming Dance

The 1970 Winter Homecoming All-Campus Dance was sponsored by SOUL from 10 p.m. to 2 a.m. in the Campus Center Dining Hall. Music by the Five Tones set the mood for the post Homecoming play dance.

Highlight of the SOUL-planned evening was the presentation and coronation of a black queen and her court. Chosen to reign over the festivities was Loretta Ransom. Her attendants were Jane Ann Russell, Maid of Honor, Tanya D. Smith and Candice L. Scott.

A Reminder:

If you have not yet completed and returned your Otterbein College Office Record questionnaire, please do so as early as possible. The Alumni Office needs this form for mailing purposes (such as TOWERS), data processing, and compilation of the new edition of the Alumni Register. Won't you help us to serve you better?

Teri Hiatt Directs

Winter Homecoming Play

In a day and age when the college and university students of America are searching for meaningful methods of participation in society, and in attempting to "do their own thing" seem increasingly to turn to disruption rather than contribution to today's institutions, people should know about Teri Hiatt.

Doing her "own thing" in theater and doing it well is an apt description of Teri, a senior speech and philosophy major.

For "The World of Carl Sandburg," which she directed as the Winter Homecoming play, Teri added a number of her own ingredients to the original script. Director of Theater Charles Dodrill commented while watching "The World of Carl Sandburg" in progress, that "Teri Hiatt is probably one of the most versatile theater students we have had in several years at Otterbein. She is equally adept at playing comedy or tragedy, young or old characters; she is a fine dancer, a better than average singer, and the evidence indicates she will be a fine director."

Equally versatile outside the theater, Teri is an honor student, a member of "Who's Who Among College and University Students in America," and the first Independent to become a fall Homecoming Queen at Otterbein. The latter honor was further recognized by the city council of her hometown, Whitehall, and the state representative from that district, Keith McNamara, who read a resolution by the House of Representatives congratulating her.

Area theatre critics were generous with praise of Teri's creative concepts and adept execution of them in "The World of Carl Sandburg."

Home Ec Styles Shown on Mothers' Weekend

Today's fashion trends are set on college campuses, and Otterbein Home Economics women proved it on March 7 at their Annual Spring Style Revue held on Mother's Weekend.

A check with a top fashion coordinator in an exclusive Columbus women's store approved the pace the girls set for the 1970 "in" look. Straight

leg pants suits featuring versatile tunic tops (which double as minis), bright and cheery spring colors, and practical prints were utilized to make penny-wise, top fashion examples any woman with some know-how and a few yards of material could duplicate.

Innovative ideas demonstrated by the coeds included the "antiquing" of lace by dipping it in a solution of tea, a sequined, elasticized belt for a pants suit which could be used Em-

pire style or at the waist, and the "Hong Kong" hem, a wide bias strip cut from taffeta attached to the up-turned edge to add shape.

Home Economics Club advisor Mrs. Margaret Gill and the coeds impressed their feminine audience with day-time wool dresses for \$8, school jumpers at \$9, and a dressy, dual-purpose pants suit for \$18 which would make any woman hurry to the nearest sewing machine.

First Otterbein Study Program in Sierra Leone

As this issue of TOWERS goes to press, fifteen young women and their teacher are returning from the first Otterbein College study program in Sierra Leone.

Initiated by Mrs. Mildred Stauffer, Assistant Professor of Education, who escorted the students, the program placed senior education majors in six schools where they worked as assistants to the native teachers. Fall term was spent in preparation for the African experience during the winter. When asked for an evaluation of the program, Mrs. Stauffer smiles and says, "That's what we're going to be doing spring term!"

President and Mrs. Lynn W. Turner accompanied the students and Mrs. Stauffer to Freetown for an orientation period planned by Albert Academy principal Max Bailor, '53, and the United Christian Council. They visited with the several Otterbein alumni in Sierra Leone while the girls were getting settled in their schools in Njala and Moyamba.

At Njala University College Experimental School were Otterbein stu-

dents Elaine Armburst, class 5, Patricia Deck, class 4, and Sharon Ellenberger, class 6. Cynthia Baughman, class 5, Betsy Henry, class 4, and Carolyn Koachway, class 6, shared experiences at Pelewahun School in Njala. In the same town but at Taima School were Janet Cornish, class 6, Colleen Dunston, class 4, and Linda Whitehouse, class 3.

In Moyamba Karla Courtright helped Annie Lefevre, '68, teach home economics in Harford Girls' School while Ronda Fritz taught English in the same school. In the June Hartranft School, for younger girls, Judy Clister and Mary Jo Lenk worked with the fourth and sixth classes, respectively. Barbara Goellner and Lynda McDonald were in fifth and fourth classes, respectively, at the United Methodist Council Boys' School, also in Moyamba.

"I feel the girls were broadened and enriched by this contact with another culture," Mrs. Stauffer commented upon her return. "I hope to see the real benefits of this program show up in their response to their own classroom situations next year."

Mr. and Mrs. Sylvester M. Broderick, '24, President and Mrs. Turner and Mr. and Mrs. Max Bailor, '53, got together while the Otterbein group was in Freetown.

Otterbein Senior Linda Whitehouse leads some Njala children in a game.

President and Mrs. Lynn W. Turner, Mrs. Mildred Stauffer and the fifteen students participating in the first study program in Sierra Leone prepare for takeoff.

on and off the campus

"Roost" to be Renovated

Renovation plans for the lower area of the Otterbein College Campus Center and "The Roost," student snack bar, were approved by the Board of Trustees at their last meeting.

An informal lounge area, with color television and card tables, will be divided from one large open room. "The Pit," a dropped-floor area comprising about a fourth of the lower area, will be left intact for use during the Otterbein Summer Theatre, and for Campus dances. The existing upstairs TV room will be remodeled to become a music lounge.

"We are only finishing the decorating of the downstairs area," stated Jack Dickey, Campus Center manager. "The plans originated when the building was designed, and we've just updated the design and decoration concepts."

"Our plans to redecorate 'The Roost' are not completed," Dickey added. "We are aware of the dissatisfaction among the students about the lighting and seating. We hope to create a better atmosphere. Also, by eliminating the present counter, and creating a self-serve line, we will be able to speed up service, and reduce the cost of personnel needed to operate the service."

Decorating for both the basement lounge and the snack bar has been designed by Dickey with the help of Paul Lazenby, designer and builder. Popular "barn-plank" siding will be utilized for the walls in the two areas, with shake siding to create warmth and intimacy. Dual purpose of these two materials is aesthetic and for reduction of sound. Indoor-outdoor carpeting is also being considered. Painting will be in modern colors and designs.

Cost of the lower level renovation will be \$16,000. Twelve thousand dollars has been approved for the snack bar. Remodeling of the present TV lounge is set at \$3800.

Gail Myers and Capt. Melvin E. Drane admire the latest Angel Flight trophy.

Angels Win Meets

Continuing a winning streak which began a year ago in Dayton, the Otterbein College Angel Flight Drill team was awarded first place in the 7th Annual University of Dayton Invitational Drill Meet on March 1.

The meet, sponsored by the Dayton Pershing Rifles, was the third consecutive win for the squad. The previous week they won first prize in the Purdue Invitational Meet, largest of its kind in the country.

A thorough inspection of the unit, and an individual evaluation of se-

lected members was part of the competition.

Gayle Myers, commander of the Drill Team, is responsible for the patterns and movements used by the squad. Miss Myers explains that the squad uses 32 individual movements in their winning drills. Judging was done on the basis of manner of performance, originality and showmanship.

Captain Melvin E. Drane of the Otterbein Air Force ROTC staff is the Drill Team's advisor.

Gets Rotary Fellowship

Glen D. Shaffer, an Otterbein College senior from Westerville, has been granted a Rotary Foundation Fellowship for the 1970-71 academic year. Shaffer expects to spend his year of study in the field of government at the University of Lancaster near London, England.

The son of Col. (USAF Ret.) Glen C. Shaffer, '32, and the former Zelma L. Shauck, '34, Shaffer is majoring in government and seeking a B.A. degree at Otterbein. Upon graduation in June he will be commissioned a Second Lieutenant in the United States Air Force, but is expected to receive a one-year deferment before going on active duty.

As a student at Otterbein, Shaffer has served this year as student commandant of the AFROTC unit.

Book Gifts to Library

The Otterbein College Library has recently received gifts from a former professor and a friend of the college.

Dr. Raymond E. Mendenhall, Director of Teacher Training at Otterbein from 1928-1942, has given the library an autographed copy of his book, *QUAKER TALES OF NORTH RIVER*.

From the estate of Walter E. Jones, the library has received a collection of 93 historical manuscripts covering the period 1661-1837 and coming primarily from the small New England town of Medway, Mass. The historical notes consist of such items as deeds, tax records, indenture papers and a warrant for arrest as well as a wide variety of items on other subjects.

Ohio Students Can Receive Grants in 1970

Otterbein students who are residents of Ohio are able to make application for the new Ohio Instructional Grant.

The Ohio Instructional Grant Program, enacted into law by the 108th Ohio General Assembly in 1969, is a financial aid program intended to assist Ohio students having exceptional financial need enrolled as undergraduates in eligible Ohio Institutions. The grants shall be awarded only on the basis of relative financial need and shall be available to those eligible students entering college or returning thereto in September 1970. The grants are intended to serve as additional sources of student financial assistance along with other current forms of aid.

To be eligible for consideration, the individual must be a resident of Ohio, a full-time student making progress toward a degree, not enrolled in a course of study leading to a degree in theology, religion or other field of preparation for a religious profession, and come from a family where the adjusted effective income conforms to a certain standard. The adjusted effective income of the family and the number of dependent children in the family will be the primary factors used to establish the size of the grant which at Otterbein will vary from \$100 to a maximum of \$900.

Details of application procedure and requirements may be obtained through the Director of Student Financial Aid, E. K. Witt.

Status of Admissions

This is an unusual year in the recruiting of new students. Applications continue to come in daily and to date we have admitted more freshmen prospects than we did a year ago.

Our four-man staff has generated more applications and we are steadily moving in the direction of our goal of 400 Freshmen in our entering class.

We will continue to process applications until such time that we have filled our quota for September, 1970.

—Michael Kish,
Director of Admissions

New Director of P.R.

Paul (Tom) Clark was appointed Director of Public Relations for the college beginning January 5.

Mr. Clark, a recent journalism graduate of Ohio State University, was previously associated with the Ohio Petroleum Marketers Association where he served as editor of a monthly industry publication. He has also been with C. V. Perry and Co. as advertising manager and McDonnell-Douglas Aircraft as a staff technical writer.

In introducing himself to the Otterbein community, Mr. Clark said, "This is my first experience with educational public relations and the future looks quite exciting. My philosophy of public relations is quite simple: plan it well, do it well, and then TELL THE PEOPLE ABOUT IT. We at Otterbein do not have to create an image (a very popular trend today); we have only to project the fine image which Otterbein already has."

Alumni Give Luau for Seniors

It was a lei around the neck with a kiss of greeting, aloha to all, and a buffet table begging for second and third trips when the Otterbein College Alumni Association hosted a luau for the Class of 1970.

One hundred sixty Seniors accepted the invitation of the Alumni Association to the festive evening at The King's Inn restaurant in Columbus. Alumni Association President-Elect and owner of The King's Inn, Robert Corbin, '49, served as toastmaster and general chairman for the occasion.

Entertainment for the honored guests was provided at their own request by The Millionaires, the "of-

Dr. Kerr Acting Dean as Miller Plans for College

Thomas J. Kerr, IV, Associate Professor of History, is serving as Acting Academic Dean of Otterbein College from December 1, 1969, through the end of the 1970 spring term.

He temporarily relieves from duty Dean James V. Miller who has been asked by the Board of Trustees to devote this period of time to long range planning for the college. (See Autumn 1969 TOWERS.)

Dean Kerr has been on the Otterbein faculty for the past seven years. His major field of study is the progressive era of American history which he explored in more depth during a sabbatical leave last spring. An article based on some of his research in this area has been accepted for publication by LABOR HISTORY.

Other publications by Dr. Kerr include "United States Power in the Modern World: The Parable of the Elephants and Chickens," currently appearing in the March issue of SOCIAL STUDIES.

ficial" popular music group composed of students and alumni under the direction of Jim Million. There was sentiment as well as musical appreciation involved in the request by the Seniors. Four years ago The Millionaires had entertained them at their first dinner together as incoming freshmen.

Senior co-chairmen Terri McMillen and Shirley Scott had worked actively with Mr. Corbin and Alumni Relations Director Dick Pflieger in planning the kind of evening which would be enjoyable to both the Seniors and the members of the Alumni Council who acted as hosts and represented the Alumni Association.

New Soul Group Sponsors Pride and Motivation Project

"We want to bring about an awareness of our presence, and our permanence, to Otterbein. We are trying to help prepare those in our group for entrance into the mainstream of life after college."

This is the expressed purpose of a unique Otterbein group called SOUL. Membership in the group is limited to those students who are "black or black-minded."

Primary project of the group at the present time is a serious attempt at "providing the means and facilities for junior high school teachers and administrators to remotivate black students in the inner-city school system." SOUL terms this project "Pride and Motivation."

While the group does not consider this program a total answer to the problems young people face in an environment of poverty, their aim is to provide a positive situation between teacher and student, between student and administrator, and to offer exposure to the environment of higher learning.

As part of the "Pride and Motivation Project," twenty-five Monroe Junior High School (Columbus) students visited Otterbein in March to present a program of music and poetry in Lambert Hall while their own art, sculpture and model building exhibits were on display in the Campus Center.

