NEW YEAR'S ISSUE, 1950

1900

1950

The only person to serve Otterbein in an official way for the past fifty years is Edgar L. Weinland, and judging by his mental alertness and physical stamina, he may go on for another half century.

He was elected to the Prudential Committee (forerunner of Executive Committee) in 1898 and at the same time was chairman of the Conservatory Board of Control. In 1900 he became a trustee and has been on the board ever since, serving as its secretary since 1911.

No faculty members who were teaching in 1900 are teaching now. But, did you know the same Mr. Weinland was instructor of cornet at Otterbein in 1900?

Edgar L. Weinland, '91

THE HALF-WAY MARK

Since we have reached the half-way mark in the twentieth century, it is in order for us to take a backward look and see what has happened to Otterbein since the century began. Perhaps there is no better way to do this than to compare facts and figures of 1950 with those of 1900.

Significant Developments

The most significant developments in the half century have been in plant value, endowment and accreditation. All buildings on the campus except the Administration Building, Saum Hall and the Association Building have been erected since 1900.

The endowment has been multiplied sixteen times and the total assets nearly twenty times.

At the beginning of the century Otterbein was approved only by the Ohio College Association; now all major accrediting bodies, state, regional, and national, include Otterbein on their lists.

Next Half-Century Needs

Our most pressing major needs are (1) a new auditorium which will be constructed this year, (2) a new library, for which there are not sufficient funds, and (3) additional endowment. Let all who love Otterbein, and who desire to see her grow in prestige and usefulness, do everything in their power to help achieve these objectives.

MEMBER, AMERICAN ALUMNI COUNCIL.

Thank You Good Friends

This issue of TOWERS is dedicated to the 1071 alumni and friends who represent Otterbein's Living Endowment. In the year which closed on December 31, these friends expressed their appreciation of the college in a tangible way to the extent of \$14,907. This is the equivalent of an endowment of \$425,000 at the current rate of interest.

Otterbein will ever be indebted to these contributors for without their help, the college would not have been able to operate without a deficit.

Furthermore, sixty students are indebted to these good friends because \$7,500 of the amount contributed went for scholarship help. Many of those students would have had to withdraw from college if that help had not been made available.

Whether the gift was \$1.00 or \$1,000.00, each contributor can take pride in the fact that he made an investment in PREFERRED STOCK—in human life, and that his investment will yield higher dividends than on any stock on the market.

The majority who contributed in 1949 had previously given to the 1948 fund. And, each will be invited to share in the 1950 fund and each year thereafter. The college makes no apologies in asking for an annual contribution. On the basis of need the Community Chest and the Red Cross make their annual appeal and the American public responds.

Private, church-related colleges likewise have pressing needs which must be met if these colleges are to live and continue as the bulwarks of democracy.

Last year alumni of 173 colleges and universities contributed a total of \$11,137,158.00 to their institutions. Thus, Otterbein is not alone in asking its alumni for support. Considering the fact that this is only the second year of this program, (Yale began in 1890) we have every reason to be pleased with our record. And, to you who made the record possible, again we say, THANK YOU GOOD FRIENDS.

J. GORDON HOWARD, '22

Dear Friends of Otterbein:

One year ago the Otterbein Long Range Planning Committee was organized with Dr. E. L. Weinland as chairman. (See Otterbein Towers for March, 1948.) This committee surveyed a number of questions and decided to give first attention to the problem of future college enrollment and related matters such as size of faculty, extent of curriculum, size of departments, budgets, student admissions and student housing. A sub-committee with Dr. Harold L. Boda, chairman, was appointed to explore these fields of study. The sub-committee has worked hard during the year. Dr. Earl Anderson, head of the department of higher education, the College of Education, Ohio State University, was retained as special counsel, and one of his graduate students is making Otterbein's enrollment problems the subject of a doctor's thesis. Other members of the sub-committee are Dr. Paul B. Anderson, academic dean; Mr. Floyd J. Vance, registrar; Prof. Gilbert E. Mills, secretary of the faculty; Mr. George Hogue, treasurer; and the president of the college. Other administrative officers were drawn in from time to time as special questions were considered.

