OTTERBEIN COLLEGE

WESTERVILLE, OHIO

## WILL I WEAR ONE OF THOSE WHEN I GROW UP?

*Will you?*

Of course you want to grow up and be like your big brother—go to college, become an electronics engineer, an architect, a doctor. And we hope you do, because our country is growing and we'll need many more highly trained men and women to keep America strong and free.

Of course you want to go to college!

*But, will you?* Well, that depends.

It depends on you, of course. You've got to be bright, ambitious, hard-working. But it depends on something else, too. For you to go to college, there has to be a college for you to go to—or room for you in the college you select. Because in ten years—maybe less—applications to colleges and universities from bright boys and girls like you are ex-

pected to double. If you and your friends are to receive a really good education, it will mean more classrooms, libraries, up-to-date laboratories—above all, thousands more top-quality professors. And all that will mean money—a great deal of money.

If grown-ups will realize the problem and do something about it, your chances of going to college will improve. Let's hope they start now to give you the gift of knowledge—by helping to support the college of your choice.

If they want to know more about what the college crisis means to you—and to them—tell them to write for a free booklet to Higher Education, Box 36, Times Square Station, New York 36, N. Y.

Good luck, son!

## the EDITOR'S corner

As we are reading page proofs for this issue of TOWERS, word is received of the sudden death of Dr. Vance E. Cribbs, '20, Chairman of the Otterbein College Board of Trustees.

Mr. Cribbs was truly a loyal, devoted alumnus of Otterbein College. Since 1937, he was elected five times for terms of five years each as an alumni trustee of the college. Since 1950, he has been Chairman of the Board. He gave unselfishly of his time, talents and material possessions on behalf of his alma mater.

Otterbein College has lost a dedicated leader. Mr. Cribbs was an enthusiastic supporter of the Otterbein College Alumni Association. His wholesome advice, help, cooperation and genuine friendship will be missed by this editor and executive secretary of the alumni association.

# A STATEMENT OF CONVICTION

## about Corporate Aid to Higher Education

On December 1 and 2, 1961, representatives of 44 major American business corporations gathered in New York to discuss the problems and opportunities involved in voluntary corporate support of higher education.

In the conference addresses and discussions the following facts were agreed upon.

1. Our country must have an adequate system of higher education.
2. Our diversified, decentralized system of higher education has served our country well and should be preserved.
3. Support of higher education from voluntary sources will materially help to nourish educational freedom, strength, and independence.
4. The cost of higher education today is over four and a half billion dollars a year and will at least double in this decade.
5. Voluntary support from all sources, now nearly one billion dollars a year, must double in this decade.
6. Business and industry, now employing nearly half of all college alumni, should assume a fair share of the cost of higher education.
7. Business benefits from research carried on in university laboratories.

8. Higher education has helped to raise the standard of living in America and to increase the demand for industry's products.
9. Corporate support of higher education is now more than \$150,000,000 a year. Such support should be increased to at least \$500,000,000 a year during this decade.

From the discussions came the unanimous voice vote on the "STATEMENT OF CONVICTIONS" which reads as follows:

"In view of these considerations, and in the light of the present urgency, we believe that now is the time for a broader and deeper participation by the business community in the support of higher education.

"We therefore call upon our colleagues in American business and industry to help spread the base of voluntary support of higher education as a necessary supplement to the extensive support which business now provides to education through taxes. We urge responsible management to think through its opportunity and its obligation to adopt meaningful programs of voluntary corporate support to those colleges and universities whose service and quality they wish to encourage and nurture. We will do our part."

## about Church Aid to Higher Education

During the present quadrennium, the E.U.B. Church gives \$50,000 annually to each of its six senior colleges.

Denominational leaders too have a conviction. They are convinced that the Church's support of its colleges is inadequate. They will, therefore, recommend to the General Conference, which meets in Grand Rapids next fall, that the Church sub-

stantially increase its allocation to its colleges during the quadrennium 1963-67. The hope is that the allocation may be doubled.

Industry has said "We will do our part." Can the Church, which brought into being its colleges and depends upon them for ministerial and lay leadership, afford to do less? If industry will strive to double its support, surely the Church will do as much.

## about Alumni Aid to Higher Education

With industry pledging "We will do our part," and the Church committed to increased financial aid, will alumni fail to respond more generously and in larger numbers?

The 1962 alumni fund campaign is in full swing. Personal solicitation drives have been completed in six cities as indicated below. In these six cities 1,361 alumni have contributed \$30,607.

All other alumni are now invited and urged to send their gifts by mail. A postage-paid envelope was included with the Honor Roll which you received

recently. Fill out this envelope and return it without delay. You can make payment any time in 1962.

Otterbein is indebted greatly to the hundreds of loyal alumni who gave of their time in making personal calls for alumni gifts. Special votes of thanks and appreciation are due the chairmen of the solicitation efforts. They are as follows: Akron—George Simmons, '47; Canton—Orville Briner, '14; Columbus—Wilbur Morrison, '34; Westerville—Francis Bailey, '43; Toledo—Donald Williams, '41; Bowling Green—Eugene Davis, '50; Cincinnati—Philip Charles, '29;