The youths competed for cash prizes and awards in five categories with materials furnished by SOUL. The five best efforts in each category were exhibited on campus and judged on the basis of originality, creativity and overall quality.

Prior to the selection of works to be displayed, individual and group testing of the junior high students' attitudes was done by SOUL. Attitudes toward education, school teachers, and administrators were probed with the assistance of Professor Larry Cox of the Otterbein psychology department. Further testing will be done in the near future to determine if any changes in the attitudes of the inner-city youths have occurred.

SOUL is attempting to "help develop new attitudes, new values, pride, and a new motivation toward

education. The hope is to point out the opportunities derived from achievement," according to John C. Dunn, senior psychology major.

Future plans under consideration by SOUL and Otterbein include the establishment of a "Black House" to be used as a focal point of black American culture and history. Programs to assist in orientation of freshman black students, and to provide black counseling for all black students currently at Otterbein are other of the goals SOUL hopes to accomplish.

Increase in Student Fees

In recent action, the Board of Trustees voted to increase student fees \$190 for the 1970-71 school year. A \$150 increase in tuition and fees and a \$40 addition to room and board costs will make the comprehensive fee \$2,990 for on-campus students and \$2,200 for off-campus, for Fall Term, 1970.

The present figures are \$2,800 for on-campus and \$2,050 for those off-campus.

The Board stated that the action was necessitated by increasing costs and inflation. The Board also noted that the increase was below the average fee increase of other private institutions this year.

President Tours Europe

President Lynn W. Turner returned last month from a study mission to Europe sponsored by the Regional Council for International Education.

Dr. Turner joined nine other college and university presidents on the three week visit to various European universities for discussion of current national and international problems in higher education.

While in Europe, Dr. Turner visited the Otterbein students currently studying in Basel, Switzerland, and in Strausbourg, France. On an earlier European trip the President visited with the seven students in Segovia, Spain.

New Faculty Appointments

Seven full time or part-time appointments to the Otterbein College faculty have been made during the winter term.

Edith Walters Cole, '60, is presently an Instructor for Winter and Spring terms in the Speech and Theatre Department. Majoring in theatre and business while at Otterbein, she received an M.A. in public address from Ohio University.

Mrs. Cole's career has been one of variety and activity beginning with her work on the Democratic Policy Committee in Washington, D.C. where she moved after graduation from Otterbein. She has also served as technical theatre director at Elmhurst College and has been on the faculties of Indiana University and Ohio Wesleyan University.

She is presently looking forward to completing work on her doctoral dissertation.

Karen Fiedler, a native of North Ridgeville, Ohio, has been named to the Department of Home Economics for the Winter and Spring terms and Richard Thomas, of Sandusky, Ohio, has been appointed to the staff of the Department of History and Government.

Miss Fiedler holds a bachelor's degree from Baldwin-Wallace College and an M.A. in food and nutrition from Ohio State University. She practiced her internship at Miami Valley Hospital in Dayton, Ohio.

While at Ohio State, Miss Fiedler developed an audio-visual program of slides and tapes for foods to be used in study carrels in conjunction with her master's degree.

She is a member of the American Dietetic Association and the American Home Economics Association.

Thomas, a doctoral candidate at Ohio State, also holds a B.A. and an M.A. in history from the same university.

He has been a part-time member of the faculty at Wittenberg for eight years and was with the Department of Defense for seven years as a military historian.

spotlight on sports

By Bill Skaates, Sports Information Director

Basketball Season Tallies 15-7

With Help from "Most Valuable" Lorenzo Hunt

To no one's surprise Otterbein College's sparkling senior forward, Lorenzo Hunt, has duplicated or improved on nearly every basketball achievement he had attained earlier in his fourth and final season with the Cardinal cagers.

Coach Curt Tong's hoopsters closed out the '69-'70 campaign with a 15-7 record including the championship of the Muskingum Holiday Tournament and a victory in Canada over the University of Waterloo. Tong's 100th coaching win at Otterbein came over Hiram at Winter Homecoming.

The 6-3 Hunt from Jamaica, N.Y., has earned the Most Valuable Player vote from his teammates for the second straight year. Prior to the start of the recent season Hunt was appointed team captain by Tong and at the season's end was named honorary captain as well by other members of the team.

Other post-season honors have been accorded to Worthington sophomore Dwight Miller as the Most Improved Player and to Larry Meffert, Louisville, Ky., as the Most Outstanding Freshman.

Miller started the last nine games of the campaign and was a double figure scorer in seven of those starts. He finished with an 8.6 average playing in all but four games.

Meffert proved to be the Cards' "sixth" man much of the season and ended the year as the third leading scorer (9.2 avg.). His single game high of 25 came in Otterbein's 77-73 victory over Muskingum in the finals of the Muskingum Holiday Tournament.

Other accolades for Lorenzo Hunt include election for the second consecutive year to a first team berth on the All-Ohio Conference quintet chosen by coaches of the 14-member league.

Earlier, Hunt was placed on the

second unit of the District Four All-Star team selected by the National Association of Basketball Coaches. Other members of the College Division dream team came from schools in Ohio, Illinois and Michigan.

Concluding four seasons with the Otterbein varsity, Hunt has played in every one of OC's 88 games during that period. He has scored 1417 points averaging 16.02 per game. His career point total at Otterbein is second only to Little All-American Don Carlos who tallied 2543 points from 1964-67.

Hunt vaulted into the number two spot early in his senior year. Other 1000 point career scorers at Otterbein have been Jerry Wirth, 1143 (1953-56) and Jim McKee, 1074 (1966-69).

Scoring by Hunt improved each of his four seasons at Otterbein as he showed yearly averages of 9.9, 13.9, 19.8 and 22.3 during the past campaign. During his last two years Hunt also led the team in rebounding, averaging over 10.0 per game.

Hunt's single game scoring high of 39 was set during the '68-'69 season against New Hampshire College on a holiday trip through New England. This past year he went over the 30 mark twice as he hit 37 at Kenyon and closed out with 34 against Ohio Wesleyan in the home finale.

Within the Ohio Conference during his last two seasons Hunt finished fifth in scoring both years, and was among the top six rebounders both seasons.

Hunt also topped the list of 15 players on this season's Otterbein team who were awarded varsity letters by Coach Curt Tong. The U.S. Air Force veteran was the only member of the squad to earn his fourth varsity "O".

Recipients of their third varsity award were the other two seniors on

the team, Terry Arnold, Xenia (Beavercreek); and Jack Diedalis, Columbus (DeSales).

Second-year lettermen were juniors Dan Armbruster, Waverly; Jim Augspurger, Dayton (Wayne); Dan Helton, Marengo (Buckeye Valley); Monte Rhoden, Galloway (Pleasantview); and sophomores Don Manly, Westerville (Newton Falls) and Don Sullivan, Chillicothe.

Wrestling Season Highlights Noted

Junior Mike Dear, Pataskala (Licking Heights) earned runner-up honors in the 158-lb. class at this year's Ohio Conference Wrestling Tournament for Otterbein. Another junior, Ken Schmitt, Whitehall (Yearling) finished fourth in the heavyweight class. Schmitt was 10-2 during the regular season.

Coach Chuck Burner's matmen earned regular season wins over Denison and Kenyon, and showed definite improvement over the showing made by teams in recent years. All members of the squad will be returning for the '71 season.

All-Weather Track; Pre-Season Tours

A new look on the spring sports scene this year at Otterbein will be evident as Coach Elmer (Bud) Yoest's track team enjoy their new rubberized all-weather oval. The track was laid last fall, allowed to set over the winter, and finally was lined early this spring.

Yoest commented, "We're really looking forward to use of our new track and expect it to broaden participation in the sport at Otterbein." He was quick to add that it shouldn't hurt recruiting at all either.

Over the spring inter-term three of Otterbein's spring sports teams took southern trips. The tracksters journeyed to the campus of Florida State University in Tallahassee for a conditioning program.

Both Coach Bob (Moe) Agler's golfers and the baseball team coached by Dick Fishbaugh were in North Carolina. The linksmen played a series of courses in the Ft. Bragg area while the baseballers completed four exhibition contests with Guilford and High Point.

Dedication of New Science Center

W. Thomas Lippincott

"Future of Science . . ." Speaker's Topic

W. Thomas Lippincott attended Capital University where he received his B.S. degree in 1948, and The Ohio State University where he earned his Ph.D. degree in 1954. He returned to join the faculty there in 1961 as Professor of chemistry and head of the Division of General Chemistry.

Active in chemical education, Dr. Lippincott is editor of the JOURNAL OF CHEMICAL EDUCATION. He has served on the Advisory Council on College Chemistry, the AAAS Cooperative Committee on the Teaching of Science and Mathematics and as Chairman of the Committee on Institutes and Conferences of the Division of Chemical Education. He has participated as a visiting scientist to colleges and secondary schools since the beginning of this program and has directed or taught in more than 30 summer institutes including two in India.

Dr. Lippincott is a co-author of the general chemistry text, CHEMISTRY, A STUDY OF MATTER, Ginn-Blaisdell, 1968. He also is co-author of A SYSTEMATIC LABORATORY COURSE IN GENERAL CHEMISTRY, MacMillan, and EXPERIMENTAL GENERAL CHEMISTRY soon to be published by Saunders.

Schedule of Events

Thursday, April 23, 1970

8:00 p.m.

Presentation of the Distinguished Scientific Achievement Awards in the Science Center Auditorium. Address by Dr. W. Thomas Lippincott, "The Future of Science in Dealing with Major Cultural Problems."

Reception follows immediately in Howard House for alumni award winners and emeriti.

Friday, April 24, 1970

8:00 a.m. - 8:00 p.m.

Registration in the Science Center.
10:00 a.m. - 12:00 noon

Open house in the Science Center. Each department personnel, facilities, equipment and academic program presented by means of brochures and a self-guided tour.

11:30 a.m. - 1:00 p.m.

Luncheon available continuously in the Campus Center dining hall.

2:00 p.m.

Dedication ceremony in Cowan Hall, Dr. Roy H. Turley, Chairman, Department of Science and Mathematics, presiding. Invocation by Dr. Murn B. Klepinger and remarks by President Turner before the presentation of Distinguished Service Awards.

Address by Everett Mendelsohn, "Physics and Physiology: Explaining the Nature of Living Things."

Immediately following:

Dedication ceremony at the Science Center, including unveiling of plaque by Harold L. Boda, Chairman, Board of Trustees; dedication declaration by Otterbein trustee, Ohio Miami Conference, Murn B. Klepinger; and reception of Science Center on behalf of faculty and students by Dr. Roy H. Turley and Richard Mayhew, President, Sigma Zeta.

6:30 p.m.

Banquet in the Campus Center dining hall.

8:00 p.m.

Lecture in the Science Center auditorium by Dr. Everett Mendelsohn, "How Science Came of Age."

Everett Mendelsohn

Main Dedication Speaker Is Harvard Authority

Dr. Everett Mendelsohn became Professor of the History of Science in Harvard University in 1969. He is an authority on the development of the biological sciences and on science as a social institution.

Dr. Mendelsohn holds the A.B. degree (1953) from Antioch College and the Ph.D. degree (1960) from Harvard, where he did graduate work in both biology and in the history of science.

A teacher at Harvard since 1954, he served as research associate in science and public policy of the Harvard Graduate School of Public Administration from 1960-65, as director of the research group on the biomedical sciences (1966-68), and as research associate in the University Program on Technology and Society. During 1968-69, he was an Overseas Fellow of Churchill College, Cambridge, and a Senior Post-doctoral Fellow of the Josiah Macy Foundation.

Author of two recent books and numerous important articles, Dr. Mendelsohn is a Fellow or member of more than half a dozen national and international science societies, is editor of the newly founded JOURNAL OF THE HISTORY OF BIOLOGY, and a member of the committee on the Life Sciences and Social Policy of the National Academy of Sciences.

In Tribute to Those Who Taught...

Distinguished Service Awards

In recognition of their contributions to the Division of Science and Mathematics, to Otterbein College, and to the wider world of science through their inspiration and example, six Professors Emeritii were honored during ceremonies dedicating the new Science Center.

Distinguished Service Awards were presented to:

Frederic R. Bamforth, Professor of Mathematics; B.A., Queen's University, 1921; M.A., Queen's University, 1922; Ph.D., The University of Chicago, 1927; 1950-58. 1962-69.

Albert J. Esselstyn, Professor of Chemistry; B.S., Alma College, 1915; M.S., Cornell University, 1926. 1936-61.

Benjamin C. Glover, Professor of Mathematics; B.S., Northwestern University, 1907; M.A., University of Chicago, 1925. 1919-1950.

James H. McCloy, Professor of Physics and Astronomy; B.S., Purdue University, 1913; M.S., The Ohio State University, 1923. 1913-1960.

Lyle J. Michael, Professor of Chemistry; B.S., Otterbein College, 1919; M.S., The Ohio State University, 1920; Ph.D., The Ohio State University, 1929. 1937-1964.

Edward W. E. Schear, Professor of Biology and Geology; B.A., Otterbein College, 1907; M.A., Columbia University, 1915; Ph.D., The Ohio State University, 1928. 1912-1951.

We Salute——

Editor's Note: The following are excerpts from letters by alumni expressing their regard for the quality of education and the personal encouragement received from the science and mathematics faculty. Space limitations prevent use of all the many fine statements received.

Otterbein professors of my era, late '19's and early '20's, were more than just teachers. They, and I am speaking mainly of the three who had the most influence on my decision to study medicine, Professors **Schear**, **McCloy**, and **Hanawalt**, were friends, helpful critics, morale boosters, and on some occasions lovable characters.