Many significant facts concerning the future trends at Otterbein have emerged and will be publicized in due time after the main committee has studied them. One fact, however, stood out so prominently and is of such immediate importance that it was sent to the Executive Committee of the college without waiting for clearance through the entire Long Range Planning Committee. This one vital fact is: to break even financially, Otterbein must maintain a student body of more than 900 or else drop far down to around 500. Any

THE PRESIDENT'S PAGE

intervening point between 900 and 500 places the college at a great disadvantage financially.

This is highly significant. No one desires Otterbein to drop to 500 students. This would class the college as very small nowadays when none of Ohio's accredited co-educational schools has as few as 500 students. Furthermore, such drastic reduction would impoverish the curriculum and cripple many phases of campus life.

When confronted with this fact on December 3rd, the Executive Committee acted vigorously to do all that is possible to keep Otterbein near the 1000 mark. An enlarged program of student admissions was authorized including an additional full-time field man to serve as assistant director of admissions and several part-time assistants in various population centers to help discover worthy prospective students. This enlarged program is to be conducted while maintaining the usual admission standards as to good character, ability to do college work, and willingness to cooperate with the Otterbein campus program.

At this point alumni can help mightily. *The first step in any expanded program of admissions is to build a good list of qualified student prospects. Let every alumnus and alumna consider himself or herself an active student enlistment officer.* Search your community for young people who would make good Otterbein students. Send this information to your college president or to Mr. Maurice E. Gribler, Director of Admissions. Perhaps the young people will be in your own home, or in your neighbor's home, or the sons and daughters of men and women you know in business, or in your church, or in the clubs and societies to which you belong.

Talk Otterbein to young people of your acquaintance, radiate Otterbein enthusiasm, and above all send names to the college.

Pastors of Evangelical United Brethren Churches are also depended upon for good prospects. Letters have gone out and many pastors have responded promptly.

Our next year's Freshman class should number 325. We are confident there are 325 young people in the United States who would profit by an Otterbein education. We must locate those 325 young people, and do it as soon as possible.

Elsewhere in this issue of "TOWERS" is a coupon for you to use in listing some young people for this year's prospect list. This is important! Make it your problem, please, to help build the student personnel of your alma mater.

Most Cordially,

J. Gordon Howard

P. S. Remember to use the coupon for prospective students.

WESTERN ALUMNI HOLD MEETINGS

For many years alumni in the west have wanted a representative from the college to visit with them and bring news from "the quiet, peaceful village" and "from the school they love so true." No one had officially visited these loyal friends for years and, in fact, there never had been an effort to hold meetings in several of the cities visited.

The lucky person to make the visit was your TOWERS editor and I will testify that alumni all along the line went "all out" to make my trip an enjoyable and profitable one.

Meetings were held in Kansas City, Los Angeles, Oakland and Denver.

In Kansas City the meeting was arranged by L. M. Curts, '13, and Mrs. Curts (Ethel Kephart, '12). The Sunday afternoon meeting was held in the First E. U. B. Church after which we went to a local restaurant for dinner.

The Los Angeles area meeting was held at the Hillcrest Restaurant in Pasadena. J. Warren Ayer, '07, and Mrs. Ayer made this the best meeting of any ever held in southern California. Forty six were present, not counting the ten-day old son of Bob and Elaine Holmes.

In the San Francisco area the meeting was arranged by Clark O. Bender, x'13, and Mrs. Louis Fackler (Carolyn Sue Ford, '49). The dinner meeting was held in the Oakland E. U. B. Church.

The Denver meeting was sponsored by and held in the new home of Mr. and Mrs. Donald King, x'44 (Mary Jane Kerns, '45).

The program followed the same general pattern in each city. It consisted of a report from the campus visitor, an informal question and answer period, plenty of reminiscing, and movies and slides depicting college life today.

Enroute I stopped off at Tuscon, Arizona, where I was the guest of Mr. and Mrs. Arthur Pack, owners and operators of Ghost Ranch Lodge, and parents of Vernon Pack, '50. Anyone traveling in that area should plan to stop with the Packs who operate one of the finest lodges in Tuscon and the southwest.

With J. Warren Ayer as host and chauffeur, we visited the Kiwanis Club of Monrovia where we got the name of Otterbein before the group; we also visited Pamona College, the University of Redlands, the famous Mission Inn at Riverside, and the sanitorium operated by our own Dr. F. M. Pottenger.

Through the courtesy of a long time friend, John McCoy (not an alumnus) I got to see the Little Rose Bowl game where the junior college championship was at stake.