— Member Class of '23

Dr. **Michael** and Mr. **Esselstyn** were especially important to me. They provided advice and interest that extended beyond the classroom and enabled me to set realistic goals for my career. In addition to those, Dr. **Willis**, Dr. **Sherman**, Miss **Laslie** and Dr. **Grodner** each contributed to the "push" that sent me on to do graduate work.

— Member Class of '60

Dr. "Louie" **Weinland**, professor of chemistry, was thorough, and while it was work, made it worth while when you arrived at the QED. Perhaps the professor who had the most influence on my desire and later determination to study medicine was **Alma Guitner**. As teacher of language, her course in 'Scientific German' was great, and her encouragement in the study of scientific topics will always be remembered.

— Member Class of '23

I remember the many truths I received from Doctors **Miller**, **Scott** and **Sanders**, in fact from the whole faculty. I also remember my contacts with Dr. **Schear** and **Hanawalt** as fellow classmates.

— Member Class of '10

Otterbein and its many fine professors certainly helped to prepare me for my career. Doctors **Michael**, **Bamforth** and **Misters Esselstyn** and **McCloy** will be remembered by all their students, including myself, for their fine teaching and inspiration.

— Member Class of '56

The willingness of Doctors **Michael**, **Bamforth**, and Mr. **McCloy** as well as the other faculty members to spend time after class to help clarify some item is indicative of their dedication. This is not particularly unusual for any member of the Otterbein faculty, but in comparison with other and larger schools, it is extremely unusual. — Member Class of '58

We appreciate the many years of unselfish service to Otterbein that this dedicated group of science professors gave. We had individual attention which other colleges did not offer and we feel we were well-prepared for our post-graduate work. We were expected to do well, and the faculty supported our goals with encouragement. The long-standing maintenance of high personal and educational standards by these men have far-reaching influence.

— Members Classes of '51 and '52

Students of Professors **Michael**, **Schear**, **Esselstyn**, **Glover** and **McCloy** gained much more than the content of science under their teaching — the enthusiasm for life, the love of its mystery and beauty, the respect for intellectual integrity, the stress upon reasoned and critical thought, and the humaneness of learning — all these came through, too.

— Member Class of '38

It was my great privilege to have known and/or to have been taught by Professors **Glover**, **Michael**, **Schear**, **Bamforth**, **Esselstyn**, **McCloy**, **Hanawalt** and **Botts**. These men were responsible for or instrumental in developing the careers of hundreds of Otterbein graduates. In my own case, because of my interest in biology, I was greatly influenced by Professors **Schear** and **Botts**. They provided the excitement, the environment and the encouragement that provoked the necessary "search for knowledge" that has led man to seek the meaning and the how of biology, the science of life. Men, devoted to their field and the development of students therein, like Professors **Schear** and **Botts**, are rare. They are irreplaceable and unforgettable. — Member Class of '51

Distinguished Scientific Achievement

Awards Winners

Richard Bradfield, '17

An agronomist engaged in research and in teaching food production techniques in the tropics, Richard Bradfield has made his home in recent years in Manila, The Philippines. He retired in 1963 from Cornell University to take his present position under the sponsorship of the Rockefeller Foundation.

Recipient of the Ph.D. degree from The Ohio State University in 1922, and the honorary D.Sc. degree from Otterbein in 1941, Dr. Bradfield holds membership in and has served as President of the American Society of Agronomy, Soil Science Society of America, and Intern Soil Science Society. He is a member of the Council on Foreign Relations, and has been Vice President of the American Association for the Advancement of Science.

George Willard White, '21

Dr. George W. White has been a research professor of geology at the University of Illinois since 1965 where he was formerly head of the geology department. Listed in *Who's Who*, Dr. White is vice president for the North America-International Committee for History of Geological Sciences, the author of about 100 articles on glacial geology as well as of four books with three more in process. He is editor of *CONTRIBUTIONS TO THE HISTORY OF GEOLOGY*, and a consulting editor to the Hafner Publishing Company.

Dr. White received his Ph.D. degree as well as his M.A. degree from The Ohio State University. In 1949 he was presented the honorary Sc.D. degree from Otterbein, and received honorary degrees from New Hampshire College in 1955 and from Bowling Green State University in 1963.

Robert H. Cavins, '26

As a teacher of high school chemistry, Robert H. Cavins has encouraged budding chemists by letting them find themselves. Holding forth in the Upper Arlington (Columbus) chemistry laboratory since 1930, Mr.

Cavins notes that the teaching of chemistry has changed "almost completely" in his professional lifetime.

"We used to teach descriptive chemistry and as much theory as they needed to make the description understandable," he has commented. "Now we teach theoretical chemistry and as much descriptive as we can. It's largely theoretical — more rigorous and mathematical."

Since 1953 Mr. Cavins has opened the laboratory doors on Tuesday nights to students wishing to do original experimentation. The results of one what student termed "Alchemists Anonymous" have been seen as close to a dozen of his former students pursued chemistry to the Ph.D. level.

Francis P. Bundy, '31

The making of diamonds from graphite has been one of the major career concerns of Dr. Francis P. Bundy, a research physicist for General Electric. Part of a research team which in 1955 succeeded in producing man-made diamonds, Dr. Bundy further refined the process in 1962 by developing a technique of direct transformation in a few thousandths of a second without the use of a catalyst.

Dr. Bundy's recognition by the Royal Netherlands Academy of Sciences and Letters in awarding him the Roozeboom Gold Medal "on account of his very important work in particular on the phase diagram of carbon under extreme circumstances of temperature and pressure," was given more detailed coverage in the Autumn 1969 issue of *TOWERS*.

Donald R. Martin, '37

Effective February 1969, Dr. Donald R. Martin was appointed professor and head of the chemistry department at the University of Texas. Formerly vice president for research for the Harshaw Chemical Company, he has also been a member of the chemistry faculty of the University of Illinois, associate director of the fuels

research energy division of the Olin Mathieson Chemical Company in Niagara Falls, and director of research for Libbey-Owens Ford Glass Company in Toledo.

Dr. Martin is a Fellow of the Association for the Advancement of Science and belongs to a number of other professional societies. He is married to the former Katherine Newton, '37, and the father of Donald R. II, '63, and Thomas N., '66.

Ray W. Gifford, Jr., '44

A physician engaged in medical practice and research, Dr. Gifford is head of the Department of Hypertension and Renal Disease at the Cleveland Clinic Foundation. Earning his M.D. degree at The Ohio State University and his M.S. in Medicine at the graduate school of the University of Minnesota, Dr. Gifford was previously a consultant for the Mayo Clinic and later an assistant professor of medicine for the Mayo Foundation and the graduate school of the University of Minnesota. He has been associated with the Cleveland Clinic since 1961.

The magna cum laude graduate of Otterbein, as a Lieutenant Commander MC USNR, was also once the assistant attending physician for the United States Congress. He is married to the former Mary Elizabeth Morris, x'48, and the father of three children.

Richard C. Himes, '47

A former Battelle Memorial Institute research scientist, Richard C. Himes has been for the past year and a half the head of the research department of Burlington Mills, Inc. in North Carolina.

Granted his Ph.D. degree from The Ohio State University in 1953, Dr. Himes was elected a Fellow of The American Institute of Chemists in 1968 shortly before assuming his position at Burlington Mills.

Dr. Himes and his wife, the former Lois Hickey, '44, were both active in civic and community affairs during their residency in Westerville. They are the parents of two daughters and a son.

Science Year 1969-1970

In this issue of TOWERS, recognition is continued of 1969-70 as Science Year on campus. This section of the magazine has been reserved for a notation of the achievements and/or activities of representative men and women who majored in science and/or mathematics while students at Otterbein College. Coming issues of TOWERS in the current year will also focus on science and mathematics alumni.

Coach and Teacher

Russell M. Wagner, '50, is a teacher and coach in the Anna (Ohio) Local High School. At Otterbein, Mr. Wagner majored in biology and physical education, was active in Zeta Phi fraternity, and lettered in both football and baseball during his senior year.

A member of the Western Ohio Education Association executive committee for three years, Mr. Wagner and his wife are living in Piqua, Ohio.

Teaching Science and Math

Thomas J. Parent, '50, came to Otterbein as a Navy veteran and immediately after graduation joined the Air Force. He spent three years at Lackland Air Force Base in San Antonio teaching a math refresher course which was then part of every recruit's basic training.

Since 1953, between years of teaching math, science and/or history, he has done graduate work at the University of Toledo in history. Having majored in history at Otterbein as well as science, he finds the former his preferred teaching field. "But I am usually assigned to teach science or math," he quips, "because I am not a coach."

Currently making his home in Toledo, Mr. Parent feels that Otterbein's being a liberal arts rather than just a technological school has been of tremendous value.

Malnutrition Researcher

Dr. Robert Bradfield, x'50, a University of California faculty member currently on sabbatical leave, has been elected a Fellow of the Royal Society of Tropical Medicine and Hygiene in London, England. The honor cites him for "contributions to the knowledge of protein-caloried malnutrition and hookworm anemia."

Dr. Bradfield's present research program concerns development of diagnostic tests for the early recognition of malnutrition. He long has been interested in this area, having lived for six years in Peru as a nutrition advisor in the Public Health Division of the State Department.

Harry W. Topolosky and Russell M. Wagner

Columbus Physician/Surgeon

Dr. Harry Topolosky, '33, is a Columbus physician/surgeon who received his medical degree from the Ohio State University Medical School in 1937.

Dr. Topolosky is a member of the Board of Franklin County Welfare, is on the Board of Trustees of the Columbus Hospital Federation, a former staff member of the Columbus Cancer Clinic, the medical director of Alum Crest Hospital, and the former chief of staff at Grant and Mercy Hospitals.

He is presently Chief of Surgery at St. Anthony Hospital, a member of the American College of Surgeons, the International Board of Surgery, and the American Society of Abdominal Surgery.

Math Teacher

Lela Moore Thomas, '30, tells us that most of her teaching career has been in the field of math. Biology was another subject in which Mrs. Thomas found herself teaching and she has maintained a strong interest in the botanical side of the subject.

"My interest in plants has grown into a real hobby," she writes, "and I am active in the Bryan Garden Club."

The Bryan, Ohio, resident was also responsible for sponsoring a Chess and Checkers Club among her students.

Computer Programmer

James L. Shackson, '61, is a computer programmer and operations supervisor, programming business applications for the computer. He is employed in this field by Cussins and Fearn in Columbus.

Jim attended Stanford University under the U.S.A.F. Institute of Technology, and received the M. S. degree in 1963. He studied statistics with an option in data processing. At Otterbein, his majors were mathematics and physics, and he received both the B. A. and B. S. degrees.

His campus activities included the presidency of Pi Kappa Phi fraternity, Men's Glee Club and M. S. G. B. He was also a member of the Band, Sigma Zeta and Torch & Key.

He is a member of Blendon Lodge No. 339 F. and A. M., Horeb Chapter No. 3, Royal Arch Masons, and Mizpah Chapter No. 38, Order of Eastern Star. He and his wife (Carol Simmons, '63) live in Westerville, and have two children, James Brian, 5, and Laura Sue, 1.

Systems Analyst for Bank

Thomas W. Powers, '68, is currently working as a Systems Analyst for City National Bank and Trust Company of Columbus. Mr. Powers accepted this position immediately following graduation, but took an 18-month military leave to attend Undergraduate Pilot Training at Vance Air Force Base in Oklahoma. He is now a pilot "part time or weekend warrior" with the 162nd Tactical Fighter Squadron, Ohio National Guard.

David S. Yohn

Cancer Researcher Part of "Great Team"

David S. Yohn, '51, returned to the Columbus area in 1969 when he accepted the position of Professor and Head of the Infectious Disease Laboratory in the College of Veterinary Medicine's Department of Pathology at Ohio State University. In this position, Dr. Yohn is teaching virology and continuing his research in cancer and viruses.

Of his career Dr. Yohn says, "My interest and research career in Cancer Viruses actually began at the University of Pittsburgh in 1959. At that time we were asked to undertake a 10-year study of the possibility that viruses caused human cancer and leukemia. In 1962 I moved to Roswell Park Memorial Institute, a Cancer Research Hospital, where these studies could be conducted in an institution devoted to Cancer Research.

"My seven years at Roswell Park were highly productive. A portion of the time was devoted to studies of Yaba tumor poxvirus, a virus which causes benign tumors in monkeys and man. Another portion of time was devoted to developing experimental methods to determine whether Human Adenoviruses, a group of highly

contagious respiratory viruses, might be involved in human cancer. As yet there is no evidence that they are.

"And finally I undertook studies which sought to determine whether human leukemia cells contained unique proteins (antigens) that could be detected by a special serologic procedure, immunofluorescence. This study was partially successful but there was no evidence that the antigens came from viruses.

"In my last year at Roswell Park we perfected a method of labeling antibody with radioactive iodine and using this to detect the presence of virus induced proteins (antigens) in tumor cells. We are expanding this technique at the Ohio State University and will be applying it to a study of Cat Leukemia, now known to be caused by a virus, and within a year or so it will be applied to human leukemia and cancer. We fully expect to be a part of the 'great team' which finally brings about means to prevent human cancer and leukemia."

Dr. Yohn and his wife (Olivetta McCoy, '51) are the parents of four children, the oldest of whom, Linda, is a freshman at Otterbein.

Medical Missionary in Puerto Rico

John Alan Smith, '33 and '37, and his wife Virginia (Norris), '36, are synonymous in many minds with the mission work of The United Methodist Church through Ryder Memorial Hospital in Humacao, Puerto Rico. Medical director of the hospital, Dr. Smith is engaged in the clinical practice of medicine as well as in administrative work. Mrs. Smith works closely with her husband as a teacher in the School for Practical Nurses and as an instructor in "La Familia."