My visit to Hollywood arranged by Mr. and Mrs. Bob Holmes, '35, (Elaine Ashcraft) and Mr.

and Mrs. Hugh Sanders (Dorothy Allsup, '38) was a most enjoyable one. Dorothy's actor husband took me over to Warner Brothers where I saw two pictures being filmed, met the directors, and saw in action Ginger Rogers, Joan Crawford, Ronald Reagan and lesser stars.

After dinner at the Brown Derby we went to C.B.S. Studios where Dorothy used her influence, having formerly been program director at WHIO in Dayton, and we were permitted back stage where we saw the radio program "My Friend Erma."

Next we listened to a rehearsal of Bob Holmes' 125 voice Hollywood High School chorus after which he drove us all over Hollywood and Beverly Hills pointing out places of interest.

In Oakland and San Francisco the Facklers were my hosts and Mrs. Fackler and her mother showed me some of the sights including the Golden Gate Bridge, the beautiful parks, fisherman's wharf, the famous Chinatown, the University of California and many others.

Time did not permit me to see much of Denver where I am sure the Chamber of Commerce must pay everybody to boast of their perfect weather and proclaim the unusual things which the city and state have to offer.

This account would not be complete if I did not say something about the California weather. Mother Nature went all-out to show me that California could provide everything any other state could boast. So, we had sunshine, rain, smog, storm, snow and, of all things, an earthquake. To prove that I am not just kidding, the following headline appeared in the Monrovia paper December 10—SOUTHLAND HIT BY WIND, SNOW, QUAKE. Despite the elements I had a wonderful time.

Alumni everywhere showed genuine interest in their alma mater and were pleased with the opportunity for fellowship which the meetings provided. In all, approximately 100 alumni attended these meetings many of whom I had not had the pleasure of meeting. I returned to the campus with a wider acquaintance and glad to be the director of alumni activities of the great group of people who bear the stamp of Otterbein.

Cincinnati Club Meeting

The Cincinnati Alumni Club held a picnic on July 17. Because of rain, the meeting was held in the basement of Dr. Charles Keller's church in College Hill. The size of the crowd was definitely affected because of the uncertainty of the weather; however, those in attendance had an enjoyable afternoon.

DOES AN A.B. MEAN "ABOLISH BABIES?"

Are Otterbein graduates a vanishing race?

It seems so, for according to the Population Reference Bureau of Washington, D. C. college men and women are not having enough descendants to replace themselves.

Last winter the Otterbein Alumni Office co-operated with the Bureau in the conduct of a survey to determine birth rates among the members of our two classes, 1924 and 1939. The findings have been disheartening.

In this atomic age it becomes increasingly apparent that intelligent, trained people are needed to steer our country toward peace and strengthen our democracy. Where could these leaders better be found than among the descendants of Otterbein graduates? Intelligent heredity and careful upbringing cannot be too highly valued.

One hundred and seventy-six American Colleges participated last year in the Bureau's fourth annual study of the birth rate among college graduates. The 25th and 10th reunion classes were chosen, the former because their families were almost complete and the latter to learn the more recent trend.

The 40 men of Otterbein's class of 1924 will leave enough sons to replace them, but the 43 women will leave only 27 daughters. It is estimated that each graduate must have approximately 2.1 children to replace himself. Otterbein alumni of 1924 are to be congratulated for their comparatively high average of 2.45 children each, but Otterbein women averaged only 1.30 each. These returns show that the failure of replacement is 38% for the women. Thus, it would appear that the good hereditary potentialities and the superior parental training of some 16 graduates of this class of Otterbein College have been lost to the nation.

Even the married alumnae failed to replace themselves. All of the reporting men had married, but only 71% of the women, the married men averaging 2.45 children and the married women 1.84 children. There were 2.63 children per 1924 father and 2.06 per mother, but these failed to compensate for the unmarried and childless members of the class.

The average throughout the nation for the class of 1924 is 1.77 children per alumnus and 1.26 per alumna. These indicate that the children of all the 80,000 graduates in the country of the class of 1924 will number 19,500 less than their parents. If the same proportions apply to the larger classes of 1949, the loss from this year's graduates alone will be 66,000.

The survey indicates that the largest families are to be found among graduates of coeducational and western colleges.