With majors in speech, sociology, chemistry and biology, Dr. Smith is also a former Otterbein instructor in biology and served as college physician during 1946. He is a minister of the United Methodist Church with a Bachelor of Divinity degree from Bonebrake Theological Seminary. He received his medical degree from Ohio State University.

Among the honors Dr. Smith has received are the Distinguished Alumnus Award granted by Otterbein College; the listing with his wife in the Hall of Fame by the Council for Health and Welfare, the United Church in 1966; a citation by Sertoma International of Humacao in 1968; and a citation by the San Juan, Puerto Rico, Exchange Club in the form of their Book of Golden Deeds Award granted in 1969.

John and Virginia Smith are the parents of three sons; John David, Howard Alan, and Dwight Hamilton.

Medical Residency

Orvis and Mary Lou Wells, '62, are in Arvada, Colorado, after a year's tour of duty in Viet Nam for Orvis. Currently a pathology resident at Denver General Hospital, he is waiting to begin his obstetric-gynecology residency there July 1. The coming residency will be a community program with equal time shared with Denver General Hospital, Colorado Medical Center and General Rose (a private hospital).

Former UN Ambassador Now Directing WHO

Biology Teacher

Wavalene "Jinx" Kumler Tong, '59, has been teaching biology at Westerville High School for the past two years, soon after completing the required classes in education and sending her youngest child off to school.

She comments, "All our family is now involved in education in some form — children in the fifth, third, and first grades, husband at Otterbein and myself at the high school. Being in the area, there have been many opportunities to draw upon Otterbein as a resource. The cooperation has been immeasurable — especially for a biology major who has only recently returned to the 'academic world' after an absence of nearly ten years."

Mrs. Tong is the wife of Otterbein basketball coach and Chairman of the Physical Education Department, Curt Tong, '56.

Research Engineer

Donald R. Wilcox, x'67, is a Research Engineer in the Casting and Resins Department of Lester Associates, Thornwood, New York. He was commissioned a Second Lieutenant in the United States Army (ROTC) when he graduated from New York University with a degree in Chemical Engineering. He expects to go on active duty in October, 1970.

Mr. Wilcox remained at New York University following graduation as a member of the University Research Staff while simultaneously working on his Master's degree — to be granted in June, 1970 — in the field of air pollution.

Both Mr. and Mrs. Wilcox are active in the Faith Lutheran Brethren Church in Briarcliff, New York.

"I feel that a Christian Liberal Arts background is extremely important to any person entering the professional world," Mr. Wilcox commented recently. "In a world that sometimes seems void of morals and responsible thinking, I feel that a Christian education is indispensable to young people."

John Karefa-Smart is greeted by His Excellency Generalissimo Chiang Kai Shek during an official visit to Taiwan in 1964. The man in the center is unidentified.

Dr. John Karefa-Smart, '40, has been Assistant Director-General of the World Health Organization since his appointment to that post in 1965.

Receiving his medical degree at McGill University in Canada after graduation from Otterbein, Dr. Karefa-Smart has served not only his native Sierra Leone but much larger representations of the world both as a doctor and as a political leader. He led the delegation in London in 1957 which negotiated the granting of full internal self-government for his country. He also played a leading part in the preparations for the attainment of independence for Sierra Leone in 1961.

Dr. Karefa-Smart was elected unopposed to the Sierra Leone House of Representatives in the first and second general elections after Independence, and in September, 1961, he succeeded in gaining the admission of his country as the 100th member

of the United Nations. He led the Sierra Leone delegations to the General Assembly until he retired from the Cabinet in 1964 to accept appointment as Associate Professor of Public Health Practice and Associate Director of International Health at the School of Public Health of Columbia University.

Dr. and Mrs. Karefa-Smart are the joint publishers of a book, *THE HALTING KINGDOM*, are active participants in the World Student Christian Federation and the World Council of Churches, and are the parents of three children: Rosalee, 21, John, 19, and Suzanne, 15.

While expressing his appreciation to the thorough basic training in the pre-medical sciences which he received at Otterbein, Dr. Karefa-Smart adds, "But more than anything else, I owe to Otterbein the widening of my spiritual horizons which prepared me to become a citizen of the world."

Thoracic and Cardiovascular Surgeon

Dr. William J. Rea, '58, completed a two-year residency in thoracic and cardiovascular surgery on July 1, 1969, at Texas Southwestern Medical School and Parkland Memorial Hospital. He had previously completed a four-year residency in general surgery at the same medical center.

As of July 1, 1969, he has been an Assistant Professor of Cardiovascular and Thoracic Surgery at Texas Southwestern Medical School and Chief of Thoracic and Cardiovascular surgery at the Dallas Veterans Administration Hospital.

A 1962 graduate of the Ohio State University Medical School, Dr. Rea is the author of at least ten articles in a variety of medical publications. A study of coronary artery lacerations is the only series of its kind in the world, and a paper on penetrating wounds of the heart, which covers an analysis of 459 cases, is among the most extensive of any ever published.

Dr. Rea is married to the former Vera Andreichuk, '59. They are the parents of three sons, ages 6, 4, and 2.

William Rea and James W. Yost

Floridian is Research Analyst

Tampa, Florida, has been the home for a number of years of James W. Yost, '51, and his wife Lois (Abbott), '52. Mr. Yost is presently the Technical Research Analyst in the Market Research Department at Tampa Electric Company, the power utility in Tampa. He is also Secretary-Treasurer of Technical Services Corpora-

tion which involves itself in contractual services and markets some of its own inventions.

Mr. Yost is Deputy Governor of the Florida District of Civitan International and is involved in many amateur radio activities.

President of United Methodist Men at his church, he is also delegate to the Annual Conference of the United Methodist Church and a member of the Board of Education of the Conference. Florida Southern College, a school of Otterbein's size, is solely owned by the Conference.

Mr. Yost adds that he is or has been involved in "some other exciting endeavors, including nine or ten years as a trustee of Otterbein College on the finance committee."

Cited in Physics

Albert Allen Bartlett, '44, joined the faculty of the University of Colorado in 1950 after completing his graduate study at Harvard. He has been active in civic matters and has served in several capacities for the City of Boulder.

In January, Mr. Bartlett was awarded the Distinguished Service Citation by the American Association of Physics Teachers.

Mr. Bartlett's father, Willard W. Bartlett, was a professor of education at Otterbein for ten years. (See "Flashes from the classes.")

Retired from Teaching

John Andrew Wagner, '10, is retired after 44 years as a teacher of mathematics and science. He has been an active member of the First Presbyterian Church in Akron, and continues to be involved in the functions of the York Rite bodies of the Masonic Order.

One of his major professional interests was in the founding of the Junior Academy of Science in Ohio.

He cites his liberal arts background for giving much help in his success as a teacher. "For over thirty years it came in as the chief counselor of those subjects."

Graduate Student

Holly Puterbaugh, '64, was employed until a year ago by the Cox Heart Institute in Kettering, Ohio, where she was a statistician/programmer and responsible for all statistical work in the Institute. However, she decided that "although I enjoyed medical research very much, researchers don't go very far on a bachelor's degree. Therefore I am back in school now. I received a Graduate Teaching Assistantship from Wright State University for the present year to work toward an M.S. in mathematics."

Holly Puterbaugh and Olive I. Givin

Retired Missionary

Olive I. Givin, '17, has retired from her career as missionary teacher for the Board of Missions, United Methodist Church, but writes that so far she has not had any spare time to worry about filling.

Living with her widowed sister in a United Methodist retirement community in Sebring, Ohio, Miss Givin is teaching a Sunday School class, has spoken about her mission work to several different church groups, and finds there are more activities at church and at Copeland Oaks than she has time for.

She comments, "I have always been thankful that I attended a small, church-related college. While I may not have made specific use of some of the subjects studied at Otterbein, and at the universities where I studied during furlough, there is little, in the education or experience of a missionary teacher in a boarding school, which does not prove useful in one way or another."

City Engineer

Rex N. Sprague, '58, is the City Engineer for the city of Delaware, Ohio, where he is responsible for supervision of all engineering, water and sewage treatment. Mr. Sprague earned his Bachelor of Civil Engineering degree at Ohio State University after leaving Otterbein.

Since assuming his Delaware position, he has been active in community affairs through his membership in the Jaycees, of which he is a past president. He has been recognized as one of the Outstanding Young Men in America (1968) and was given the Jaycee Key Man Award. He and his wife have two children, Cindy 7, and Scott 4.

Rex N. Sprague and Frederick H. Whittaker

Researcher in Parasitology

Frederick H. Whittaker, '51, has been invited to be the guest of the Slovak Academy of Sciences at the Second International Symposium on Parasite Specificity in Kosice, Czechoslovakia, this October.

Dr. Whittaker is an Associate Professor in biology at the University of Louisville and is involved in parasitology research there. Prior to coming to Louisville in 1964, he was associated with Abbott Laboratories in North Chicago where he pursued pharmacological research.

Dr. Whittaker is the author or co-author of numerous scientific papers published within the past ten years, the latest of which is titled, "Helminth Parasites from some birds in Puerto Rico."

Dr. Whittaker is married and the father of two sons ages 7 and 6.

Robert Yakely and Esther Learish Watrous

Doing Urology Residency in Colorado

Dr. Robert Yakely, '62, graduated from the Ohio State University College of Medicine in June, 1966. After finishing a straight medical internship at University Hospital in Columbus, he entered the Navy where he spent his first year as a general medical officer for a destroyer division, spending nine of the next thirteen months in the Mediterranean and North Atlantic. His wife and then-year-old son followed him from port to port visiting Malta, Italy, Spain, France, Portugal, Denmark and Germany.

"This was one of the most interesting years of my life," Dr. Yakely writes. "There was also some excitement, such as the time we answered an SOS at sea from a Yugoslavian Freighter who requested a doctor. We made the transfer in the middle of the night in 6 foot swells well out in the Atlantic Ocean. The patient had had a psychotic break and only required a sedative. I did not realize until later the intrigue involved in the decision as to whether to let me go or not."

The following year Dr. Yakely was assigned to the surgical unit in Charleston, S.C. In July, 1969, he began a four year urology residency at the University of Colorado in Denver.

In recalling his Otterbein work, Dr. Yakely writes, "Otterbein provided an excellent background for my career. Pre-medical training provides the physician with a background of scientific knowledge, but probably more importantly it must discipline the student to organize and retain information."

Finds Teaching Most Satisfying Work

"Science majors, especially if they are girls, do not always carry out the long-range plans they may have had in mind while in college."

So Esther Learish Watrous, '46, describes the deflecting of her plans for graduate nurse's training by marriage to another science major, Ralph Watrous, research chemist at Mound Laboratory in Miamisburg, Ohio.

"Fourteen years and three children later, I entered a graduate program sponsored by Ford Foundation at Miami University and trained as an elementary teacher. Retreads, we were known as! The second year of this program, I served as an 'interne' teacher in Dayton and received the M.Ed. in 1962.

"Since then I have been employed by the Northmont School System at Phillipsburg Elementary School where I teach language arts and health to fifth and sixth graders.

"So far as my other activities are concerned, I am still a homemaker with one child left at home, one a freshman at Kenyon College (couldn't persuade him to Otterbein), one married (making my husband and me grandparents of one). I am presently working on the professional negotiations team of the Northmont Education Association and I am a member of the United Methodist Church at Englewood, Ohio. I belong to Otterbein Sorosis of Dayton, although time hasn't permitted me to be very active there. I have, in the past, worked as a saleslady, bank clerk and bookkeeper for a medical doctor, but teaching is the most rewarding job of all."

Explosives Operations Manager

Gerald Wirth, '56, has worked at Monsanto Research Corporation in Miamisburg, Ohio, since graduation from Otterbein. While his present position there is that of Explosives Operation Manager, Mr. Wirth has also held the titles of Assistant Chemical Operator, Chemical Operator, Supervisor of Nuclear Operations and Night Manager.

(Continued on Page 22)

alumni in the news

Ambassador John J. Akar

African Ambassador

John Akar, x'50, is finding that the Ambassadorship to the United States from his native Sierra Leone is not exempt from the budgetary problems faced by everyone else in these inflationary times. Except that on an ambassadorial level, the problems are even bigger!

The embassy inherited from his predecessor last July is "very, very small" according to Mr. Akar. While keeping an eye open for possible embassy real estate, the new ambassador confided in a recent interview in *THE WALL STREET JOURNAL* that Sierra Leone's financial resources are strained even to maintain the present establishment. The pay of domestic help in Washington "is more than a qualified medical specialist makes in my country."

"Everybody in my country knows I am pro-American, and they are expecting miracles — aid, capital investment, scholarships, tourists." Mr. Akar evaluates his assignment as far more vital than merely maintaining social rapport with the American Government. He envisions Sierra Leone's beaches and mountains becoming a tourist mecca, particularly for "American Negroes seeking cultural identification with Africa." He also contends the very poverty of his homeland makes it a promising manufacturing center.

Mr. Akar is cheered by the high-level sensitivity to African affairs he says he finds in Washington. President Nixon accorded him half an hour for presenting his credentials and appeared "most understanding," the ambassador relates. "Unlike his predecessors, the President has visited many parts of Africa." And despite the built-in difficulties, he diplomatically declares, his overall reception in this country is "so cordial, so fraternal and so overwhelming as to embarrass me sometimes."

Active Lecturer

Earl R. Hoover, '26, for 18 years judge of Cuyahoga County Common Pleas Court and now senior vice president of Shaker Savings Association, is leading an active life as a public speaker.