Fortunately, not all those with potential ability go to college and there will be some replacement

from these. Also, the ten-year period of the 1939 class has a good start at self-perpetuation. The survey shows that the Otterbein 1939 alumni and alumnae average 1.17 and 0.91 children, respectively. This indicates that in their remaining productive years they can more than reproduce themselves if they decide to do so. 83% of the 1939 men are married with 1.40 children apiece and 79% of the 1939 women with 1.16 children.

With so few of the college groups replacing themselves, the outlook for America's future generations is depressing. Our nation is faced with the problem of shrinking families among people of accomplishment. The most educated parts of the population are having fewer children, and the task of raising families is being left to the less educated citizens. The future generation is coming chiefly from those who have neither the heredity nor the environment that could be given to their children by college graduates. If it continues, this impairment of the quality of our future leaders may well lead to an intellectual decline among future generations.

The low birth rates consistently found among college graduates in this country seem to stem principally from economic causes combined with the ambitions and careful planning acquired during the college education. The graduate hesitates to produce a family until he can be sure of providing the proper surroundings and education. His standards are high. For the good of the nation they are perhaps too high. Why can't graduates afford families? If they can't, who can?

On the hopeful side, there is more and more evidence that the problem of a low birth rate among educated people is being recognized. It is to be hoped that the situation will be improved. With the number of college graduates increasing yearly, however, if the small family pattern is adopted by them, our country's good citizen material will be further reduced in the years to come. The prospect is not pleasant. Even more important than the conservation of the country's natural resources is the preservation of the quality of the American people.

CLASS REUNIONS

The Alumni Council in session on September 24, took an important action with reference to class reunions. It was felt that reunions should be farther apart and when held should be more significant.

In the future, therefore, reunions will be on a ten-year basis; however, giving special emphasis to the twenty-fifth and fiftieth anniversaries.

This is not meant to throttle the desires of classes to have reunions at other times if they desire, but rather to encourage bigger and better reunions at ten-year intervals.

It was also decided to invite to the campus the members of the classes which graduated two years before and two years following each reunion class. This would mean more alumni of the same student generations on the campus on alumni days.

The classes to hold reunions on June 3, 1950, will be 1890 — 1900 — 1910 — 1920 — 1925 (Twenty-fifth Anniversary) 1930 and 1940.

The alumni office will be glad to assist any class at anytime in making arrangements for a reunion. The pages of TOWERS are available for announcements of reunions. A good idea is for the class president to appoint a committee from the members of his class who live in Westerville. Your alumni office will assist such a committee in everyway possible.

Akron Club Meeting

On September 11, the Summit County Alumni Association held its annual fall meeting at the summer lodge of Chester G. Wise, '05. This was undoubtedly one of the finest meetings ever held by the club. Mr. Wise furnished 80 pounds of Lake Erie Blue Pike and the services of two of the best fish-friers in the area. The fish were most excellent accompanied with cole slaw, roasting ears, potato chips, apple pie with aged Swiss cheese, coffee and fruit punch. There were over 70 persons in attendance. After the dinner a business meeting was held and the following officers elected:

President R. L. Roose, '18
 Vice-President . . . Margaret Priest Miller, '36
 Secy-Treas. Ruth Hayes McKnight, '27

A tribute was paid to Clifford Wertz, '28, who so recently and unexpectedly passed to his reward.

It was voted that the alumni group would sponsor a trip to the Akron area by the a capella choir from the college.

S. Clark Lord, Reporter

The children born to Otterbein's class of 1924 average 2.45 per alumnus and 1.30 per alumna. The ratios have been used to predict the number of Otterbein's descendants in the two figures. Also shown are the descendants of men and women of 45 to 49 years who were unable to complete more than 4 years of education. The 1940 census found that their children number 4.26 each.

Otterbein is participating in the national survey this year using the 1925 and 1940 classes. Results will be published later.

ANNUAL REPORT OF THE DEVELOPMENT FUND

On this and the following four pages you will find a report of the 1949 Development Fund. Take time to study it carefully for it represents the interest of over a thousand alumni and ex-students in their alma mater and their desire to help her perform a better service.

The fund, now in its second year, is of inestimable value to Otterbein. The gifts from alumni and ex-students alone are equivalent to the income on an endowment of over \$400,000. The total amount of the gifts (\$27,007.33) is equal to one half of the yearly income Otterbein receives from her endowment of \$1,300,000. Thus, it is seen how substantial becomes the total when many people give and, if many will give a little, no one will have to give much.