Among recent speaking engagements he lists addresses to the Youngstown Area Junior Achievement Advisor Recognition Dinner and Dance; the Lakewood Masonic Lodge No. 601, F. & A.M., where he spoke on "Your Flag and Your National Anthem;" and to students at Maple Heights High School where his topic was "So You Think Politics Is Bunk?"

Mr. Hoover's son, Richard W., has given his father reason for pride with his new appointment as third secretary of the United States Embassy in Bonn, Germany. It will be his first post as a United States State Department foreign service officer.

Teacher and Writer

George W. Rohrer, '28, has laid aside his college majors of Latin and French in his present position with Bowsher High School, Toledo. Chairman of the science department and actively teaching science as well as tending to departmental administration duties, Mr. Rohrer has maintained an interest in music. He has been active in the Toledo Symphony

Orchestra for many years, and has been orchestra committee president.

An author as well as a scientist and a musician, Mr. Rohrer has seen the recent publication of at least four articles. They are: "The Old Stone Age in France and Spain," *LINN'S WEEKLY STAMP NEWS*, January 8, 1968; "Early Man in Spain," *LINN'S WEEKLY STAMP NEWS*, July 8, 1968; "Prehistoric Art in the Sahara," *FINE ARTS PHILATELIST*, May-June, 1969; "This Is My Line," *OHIO ACADEMY OF SCIENCE NEWS*, September, 1969.

Child Care Teacher

Mrs. Jean Gorsuch Franklin, '63, is combining personal experience as a mother with her job as teacher of home economics occupations at Burlington High School, Winooski, Vermont. Her preschool demonstration classes for junior and senior girls are part of a training program supported by federal funds under the Vocational Education Act of 1963, amended in 1968. Besides child care, similar classes prepare girls for entry level jobs in such service occupations as waitresses, motel aides, food service workers and clothing maintenance specialists.

In the demonstration child care classes, the high school students observe and take part with Mrs. Franklin in guiding groups of 3 and 4 year olds through their two and a half hour session. Skilled guidance in steering the preschoolers through their varied program shows the students how to handle many activities as well as giving them insights into the natures of young children.

Comments one of her junior students, "Mrs. Franklin is just great! I hope I have her for a teacher next year."

A Reminder:

If you graduated in a year ending in 0 or 5, plan to attend your class reunion activities on Alumni Day, June 13. See *BULLETIN BOARD*, page 32, for further information.

YMCA Director

Robert W. Schmidt, '46, has been General Executive Director of the Long Island YMCA since 1967. Just finishing its fiftieth year, the Long Island YMCA has continued to move forward in several directions under the leadership of Mr. Schmidt. West Nassau and Mid-Nassau Community Y buildings were completed within the past two years.

Another program with which Mr. Schmidt has been concerned is the establishment of the Y Urban Development and Extension program which is building bridges to minority groups.

Mr. Schmidt and his wife, Vivian E. Peterman, '46, live in Huntington, Long Island. They have three daughters including Pamela Elaine, '68.

Carpenter Clergyman

When the Rev. Donald L. Williams, '41, is in the mood to carpenter, he can build an easel an hour in his shop.

Begun seven years ago as a home workshop project, Mr. Williams' easel-building enterprise has outgrown his garage and is now a profit-making business. Still, it is a part-time business, since Mr. Williams, pastor of Hayes United Methodist Church, Oregon, Ohio, spends most of his time in church work.

His product is a presentation or display easel, rather than an artist's easel.

Mr. Williams' entry into small-scale manufacturing was accidental. A craft hobbyist ("I've been a wood-butcher all my life"), he built an easel to make work easier for his wife, Louise (Gleim), '41, who teaches art in the Northwood School System and also instructs a Sunday church school class.

That was in 1963. Before long, he had orders for easels from three other Sunday church school teachers. The next year, he began selling a few of his easels, and in 1965 he shipped one across the state line. Because of that, he was eligible to copyright the easel trade name, "Helpful Don."

Mr. Williams does not use "reverend" before his name in advertising or business transactions, and so far, he has not received any criticism of his part-time enterprise.

"A lot of people do worry about a pastor putting on overalls and working," he remarked, "but they ought to remember that Jesus was a carpenter, Peter was a fisherman, and Paul was a tentmaker."

As for his own congregation, most of whom are craftsmen themselves, Mr. Williams said, "I think they sort of appreciate a pastor who works with his hands."

Representative Alan E. Norris

New Anti-Crime Bill

Ohio State Representative Alan E. Norris, '57, has "shown himself big enough to be a leader among fellow lawmakers in law and order legislation" according to a recent Columbus news feature.

His latest proposal, approved by the Ohio House of Representatives, is an omnibus bill to fight organized crime. The former Westerville city prosecutor, serving his second term representing northeast Columbus and Franklin County, previously has been a prime mover on such law enforcement legislation as the Riot Control and Omnibus Highway Safety acts.

"It (the new bill) gives the state investigative powers where intercounty crime is involved and supplies local police with a communications network that is statewide," Rep. Norris explains.

"The goal of the bill is simple. We want to halt rings involving gambling, prostitution, fraud, counterfeiting, loan sharking, extortion, illicit drugs and violence."

To do this, he and fellow lawmakers hope to set up three bureaus under the attorney general — bureaus of investigation, identification and research which would aid local police agencies obtain evidence, would supply crime laboratory facilities, permit special grand juries if local prosecutors fail to act, provide criminal records in a centralized area and provide the latest crime prevention techniques.

Retired Obstetrician

Dr. Arthur Eugene Roose, Jr., '23, retired in 1964 from his position as Chief of the Department of Obstetrics at Columbia Hospital in Pittsburgh to his present home in Green Valley, Arizona.

President of the Columbia Hospital staff in 1959-60, Dr. Roose was also a member of county, state and American medical societies. He was a Fellow of the Pittsburgh Obstetrics and Gynecology Society, of the American College of Obstetrics and Gynecology, and of the American Society of Abdominal Surgeons.

Dr. Roose was a trustee of Otterbein College from 1948 to 1952, and again from 1958 to 1961. He served terms on the board of directors of both the Wilkesburg Civic Symphony and the West Penn Auto Club. He is currently active as an Elder and a member of the Session of Trinity Presbyterian Church in Tucson.

Pollutants Researcher

Stephen P. Ellis, '65, is a graduate research assistant at Auburn University, Alabama, where he is investigating the binding and nature of the reactions of pollutants on micro-organisms.

Mr. Ellis is a member of the American Association for the Advancement of Science, and the United Methodist Church through which he advances an interest in social concerns.

Prior to coming to Auburn, Mr. Ellis worked as a teaching assistant at Ohio State University.

on and off the campus (Continued)

Thomas (Continued from Page 10)

Thomas is a member of Phi Alpha Theta history honorary, the American Historical Association and the Ohio Academy of History.

Four professors have also joined the Otterbein staff on a part-time basis. Acting Dean Dr. Thomas J. Kerr has named three new full-time instructors who have joined the college at the beginning of the winter term.

Two of the part-time faculty members will be teaching in the department of economics. William Anthony, currently a Ph.D. candidate at The Ohio State University, will teach Labor Economics during the winter term. Dr. Uwe Woltemade, who is chairman of the department of economics at Ohio Wesleyan University, will be a part-time lecturer, teaching a course in Intermediate Macroeconomic Analysis, also during the winter term.

Jack Gibbs, principal of East High School in Columbus, also serves as a part-time instructor at Otterbein. Gibbs is teaching Interdisciplinary Black Thought.

Miss Velma Ogg, assistant professor emeritus who retired from Otterbein in June, 1969, has returned to active teaching duties because of the illness of Department Chairman John K. Coulter, Jr., and will instruct two English classes.

Publishing Professors

Two Otterbein professors have recently published contributions to their special field of study.

Dr. Harold Hancock, chairman of the Department of History and Government, has written the chapter "Reconstruction in Delaware" in a history book, RECONSTRUCTION IN THE BORDER STATE, which was published recently by Johns Hopkins Press.

The Civil War and the reconstruction period have long been of special interest to Dr. Hancock. He has taught courses in this area at Otterbein and The Ohio State University. His doctoral dissertation dealt with the Civil War in the state of Delaware.

During a spring sabbatical Dr. Hancock plans more research into Delaware history and will write several articles on the Freedman's Bureau and Civil War income tax.

John A. Taylor, associate professor of physics, has recently published a two-part workbook, "Programmed Study Aid For Introductory Physics."

Taylor, who holds a B.S. from Worcester Polytechnical Institute and a Ph.D. from Massachusetts Institute of Technology, calls the workbooks, "A bridge over the gap between the theory in most textbooks and the practical solving of physics problems."

The work, four years in the making, was published by Addison-Wesley Publishing Co., Inc. of Reading, Massachusetts, and is designed to be used in conjunction with frequently used physics texts, particularly Sears-Zemansky's "University Physics."

Taylor was first prompted to write a physics workbook while instructing at Drexel University, his most recent position before coming to Otterbein. Taylor said, "I observed that most students, at all levels of competence, had great difficulty in the transition from the text material to the homework problems. The workbooks contain small, step-by-step explanations of representative problems which hopefully overcome the transition difficulty."

After a tentative beginning, he was further convinced of the need for this type of work when he attended a workshop on programmed material for physics. Many of the problems Taylor had observed had also been very apparent to others in his field.

A vast amount of pre-testing and critical evaluation of the problems

contained in the books was performed with the cooperation of Otterbein students. Much credit for the production of the work must go to a number of students and Otterbein staff members, Taylor said.

Wirth (Continued from Page 19)

A member of the Otterbein United Methodist Church, Mr. Wirth used the basketball knowledge remembered from his varsity experiences at Otterbein to coach the church basketball team in 1965 and 1966. In addition he has played on Monsanto's IRAD basketball and golf teams.

In 1967 he earned his private pilot's license and a year ago became a member of the Dayton Pilot's Club. At present he is a student at Salmon P. Chase Law School in Cincinnati, a night school for law students, where he is completing his second semester.

In Mr. Wirth's opinion, "Otterbein is one of the finest liberal arts colleges in the country. My wife and I plan to send both our daughters to Otterbein, as it offers excellent teaching with a friendly atmosphere."

Math Majors in Detroit

Lewis R. Rose, '63, was discharged from the Air Force in October, 1969, and is currently working as an investment analyst for the First National Bank of Detroit. After graduating from Otterbein, Mr. Rose received his Master's degree from Ohio State University. In his subsequent Air Force service, he cites numerous occasions when his math training proved valuable. For a time he taught a form of math in an Air Force intelligence school.

Mrs. Rose (Claudia Smith, '64), was also a math major while at Otterbein. She taught Junior High math in Upper Arlington (Columbus) and in the public schools of Louisiana while her husband was stationed at Shreveport.

The Roses are the parents of two children, Lloyd, almost 3, and Gail, 1½.

A London Theatre Tour

by Charles W. Dodrill

Editor's note: The following is an excerpt from an evaluation of the current (1969-70) London, England, theater season written by Dr. Dodrill for THE CUE. Dr. Dodrill and a group of Otterbein students spent two weeks in London in December, 1969.

Generally speaking the current London season is reminiscent of the current New York season in that there are few new plays of quality. It is also reminiscent of past New York season's successes because the best productions have simply been transferred across the Atlantic.

It is safe to say that except for a couple of instances the most exciting London theater is provided by the permanent and visiting repertory theater groups.

Most American productions of Shakespeare's plays seem quite pale in comparison with the truly magnificent offerings of the Royal Shakespeare Company. The English actor "speaks the language" with such ease and vitality that one need not strain to hear nor understand, while he also seems equally at home with dance, sword or love-scene.

The National Theater, playing at the Old Vic under the leadership of Sir Lawrence Olivier, has several plays in repertory, the most contemporary being a new play by Nichols entitled THE NATIONAL HEALTH.

In the so-called "commercial West End" of London theater one of the season's outstanding comedies is contributed by the Chichester Festival Repertory Company. The play is a revival of the 1880's Arthur Wing Pinero farce entitled THE MAGISTRATE, starring one of the finest actors and undoubtedly finest "farceurs" on the twentieth century stage, Alistair Sim, and featuring Patricia Routledge. My students were amazed to discover that this play was almost ninety years old. How could anything that old be such fun?

The finest dramatic hit of the season, one that is certain to be played on Broadway in the near future, is CONDUCT UNBECOMING starring Maxine Audley, Paul Jones and Jer-

emy Clyde (of Chad and Jeremy folk singers). This superb play concerns the conduct of British officers in India at the turn of the last century.

Activity in the off-Broadway type theaters of London, the theater clubs (such as the Hampstead) and other out of the way theaters such as the Roundhouse (a converted railway station with about 1800 seats in a thrust or three-sided arena stage), is also apparently down from past seasons.

Many of our students also attended the Royal Ballet and Royal Opera at the Covent Garden Theater, while others went to the Sadler's Wells or Victoria-Albert.

(Continued on Page 32)

Alumni Clubs' Activities Round-up

Akron — March 21, 1970; home of Wendall and Gage King, '48, '47; Club president: Jane Tyron Bolin, '42; Program: Reports from students on study abroad experiences. Future: Plans being made for summer theatre meeting.

Cleveland — February 14, 1970; Dover Congregational Church; Club president: Bob Studer, '59, and Emily Wilson, '54. Program: Film "From The Tower" shown by Dick Pflieger, '48. Future: New officers Rudy Thomas, '43, president, Margaret Lloyd, '64, secretary and Herbert Adams, '51, treasurer.