Some Observations

STRENGTH IN NUMBERS

It will be noted that the number of contributors increased from 986 in 1948 to 1,071 or 8.7% in 1949. This is most encouraging. The discouraging fact is that 270 who contributed in 1948 are missing from the 1949 honor roll. On the bright side is the 355 new alumni and ex-students who contributed to the fund this year for the first time. Let everyone who gave in '49 stay on the honor roll. How about the 270 who are missing this year joining again in 1950!

STILL BELOW NATIONAL AVERAGE

Although our number of contributors increased, the total amount contributed was \$2,000 less than in 1948 and our average gift dropped from \$17.13 to \$13.91. The national average for 1948 was \$28.09. No national figures are available for 1949 so we must compare our 1949 with the 1948 national figures.

We are very close to the national average in the percentage contributing, however, we should strive to be far above average. Otterbein must never be content to be mediocre or average in any area. Let us strive to overtake Vassar (64%), Dartmouth (63%), Princeton (45%), Yale (41%).

To be sure the schools mentioned above are old and well established, but that gives their alumni no priority on loyalty. Otterbein grads must show that they are as loyal as alumni of any school in the world.

Otterbein - Capital Sports Relations

There are many long standing sports rivalries among colleges, but it is doubtful if any exist where the competition is more keen and feelings more tense than between the students of Otterbein and Capital.

How to keep the competition on this level and at the same time avoid student clashes, destruction of property, and personal injuries has been a problem for the administrative and student leaders of the two schools.

After many conferences a plan was agreed upon and is now in operation. The student leaders designed a "peace trophy" acceptable to both schools and worked out a point system for the retention of the trophy.

Since Alum Creek passes by both schools, the trophy consists of two canoe paddles supported by a plaque on which is drawn a picture of two hands in the customary handclasp.

The college which makes the most points in athletic competition in a particular year will be allowed to have possession of the trophy for the following year. The point system is as follows: four points each for football, basketball and baseball and two points each for track and tennis.

Good Basketball Season Expected

The basketball team is off to a good start with two victories and one defeat in the records prior to the Christmas vacation.

In the season's opener against Kenyon, the Cards won by the score of 82-61. Gene Clark, 6'4" center for Otterbein, scored 42 points to take top honors for the evening and set a new Ohio Conference scoring record.

The second game, played at the coliseum in Columbus, was won by Ohio Wesleyan 57-52. This was the first of three double-headers to be played in the coliseum this year. In the first double bill, Otterbein played Wesleyan and Capital played Denison.

Wilmington was the third opponent and second victim of the Cards, the score being 73-48.

The boys are out to better their record of last year when they won eleven games and lost six.

Queen Ann Carlson

We present in this issue, Ann Carlson, the fall homecoming queen, because she had not been selected when the last TOWERS was printed. We are especially pleased to present her because her father and mother, Dr. and Mrs. Benjamin Carlson, '22 (Edna Dellinger, '22) and sister Mary C. (Mrs. John Wells, '47) are graduates of Otterbein. A younger sister, Alice, is a freshman at Otterbein. Ann is a member of the Owls Sorority.

The queen's attendants were Jane Combs, (Arbutus), Maid of Honor; and Betty Lee Beyer, (Greenwich), and Lois Smith, (Onyx).

WINTER HOMECOMING

The date set for Winter Homecoming is February 11 and the basketball opponent will be a traditional rival, Heidelberg. The boys from Tiffin always provide good competition and this year will be no exception. No unusual program is planned for the Winter Homecoming occasions but alumni who return always have an enjoyable visit. The Welcome mat will be out and we hope to see many of you.

FOOTBALL IN REVIEW

The 1949 football team established the best record since 1946, the year that the Cardinals were the undisputed champions of the Ohio Conference.

The record of the past season is as follows:

Otterbein.....13	Ohio Wesleyan ...20
Otterbein.....20	Detroit Tech 6
Otterbein..... 0	Denison19
Otterbein.....15	Heidelberg49
Otterbein.....47	Ashland 7
Otterbein.....46	Oberlin26
Otterbein.....44	Capital20
Otterbein.....26	Hiram 7

It should be pointed out that the three defeats were administered by the top teams in the Ohio Conference.