Colorado — March 31, 1970; home of Joe Ariki, '46, area chairman; Program: Film "From The Tower" shown by Elwyn Williams, Vice President for Development and Public Relations.

Columbus — March 6, 1970; Otterbein College Campus Center; Harvey Vance, '63, program coordinator. Program: Play "Twelfth Night" and remarks from Vice President Elwyn Williams. Future: New Officers Vernon Pack, '50, president and J. Robert Knight, '28, vice-president.

Florida Gold Coast — March 13, 1970; Beach Club Hotel, Ft. Lauderdale; Club president: Perry Wysong,

'39. Program: Film "From The Tower" shown by Dick Pflieger, '48 and long range plans discussed by Vice President Elwyn Williams. Future: officers Robert and Beverly Boring, '53, '54, president and secretary, Marjorie Reese Borsum, '52, director.

Florida West Coast — March 10, 1970; Bradford's Coach House, St. Petersburg; Club president: James Yost, '51. Program: Film "From The Tower" shown by Dick Pflieger, '48, and long range plans discussed by Vice President, Elwyn Williams. Future: New club president Beverly Thompson Kelly, '52 and secretary Donna Sniff Sitton, '55.

Dayton — April 11, 1970; Neil's Heritage House; Club president: George Vawter, '49. Program: "Long Range Plans" presentation by Elwyn Williams, Vice President for Development and Public Relations.

Greensburg — March 4, 1970; Mountain View Inn, Greensburg, Pennsylvania; Club president: J. Robert Munden, '35. Program: Film "From The Tower" shown by Dick Pflieger, '48. Future: New directors Harold and Helen Darling, '24, John Peterson, '60, and Gerald Reese, '49.

Los Angeles — February 7, 1970; Skyroom — Hutchins Hall, Pasadena; Club president: James T. Whipp, '56. Program: Film "From The Tower" shown by Vice President, Elwyn Williams. Future: Committee of Virginia A. Ford, '55, Joe Henry, '26, and Walter Martin, '27, appointed to plan club project.

Philadelphia — February 4, 1970; Downtown Sheraton Hotel; Re-organizational meeting. Program: Film "From The Tower" shown by Chester R. Turner, '43. Future: New officers Robert Kintigh, '65, president, Debbie Holliday Kintigh, '68, secretary. A late spring meeting is planned.

San Diego — February 8, 1970; First United Methodist Church; Meeting coordinator: Donald R. Martin, II, '63. Program: Film "From The Tower" shown by Vice President, Elwyn Williams.

San Francisco — February 13, 1970; Castagnalis — Fisherman's Wharf; Club president: John R. Shively, '33. Program: Film "From The Tower" shown by Vice President, Elwyn Williams. Future: A summer family get together is in the making.

flashes from the classes

The Class of 1969

Of the 160 members of the class of 1969 who have returned their Information Office Record questionnaires by press time, eighty-six are teaching, with all levels represented from kindergarten through college and including special instruction areas. Twenty-one are enrolled in either graduate school or medical school with six attending seminary. Eight are in a branch of military service, three are airline stewardesses, and two are secretaries. Over 23 other occupations were listed.

It is appropriate that in this designated Science Year 1969-70, we note the 1969 graduates who hold the Bachelor of Science degree. They are: Barry W. Askren, Richard Augspurger, Jon Banning, Mrs. Joellen Stull Bashford, Jack Benner, Virginia Biemel, Jack Booth, James Brubaker, Mrs. John Carter, Douglas Sherwood Corner, Chris Cordle, Kathryn Cunningham, Mary C. Eagle, Cecil Elliott, Judith Gilg, Frederick Glasser, Annmary Miller Gruber, David Harris, Robert Hewitt, Alice M. Hoffmeister, Harry Jensen, Thomas Jent, David Jones, Judith Ann Keiser, Karl Kempf, Richard P. Kratzer, Michael G. Leadbetter, Dayre Lias, Peter L. Lubs, John McDonald, Richard Lee McKinney, Franklin Miller, Marilyn Miller, James K. Morisey, Frederick A. Myers, Jean-Pierre O'Neal, Martha J. Onstott, James Payton, Ann Pringle, David Reynolds, Edward Sechrist, Mrs. Bonnie McGhee Shifley, Carolyn Slick, Frederick K. Steck, Trudy Thomas, Jeffrey Upp, Roger Wharton, Marc Woodward.

Frederic W. Ackerman, teaching English at South Central High School in Greenwich. Address: 47 South Kniffin Street, Greenwich, Ohio 44837.

Mrs. Chris Adams (Linda Washnok), teaching French and history at Indiana Junior High School in Indiana, Pennsylvania. Address: 924 Water Street, Indiana, Pennsylvania 15701.

Mrs. Richard Albert (Mary Harlan), teaching third grade in Anchorage, Alaska. Address: P.O. Box 8031, Anchorage, Alaska 99504.

Nancy Arnold, teaching third grade at Moraine Meadows Elementary School in Kettering. Address: 509 Lewiston Road, Apartment 2, Kettering, Ohio 45429.

Barry Askren, teaching junior high science at Ashley Elementary School in Ashley. Address: 75 Illinois Avenue, Apartment C, Westerville, Ohio 43081.

Richard Augspurger, medical student at Ohio State University.

Mrs. Richard Augspurger (Susan Keister), teaching home economics at Miami Trace High School.

Barbara Jean Bachtel, Address: 222 Twin Oaks Road, Apartment 16, Akron, Ohio 44313.

John H. Baffa, special agent for the U. S. Secret Service in Presidential Protection and Violations of Federal Laws. Address: 1964 Westwood-Northern Boulevard, Apartment 2, Cincinnati, Ohio 45225.

Dave Barnes, serving auto mechanics apprenticeship for Lombardo Pontiac. Address: 441-S Kenwood Dr., Euclid, Ohio.

Mrs. Frederick Bashford (Joellyn K. Stull), teaching science at Miamisburg Junior High School and attending graduate school at Wright State University. Address: 2161 Imperial Road, Miamisburg, Ohio 45342.

Robert M. Bateson, serving in the U. S. Army. Address: 276 South Hampton Road, Columbus, Ohio 43213.

Thomas R. Bay, attending Ohio Northern University, College of Law, and working toward a J. D. degree. Address: 615 South Johnson Street, Ada, Ohio 45810.

Daniel E. Bender, working as an assistant psychiatric therapist. Address:

1230 NE 4th Court, Boca Raton, Florida 33432.

Mrs. Daniel E. Bender (Wendy Fickler), also working as an assistant psychiatric therapist. Address: 1230 NE 4th Court, Boca Raton, Florida 33432.

Virginia Biemel, teaching junior high math at McGuffey Junior High School in Columbus. Address: 4801-H Kingshill Drive, Columbus, Ohio 43229.

Jack B. Booth, attending Ohio State Medical School. Address: 566 Stinchcomb Drive, Columbus, Ohio 43202.

Stephanie Brandon, teaching junior high math in Mount Vernon. Address: 1115 North Mulberry, Apartment 4, Mount Vernon, Ohio 43050.

Robert H. Breece, employed by the Federal Reserve Bank of Cleveland as a program analyst. Address: 1491 E. 191st Street, Apartment H-447, Euclid, Ohio 44117.

Whitney A. Briedenbach, employed as a stewardess for American Airlines. Address: 7785 Nordica Avenue, Niles, Illinois 60648.

Cherrie L. Brothers, employed as a stewardess for Delta Airlines. Address: 1111 South Post Oak Road, Apartment 730, Houston, Texas 77027.

Virginia A. Zurich, attending graduate school at Southern Illinois University. Address: 108 Dogwood Lane, Centerville, Illinois 62918.

Note to Members Class of 1969

If you have not yet completed and returned your Otterbein College Office Record questionnaire,

please do so as early as possible. The Alumni Office needs this form for mailing purposes (such as TOWERS), data processing, and compilation of the new edition of the Alumni Register. Won't you help us to serve you better?

Flashes from Other Classes

Dr. Willard W. Bartlett, chairman of the Otterbein education department from 1936-46, is living in Claremont, California. According to a note written January 30, he stated that he was hurrying around in order to close up their house "and arrange for going into the Lodge to live and I forgot I was 85. I overstrained my lungs with the result I am permanently in our rest home here with just lung power enough to breathe while spending most of my time in bed."

'14

The Rev. and Mrs. Harry Richer were honored by friends and members of the Walton Blue Ball United Church of Christ in a "This is Your Life" commemoration of their 55th wedding anniversary. In attendance were ministers and their wives, lay representatives of many churches where the Richers have conducted evangelistic crusades, representatives of high school and college days, and local friends. Rev. Richer has been in his present pastorate for five years.

'24

Wayne Winkle retired in 1969 after serving a total of 47 years as a teacher, the most recent in Wilson Junior High School, Hamilton, Ohio. Thirty years were spent in the Hamilton Public schools, including seven as principal of Cleveland Elementary School. Mr. Winkle also was superintendent of Holsburg and Ansonia in Darke County, of Verona in Preble County, and principal in Batavia, Ohio.

'26

Dr. Emerson D. Bragg retired October 1, 1969, after 43 years in the ministry of the United Brethren, Evangelical United Brethren and United Methodist churches.

'27

Charles O. "Chuck" Lambert retired March 1 as Executive Director of the Powel Crosley, Jr. Branch YMCA, a post he has held since the branch opened seven years ago. He has served the Cincinnati area in one YMCA capacity or another continuously since 1944, and has devoted his career to the work of the YMCA. Mr. and Mrs.

Lambert make their home in Batavia, Ohio.

Theodore Nichols, x'27, has been appointed principal at Walnut Elementary in Painesville, Ohio, where for the past seven years he has been instrumental music director.

Dr. W. Frederic Miller is pastor of Youngstown's oldest Protestant Church, the First Presbyterian Church. Coming to Youngstown in 1952, the assignment is only the second since entering the ministry. Dr. Miller was the subject of an extensive feature in the YOUNGSTOWN VINDICATOR last fall, which described him as "likeable and as efficient as a captain of industry."

'31

Since June, 1968, Mrs. David M. French (Mary R. Oldt) has been the medical director for the Flint, Michigan, Regional Red Cross Blood Center.

'33

Brantford B. Benton writes that his Master's thesis at Montclair State College on the biography of Field Marshal Francisco de Carvajal has been accepted by Hispanic Foundation (Library of Congress), and by Instituto de Antropologia e Historia de Mexico. A condensed re-write is also now under editorial-publication-evaluation by the Academy of American Franciscan History.

'34

Helen VanSickle Slack is teaching fifth grade in the Westerville Public Schools where she has served as principal and teacher for a number of years. Also teaching in the same system is her daughter, Martha Slack Kinkead, '63.

'36

Morris Allton was one of one hundred agricultural leaders honored by the Ohio State University's College of Agriculture and Home Economics. The College Centennial Award for Distinguished Service was bestowed upon Mr. Allton in recognition of his work for rural America through his position as Vice President, Public Affairs, Ohio Farm Bureau Federation.

Among the many activities of Dr. William K. Messmer in his work as administrative assistant to Bishop F. Gerald Ensley of the United Methodist Church in Ohio, are frequent appearances as guest speaker. A recent note tells us that one of these appearances was at Grace United Methodist Church in Zanesville, where he discussed "Man's Search for God."

'38

Mrs. True Gehman Bower has been the school librarian at Goodrich Junior High School in Akron since 1958. Named among the Foremost Women in Communication for 1969-70 and an advisory member of The Marquis Biographical Library Society, Mrs. Bower has also been listed among Who's Who in Library Service, Who's Who in the Mid-West, and Who's Who of American Women. She received her Master of Library Science degree in 1953 from Western Reserve University.

'48

Doyle S. Blauch is an assistant professor at West Liberty State College in West Liberty, West Virginia, where he is teaching botany. He writes, "I am working on my dissertation for Ph.D. degree — hopefully by May!"

Grace Coleman Brague and her family have been transferred with General Electric Company (computers) from Phoenix, Arizona, to Paris, France. She writes that they live in the western suburbs, "like it very much and would enjoy hearing from Otterbeinians coming this way or living in Europe also."

'50

Austin Morgan reports that his position with the Johnson Bronze Company in New Castle, Pennsylvania, has changed from Controller to Vice-President.

Dr. Judith Wray of the Loretto Heights College faculty was responsible for a multi-media performance at Aspen (Colorado) High School during the Colorado Governor's Conference on the Arts and Humanities last summer. Other summer activity for Dr. Wray included participation in an American Theatre Institute presentation of "Spoon River Anthology," and instructing a class in readers theater.

'51

The Rev. Mr. Allen C. Jennings has been pastor of the Otterbein United Methodist Church in New Philadelphia, Ohio, since 1967. Last summer he also assumed the pastorate of Bisel United Methodist Church in nearby Dover. Rev. Jennings and his wife (Martha Gilliland, '57) have two daughters aged nine and six.

'52

Wendell J. Dillinger has been elected President of Iowa Terminal Railroad Company after more than eleven years of experience in the company.

Joanne Mikesell Gatto is living in Highland, California, with her Air Force Major husband and two small children. Joanne lists teaching experience in Westerville and later in Germany. At present her husband is flying C-141's and is Flying Safety Officer at Newton Air Force Base.

'53

The Rev. Mr. Glen E. Howard resigned in December, 1969, as chaplain and recreation director of the Ohio Soldiers and Sailors Orphan Home in Xenia, Ohio, to become manager of the Veterans of Foreign Wars national home near Lansing, Michigan. The VFW Home has about 200 children whose VFW-member fathers are deceased or totally disabled.

'54

Dale E. Moyer has been named assistant to the vice president, marketing, United States, for Marathon Oil Company. His previous assignment was as manager of the Columbus retail marketing district. He has been associated with the Marathon Oil Company since 1957 when he was separated from the Marine Corps.

Doug, x'55, and Nita Hoerner Huelf are living in Colorado where Doug is teaching at the U. S. Air Force Academy and is the non-commissioned officer in charge of two mental hygiene clinics at the base hospital. He plans to attend the University of Colorado this semester and to receive his B.S. degree next fall. Nita is working in the Law department where she cares for the 5,000 volume law library, types wills and does other clerical work. She cites this as her favorite job out of eleven years in civil service.

'55

Robert Dille is the new Superintendent of the West Virginia Conference of the United Methodist Church.

David C. Kay was promoted last summer to Associate Professor of mathematics at the University of Oklahoma. His wife is the former Helen Koehler, '57.

'57

Recognition for service seems to be the trademark of the Charles Bradford family. Last year, Rev. Bradford was included in the list of Outstanding Young Men of America. This year his wife is included among the Outstanding Young Women of America. Both Bradfords have been active in the programs for the children and youth of their church and the Van Wert, Ohio, community where they live. Rev. and Mrs. Bradford have four children aged 10, 7, 6, and 4.

'58

Larry Rood has been teaching, coaching and serving as athletic director of Pleasant View High School, Southwestern City School District, (Grove City, Ohio) for the past eleven years. He was recently named Central Athletic Chairman, a member of the State Board, and State Athletic Directors' Treasurer.

'59

John and Eileen (Mitchell) Payton now live in Sharonville (Cincinnati) where Dr. Payton is employed in the Princeton School System. The Paytons are the parents of four children.

'60

Lt. Bruce L. Keck, x'60, is currently doing hydrographic work in Alaskan waters aboard the survey ship Fairweather with the U. S. Coast and Geodetic Survey.

Vernon Vogel received the Advanced Certificate in Information and Library Science from the University of Pittsburgh last summer. He has been promoted to Associate Professor at Edinboro State College.

'62

Mrs. Kirby N. Klump (Louise Bollechino) is now living in Bayside, Queens, New York, where her husband is a chemist at General Telephone & Electronics Research Laboratory.

John Naftzger has been promoted to account executive at Kircher, Helton & Collett, Inc., an advertising, marketing and public relations agency. In June of 1969 Mr. Naftzger received a Master's Degree in Business Administration (major in marketing) from Xavier University. He and his wife (Sharon Minty, '64), and three-year-old son live in Centerville, Ohio.

'63

W. Thomas Moore, x'63, was recently appointed plant manufacturing engineer at the Corning Parkersburg, West Virginia, Plant. He joined Corning, New York, in 1965, transferring to Parkersburg in 1968. He and his wife (Emily Crose, x'63) live with their three children in Vienna, West Virginia.

Arlene Huff Chase writes that she and Larry, x'65, are now living in a 125-year-old farmhouse "on a dairy farm, of course!" at Port Matilda, Pennsylvania. Larry is on the staff at Pennsylvania State and working toward a Ph.D. in 1973. He received his Master's last July from North Carolina State while working as a dairy supervisor at a North Carolina Research Station. The Chases have a year-old son, Kelly.

'65

After graduating from Washington and Lee Law School, George Parthemios is attending New York University Graduate School of Business Administration for his M.B.A. degree.

Jim Studer has joined Automated Business Systems, Division of Litton Industries, as a McBee systems sales representative at the company's Akron office.

Jack B. Wright is teaching at The University of Texas at Austin in the Department of Drama. He is also Administrative Assistant to the Chairman of the Department, and this year is serving as the Regional Chairman of the American College Theatre Festival-1970. Chairman of Region 5 includes Texas, New Mexico, Arkansas, Oklahoma and Louisiana.

'66

Sherry Perlick Day would like to receive communication from "long lost friends. My husband and I reside in nature's paradise. Elk Rapids (Mich.) is surrounded by woods and lakes. We enjoy the recreation of the area and are currently busy snowmobiling. I teach social studies and science in the upper elementary grades in a small non-graded school. My husband, Phil, is a supervisor at a plastic products factory in Traverse City. I'd love to hear from old friends. Address: P.O. Box 292, Elk Rapids, Michigan 49629."

Rebecca Clark is attending Kent State University this year as a graduate student in history.

David Newton is in his third year of teaching in the Westerville Public Schools where he has classes in algebra and geometry.

Melinda Lee Rickelman has joined the Ohio State University Development Fund staff where she writes news and feature stories about the need and use of gifts, in addition to working on brochures, pamphlets and booklets for use in financial campaigns.

'67

Sonny W. Tucker, x'67, is now connected with Njala University College at Njala, Sierra Leone, where he is doing extension work. After leaving Otterbein, Mr. Tucker transferred to Agricultural and Technical College in Greensboro, North Carolina, where he received his B.S., and then proceeded to University of Illinois where he earned his Master's.

Robert Woodruff is teaching American history and English at Blendon Junior High School in Westerville.

'68

Carol Jo Stevens Miller is teaching fifth grade in her home town of Niles, Ohio, where she is one of three teachers who were helped in their college years by the Niles PTA Council's scholarship program.

Richard E. Reynolds was awarded the Air Force Commendation Medal after his discharge with the rank of captain in December. He is currently teaching elementary physical education in the Columbus City Schools and served as junior varsity basketball coach at Otterbein during the season just past. He, his wife (Ellen Trout, x'68), and their two-year-old son live in Westerville.

Karen Persson Whalen has been a Revoice Investigator for Franklin County (Columbus) for two years while she and her husband have been residing at Lockbourne AFB. In March, the Whalens moved to Hamilton, Ohio, where Karen will be a Revoice Investigator for Butler County.

Otterbein Alumni in Military Service

'59

Lewis F. Shaffer has been promoted to the rank of major in the U. S. Air Force. Major Shaffer is a personnel officer at Hickam AFB, Hawaii, with the 61st Military Airlift Wing, a unit of the Military Airlift Command which provides global airlift for U. S. military forces.

'60

Captain G. William Howe, on duty at Tuy Hoa AB, Vietnam, is a HC-130 Hercules search and rescue helicopter pilot with the 39th Aerospace Rescue and Recovery Squadron, which performs combat and mercy air rescue and evacuation.

'61

Captain Thomas J. Cross has graduated from the Air University's Squadron Officer School at Maxwell AFB, Alabama. Captain Cross, a space systems operations officer, was specially selected for the 14-week professional officer course in recognition of his potential as a leader in the aerospace force. He has been assigned to Luke AFB, Arizona, for duty.

'65

Keith Jarvis passed the BAR examination November 8, 1969, and entered the Air Force as Captain of the Judge Advocate. He is stationed in Fayetteville, North Carolina, Pope AFB.

Captain Vasken W. Moomjian has been decorated with the Distinguished Flying Cross for air action in Southeast Asia. He distinguished himself as a B-52 Stratofortress navigator in July, 1968, when flying through adverse weather on a critical mission over Vietnam, he directed the bombers to the target area for the destruction of active surface-to-air missile sites.

Also the recipient of five Air Medals for sustained aerial flight during his

'70

Marjorie Benson is teaching English for the remainder of the school year in the Bucyrus City Schools.

Karen Alexander, x'70, has passed her Licensed Practical Nurse State Board test, and is now a Certified Podiatrist Assistant.

Southeast Asia tour, Captain Moomjian was honored at Beale AFB, California, where he now serves with the 744th Bomb Squadron, a part of the Strategic Air Command, the U. S. nuclear deterrent force of long range bombers and intercontinental ballistic missiles.

Captain William A. Ottewill was graduated from the Air University's Squadron Officer School at Maxwell AFB, Alabama. He was specially selected for the 14-week professional officer course in recognition of his potential as a leader in the aerospace force. Captain Ottewill is now assigned to Eglin AFB, Florida, as a missile launch officer.

First Lieutenant David R. Samson has also graduated from the Air University's Squadron Officer School in Alabama, for which he was selected in recognition of his potential as a leader in the aerospace force. He is now assigned to Lackland AFB, Texas, as an education and training officer.

First Lieutenant Charles W. Shackson is on duty at Korat Royal Thai AFB, Thailand. He is an F-4E Phantom pilot in a unit of the Pacific Air Forces.

'66

Lawrence L. Amstutz has been promoted to captain in the U. S. Air Force. He is assigned to the 438th Services Squadron, a unit of the Military Airlift Command which provides global airlift for U. S. military forces.

Captain Amstutz, a supply services officer at McGuire AFB, New Jersey, also received the U. S. Air Force Outstanding Supply Officer Certificate. He was selected for the special award by the Air Force Chief of Staff for his outstanding proficiency in fulfilling supply responsibilities. The honor qualifies recipients for assignment to high-level positions in supply fields which control more than half of the Air Force budget.

Michael J. R. Fensler was promoted to the rank of captain in the U. S. Air Force, October 16, 1969. He is stationed at Great Falls, Montana.

Captain Warren R. H. Knapp is a member of a unit that has earned the U. S. Air Force Outstanding Unit Award. His unit was cited for maintaining a superior combat crew training program, producing high-caliber USAF interceptor pilots, and sustaining an outstanding flying and ground safety record. Captain Knapp, an information officer in the 4780th Air Force Wing at Perrin AFB, Texas, will wear the distinctive service ribbon to mark his affiliation with the unit.

James B. Miskimen has been elected President of the Pease Air Force Base Junior Officers' Council for 1970.

Captain John A. Whalen has been honorably discharged from the U. S. Air Force after three and a half years of active duty through an officers "early out" program. He is presently enrolled as a graduate student at Miami University School of Business.

'67

First Lieutenant Gerald C. Bishop has been awarded silver wings upon graduation from the U. S. Air Force navigator school at Mather AFB, California. He will remain at Mather for specialized training as a navigator-bombardier before reporting to his first permanent unit for flying duty.

Second Lieutenant Jerry Laurich is assigned to Andrews AFB, Maryland, as a Laboratory Officer in Mountain Grove Medical Center.

John Scott reported for active duty in Vietnam on November 1, 1969.

'68

Second Lieutenant Lance W. Lord is a member of a unit which has earned the U. S. Air Force Outstanding Unit Award. The 321st was cited for meritorious service from July 1968 through June 1969. It is part of the Strategic Air Command, the U. S. nuclear deterrent force of long range bombers and intercontinental ballistic missiles. Lieutenant Lord, a missile launch officer stationed at Grand Forks AFB, North Dakota, will wear the distinctive service ribbon to mark his affiliation with the unit.

James A. MacKenzie has been awarded his silver wings upon graduation from U. S. Air Force navigator training at Mather AFB, California. Lieutenant MacKenzie will be assigned to Forbes AFB, Kansas, following specialized aircrew training at Fairchild AFB, Washington. He will serve with a unit of the Tactical Air Command which provides combat units for air support of U. S. ground forces.

John O'Donnell entered the U. S. Navy on August 8, 1968, for a four-year enlistment. He is presently located in England.

Daniel Weaston recently graduated from Officers Training School at Fort Benning, Georgia. He is now stationed at Fort Carson, Colorado.

'69

Airman Michael L. Kuhn has graduated with honors at Lowry AFB, Colorado, from the training course for U. S. Air Force supply inventory specialists. He is being assigned to Dover AFB, Delaware, for duty with a unit of the Military Airlift Command.

Second Lieutenant Dayre C. Lias has entered U. S. Air Force pilot training at Reese AFB, Texas. He will fly the newest Air Force jet trainers and receive special academic and military training during the one-year course. He will be awarded silver pilot wings upon completion of the program.

Second Lieutenant Jeff J. Polles has also entered U. S. Air Force pilot training at Laredo AFB, Texas. He will receive the same training as Lieutenant Lias and be awarded silver pilot wings upon completion of the Air Training Command flying program.

Second Lieutenant Robert G. Dull has graduated at Tyndall AFB, Florida, from the training course for U. S. Air Force weapons controllers. He has been trained to direct operation and maintenance of ground search and height finding radars and is assigned to Luke AFB, Arizona, for duty with the 4629th Support Semi-Automatic Ground Environmental Squadron, a unit of the Aerospace Defense Command, which protects the U. S. against hostile aircraft and missiles.

Represent Otterbein

Several Otterbein alumni and staff members have represented the college recently at inaugural ceremonies at other colleges and universities throughout the country. They are:

Joseph B. Henry, '26, the inauguration of Gordon Michalson as president of the School of Theology in Clairmont, California, on January 31.

Paul R. Capehart, '34, the inauguration of John Christopher Stevens as president of Abilene Christian College on February 21.

Dr. James V. Miller, the inauguration of Thomas Langevin as president of Capital University on March 9.

Dr. Thomas Kerr IV, the inauguration of John Edward Corbally, Jr., as Chancellor of Syracuse University on April 30.

Advanced Degrees Received by Alumni

Miami University: Mary Marvena Blair, '65, Master of Science, December 14, 1969.

Ohio University: Gary Allen, '61, Master of Education, 1967.

University of Akron: Robert Charles Horner, '62, Master of Arts in Education, December 14, 1969; and William D. Thompson, '64, Master of Arts in Education, December 14, 1969.

University of Iowa: Paul Bernard Paulus, '66, Master of Arts in Psychology, January 23, 1970.

University of Kansas: Jack B. Wright, '65, Master's Degree, 1967; Doctor of Philosophy in Drama, October, 1969.

University of Virginia: Edward Drayer, '64, Master of Arts in sociology, summer, 1969.

Marriages

1929 — Florence A. Hans and Kenneth A. Echard, '29, November, 1969, in Fort Lauderdale.

1961 — Muriel Ellen Ramsey, '61, and Edward D. Homer, June 21, 1969.

1962 — Patricia Anne Nabergall and David William Ewing, Jr., '62, February 14, in Middletown.

1963 — Alice Hine and David Moser, '63, October 26, 1968, in Waterford, Michigan.

1965 — Paula Adrian and Jack B. Wright, '65, June, 1969.

Rebecca Ann Elliott and Stephen Paul Ellis, '65, March 20 in Birmingham, Alabama.

Peggy E. Monroe and William A. Otte-will, '65, December 21, 1969, in Hurlburt Field, Florida.

1965-67 — Donna Rose Comery, '67, and Gerald W. Crosby, '65, October, 1969.

1966 — Emily Arlene Smith, '66, and Donald Frederick Curie, August 16, 1969.

Sharon Washburn, '66, and Donald Kruckenberg, November 13, 1969, in Columbus.

1967-69 — Suzanne Cooksey, '69, and Joe Mullenix, '67, June 21, 1969, in Columbus.

1968 — Annalee Goldberg and Michael T. McCloskey, '68, December, 1968, in Akron.

Cathy E. Gribler and David J. Speelman, '68, July 13, 1969, in Dayton.

Pamela J. Holt and David R. Viers, '68, December 27, 1969, in Westerville.

Linda R. Lang, '68, and Michael P. Wold, February 27 in Southfield, Michigan.

Mary Lee Warner, '68, and Timothy B. Llewellyn, July 18, 1969.

1968-69 — Dorothy Goddard, '68, and Richard McKinney, '69, August 24, 1969, in Richwood, Ohio.

Rachael Lynn Stinson, '68, and Keith Turner, '69, June 29, 1969.

1968-71 — Deborah Anne Finlaw, x'71, and Harry Wayne Wolfe, '68, January 31 in Zanesville.

1969 — Amy Doan, '69, and Brent Chivington, '69, December 27, 1969.

Ruth Ellen Humphrey and Clyde Lewis Jones, x'69, June 28, 1969, in Camillus, New York.

Rebecca Ann Kramier, '69, and James Edward Sheridan, Jr., April 4, at Canal Winchester, Ohio.

Carolyn Dee Krumm, '69, and Dennis Dean Heffner, '69, March 21 in Columbus.

Sandra Lewis and Franklin E. Miller, '69, December 20, 1969, in Monterey, California.

Kathy Moody, '69, and Dean Rugh, '69, August 9, 1969, in Dayton.

Rebecca Joanne Phelps, '69, and Richard Louis Kimberly, June 28, 1969, in Westerville.

Beverly Ann Younger, '69, and Marshall Wayne Winner, '69, December, 1969, in Pensacola, Florida.

Births

1954-56 — Mr. and Mrs. William O. Anderson, '56 (Dora Davis, AGE '54), a son, Kristoffer Jon, January 8.

1958-59 — Mr. and Mrs. William Rea, '58 (Vera Andreichuk, '59), a daughter, Andrea Michelle, December 29, 1969. She joins three brothers: Joseph, 6; Chris, 4; and Timothy, 2.

1959 — Mr. and Mrs. David O. Erisman, '59, a son, John David, January 6. They also have a daughter, Jill, 1.

1961 — Mr. and Mrs. David Heitz (Phyllis Jenkins, '61), a daughter, Susan Elizabeth, September 26, 1969. They also have a son, John Thomas, 4.

Mr. and Mrs. John E. Leohner, '61, a son, Bart, January 29. They have four other children: Brett, Gia, Adam, and Michele.

Mr. and Mrs. Gerald Lewis, '61, a daughter, Mary Alice, February 19. She joins three other children: Ray, 15; Randy, 12; and Sheryl, 5.

1962 — Mr. and Mrs. James Nicklaus (Nancy Ann Wurster, '62), a daughter, Lucie Kinnereth, August 9, 1969.

Mr. and Mrs. David Schar, '62 (Sharon Smith, '62), a son, Timothy David, August 15, 1969.

1963 — Mr. and Mrs. David Moser, '63, a daughter, Michele Ann, September 10, 1969.

Mr. and Mrs. Harold Stockman (Norma Smith, '63), a son, John Martin, November 15, 1969.

1964-65 — Mr. and Mrs. M. Joseph Miller, '64 (Joyce Rugh, '65), a son, David Joseph, June 11, 1969.

1966 — Mr. and Mrs. David T. Arth (Linda Rote Arth, '66), a son, Eric David, December 24, 1969.

Mr. and Mrs. Richard Keller (Patricia Price, '66), a son, Matthew Richard, November 30, 1969.

1966-69 — Mr. and Mrs. Jack S. Gruber, '66 (Annmary Miller, '69), a daughter, Stephanie, November 9, 1969.

1967-68 — Mr. and Mrs. Kenneth Carlsen, '67 (Rose Orwick, '68), a daughter, Laura Lynn, September 28, 1969.

Mr. and Mrs. Fred Clamons, a son, Steven Frederick, born May 27, 1969, adopted September 18, 1969. They also have a daughter, Karen, 2.

Deaths

Academy '02 — We have been notified of the death of Josiah Bailey, at the age of 93.

1906 — Burial was in Lakeland, Florida, for Edgar James Lesher who died at the Carpenter Retired Home in Lakeland on February 7. He is survived by a sister and seven children.

1907 — Harry F. Sayre died on December 27, 1969. He was a member of the United Methodist Church and the B.P.O.E. of Columbus. After graduation from Otterbein, he was admitted to the Ohio Bar Association in 1917. He is survived by his wife, Louise, a daughter, a brother, and two grandchildren.

1908 — Estella C. Deller, x'08, died January 29 in Eugene, Oregon. She is survived by three sons: E. Mark, Paul M. and Wendell M. Her husband, William N. Deller, '05, died in 1930.

1916 — We have been notified recently of the death of Mrs. L. L. Goodnow (Estella Potts, x'16) on June 13, 1968.

1917 — Former Jeromesville school superintendent Harold H. Geiger died December 21, 1969, in the Dunlap Memorial Hospital in Orrville. Mr. Geiger had received his master's degree from Ohio State University after graduation from Otterbein. He was a member of the Jeromesville United Methodist Church, the Ashland Masonic Lodge, a past president of the Jeromesville Lions Club, and a veteran of World War I. Surviving are his wife, Mabel, two children, and four grandchildren.

Mrs. Elmo Lingrel (Mary Alta Nelson) died in her home in Middletown on January 26 after an extended illness. She was active and involved in her husband's work as director of athletics at Middletown High School and was a member of the Century Club, the American Association of University Women, and the WSCS of the First United Methodist Church where she was a member. She is survived by her husband and two brothers.

We have been notified of the death of Floyd H. McCombs, x'17, in January. He is survived by four sons.

1918 — The Reverend Dr. Fay M. Bowman, a former pastor of Bancroft United Methodist Church and noted church leader, died February 10 in a Toledo hospital after a two-month illness. Dr. Bowman was active and influential in the growth of the former Evangelical United Brethren Church, served as a trustee of Otterbein from the former Ohio Sandusky Conference, and was awarded the honorary Doctor of Divinity by Otterbein in 1947. He is survived by his wife, Grace A., three children and seven grandchildren.

1921 — Fenton V. Stearns, a former engineer with General Electric, died on January 21. He is survived by his wife (Lois Sellers, '22), two children, and five grandchildren. Mr. and Mrs. Stearns were featured on page 17 of the Autumn issue of TOWERS.

1936 — We have been notified of the death of Harold E. Nichols of Dayton on December 21, 1969. He leaves

Mack A. Grimes

Past-President Dies

Funeral services were held March 7 for Mack A. Grimes, '41, immediate past president of the Otterbein Alumni Association, who died in Columbus after a brief illness.

Vice-president of the Dean and Barry Paint Company, Columbus, Mr. Grimes had previously taught business administration at Otterbein from 1945-47. He had maintained a consistently high interest in and loyalty to his college, and had served on the Development Board in addition to his other services.

Active in church affairs, he was a member of the Church of the Master United Methodist (formerly First EUB), Westerville. Mr. Grimes was a member and officer of various professional groups and was president of the Columbus Downtown Kiwanis Club in 1966.

He is survived by his wife, Myrtle and two daughters, Mrs. Thomas (Connie) Pottenburg, '68, Westerville, and Peggy, an Otterbein junior.

The Mack A. Grimes Memorial has been established as part of the Otterbein College Building Fund. (See "Mack A. Grimes Memorial," page 6.)

a wife, two daughters, and three grandchildren.

1949 — We have learned recently of the death of Mrs. John R. Jacoby (Marion J. Rollins) in September of 1969.

1952 — Mr. Lawrence E. Moyer died in December, 1969. He is survived by his wife.

Honorary Alumnus — Dr. Merle W. Harner, recipient of an honorary alumnus award in 1957, died on December 2, 1969. For 38 years, Dr. Harner was professor of New Testament Interpretation at United Theological Seminary, Dayton. He is survived by his wife, four daughters, and ten grandchildren. Three of his daughters graduated from Otterbein. They are: Mrs. Robert Pendell (Linda Mae Harner, '58), Mrs. Robert L. Studer (Ruth Ellen Harner, '56), and Mrs. Roger S. Dybvig (Elizabeth Harner, '53).

BULLETIN BOARD

SPORTS SCHEDULE: May 2 — Baseball at Central State (2) 1 p.m.; Golf at Ohio Conf. Tourn. (Denison); Tennis at Muskingum 2 p.m. May 4 — Golf with Capital 1 p.m.; Tennis at Ohio Wesleyan 3:30 p.m. May 6 — Baseball at Kenyon 3:30 p.m. May 7 — Tennis with Muskingum 3:30 p.m.

May 9 — Baseball at Mount Union (2) 1 p.m.; Golf at Ohio Conf. Tourn. (Wooster); Tennis with Baldwin-Wallace 1 p.m.; Track at Ohio Wesleyan 1:15 p.m. May 12 — Tennis at Capital 3 p.m.; Track at Capital 3:30 p.m. May 13 — Baseball at Muskingum 3:15 p.m. May 15 — Golf at Akron (Denison, Wittenberg) 1 p.m.; Tennis at Ohio Conf. Tourn. (Denison); Track at Ohio Conf. Tourn. (Ohio Wesleyan).

May 16 — Baseball with Wooster (2) (cancelled if either team in Ohio Conf. playoffs) 1 p.m.; Tennis at Ohio Conf. Tourn. (Denison); Track at Ohio Conf. Tourn. (Ohio Wesleyan). May 19 — Baseball at Capital 3:30 p.m. May 23 — Baseball with Urbana (2) 1 p.m.; Golf at Akron (Ohio Wesleyan) 1 p.m.

MAY DAY IS MAY 16. Traditional coronation ceremonies will be 10:30 a.m. at the Campus Center, with the musical "My Fair Lady" in Cowan Hall at 8:15 p.m.

ALUMNI DAY Those whose class year ends in either 0 or 5 will be having a reunion on June 13, 1970. As usual, there will be a coffee hour preceding the Alumni Luncheon, with picture taking following. Chairmen for the reunions are:

1895, 1900, 1905 The Alumni Office
1910 Lillian R. Shoemaker
1915 Edward H. Dailey
1920 Gilbert and Lillie Water Mills
1925 Abel J. Ruffini
1930 Lucy Hanna Raver, Evelyn Edwards Bale
1935 Stewart A. Cox
1940 Charles and Kathleen O'Brien Messmer
1945 Mary Katherine Lord
1950 John D. Lyter
1955 Dwight C. Kreischer
1960 Mervyn C. Matteson
1965 Perry W. Doran

BACCALAUREATE AND COMMENCEMENT will be Sunday, June 14. Speaker for the morning baccalaureate service will be Dr. Howard Jamieson, Dean of Students at Pittsburgh-Zenia Theological Seminary. Dr. Jamieson's son, Jack, is a graduating senior.

Ambassador to the United States from Sierra Leone, John Akar, 'x50, will address seniors and guests in the afternoon commencement ceremonies. (See "African Ambassador" page 20).

London Tour

(Continued from Page 23)

Other interesting trips include visits to the British Museum for the best in art objects from the Egyptian, Greek and Roman worlds; the National Gallery for the finest collection of painting available outside the Louvre (some say it is better); and several quiet hours in places like Westminster Abbey (particularly the Hall of Kings), Christopher Wren's great St. Paul's Cathedral (no trip to London would be complete without walking to the top of the dome and visiting the whispering gallery), Southwark Cathedral (where Shakespeare worshipped) and Dicken's Old Curiosity Shop.

For trips outside London a couple of days in Stratford-Upon-Avon will provide the quietest, most pleasantly contrasting experience to London one can imagine. The rolling foothills, neatly kept farmhouses, thatched-roof half-timbered houses dating from the fifteenth century, sparkling creeks and hedge enclosed meadows probably look much as it did in Shakespeare's day.

Notes on Cultural Events

A recent highlight of the year's dramatic activities was the appearance of professional guest actor George Grizzard in the Otterbein Theatre production of Shakespeare's "Twelfth Night." Mr. Grizzard and the production as a whole received high acclaim from area critics.

Under student sponsorship, the popular music group The Brooklyn Bridge performed in March.

Last Artist Series event was the appearance April 10 of The Beaux Arts Trio. Other programs in 1970 included "The Barber of Seville" by the Canadian Opera Company, an evening of guitar music by the Los Indios Tabajaros and a cello concert by artist in residence Tsuyoshi Tsutsumi.

The production by the theater and music departments of the hit musical "My Fair Lady" will be May 14-16.