Head Coach George Novotny and his assistant, Bob Brugge, deserve our appreciation and thanks for their efforts in developing a hard-hitting, fast-charging, alert football team.

The boy with the best offensive record is featured below. Kenny's name was in the headlines many times during the season for he was the leading scorer in the Ohio Conference and reported to be the third highest in the nation. On two successive Saturdays he scored five touchdowns and ended the season with a record of 114 points or 19 touchdowns in only eight games. Many of his competitors played in nine games instead of eight. Unfortunately for Otterbein, Kenny is a senior and his position will be difficult to fill in 1950.

The freshman squad was made up of some very promising boys who should be able to step into the places made vacant by graduation.

Graduate Study

Did you graduate from Otterbein since 1926? Have you carried on any graduate study since that time? Did you send in a card two years ago when the graduate study committee made its study?

If you did *not* return a card, or you are not sure, and if you *have* done graduate study since 1926, be sure to fill out the form to the right and return to the alumni office. This is very important, so do not delay.

Student Prospects

The next few years will be exceedingly difficult for colleges desiring to recruit the better students. Enrollments are declining, educational plants have been expanded and the pressure for student enlistments is terrific.

Here is where you come in! You can help your alma mater and in this instance all it will cost you is a postage stamp. You have in your acquaintance the young people whom we would like to have as students at Otterbein. We may never learn of them unless you send their names to the Admissions office. Please do that much.

Now, if you really want to go "all-out" in helping, here are two suggestions. (1) Offer to bring them to the campus for a visit. (2) Encourage them to enroll at Otterbein without delay.

Towers News

From all reports the Flashes from the Classes are read first when the TOWERS arrive. We would like to print more of this news if we could get it. You can help and, again, all it will cost is a postage stamp. Send news about yourself and about other Otterbein people. Your friends will enjoy it.

Flashes FROM THE CLASSES

1895—Mrs. Dacia Custer Shoemaker, '95, curator of the Hanby House in Westerville, attended the annual meeting of the Midwest Museum Association held in Dayton, Ohio, October 13 to 16. Directors of art, science and historic house museums from seven different states were present.

1905 and 1906—"Looking at Japan" was the theme for a series of four weekly lectures and discussions given in the First E. U. B. Church in Westerville during October and November. The meetings were led by Dr. and Mrs. B. F. Shively, '05, (Grace Ressler, '06) and Mrs. Warren Hayes, (Ila Bale, '12) and were highlighted by a display of priceless art treasures which the Shivelys and Mrs. Bale collected during many years as missionaries in Japan.

1916—Mr. and Mrs. F. J. Vance, '16, attended the annual convention of the Association of Ohio College Registrars October 19 through 21 at Hamilton. Mr. Vance, who has been registrar at Otterbein since 1925, was president of the association for the year 1948-49.

1919—Dr. A. C. Siddall was initiated a Fellow of the American College of Surgeons at the October meeting of the Clinical Congress of the American College of Surgeons held in Chicago.

1926—Carroll C. Widdoes, has been named athletic director and director of

physical education at Ohio University where he served last year as head football coach. He will continue to coach football.

1927 and 1929—In a close race for two seats on the Westerville City Council, Robert Snively, '27, and Paul Wurm, ex'29, were elected from a field of seven candidates. Bob is a teacher at North High School in Columbus and Paul is a local building contractor.

1929—Under the direction of R. Oscar Clymer, '29, assistant professor of music at the University of Missouri, the Men's Glee Club and choral ensembles had a very successful season last year, climaxed by the day when Vladimir Golschmann, after hearing them rehearse, invited them to sing with the St. Louis Symphony Orchestra.

1930—Emerson Seitz, '30, has recently joined his brother in the Seitz Insurance Agency in Lima, Ohio, as assistant manager.

1930—Dr. W. Kenneth Bunce, '30, formerly dean of Otterbein College and now Chief of the Bureau of Religious and Cultural Resources in Japan under SCAP, attended the conference of UNESCO in Paris in October as General McArthur's special representative and unofficial observer for Japan.

1932—At the September meeting of the Westerville Garden Club, Mrs.

Dean Conklin (Margaret Smith, '32) was elected president.

1934—Paul Schott is vice president of the Eastern Ohio District Board of Approved Basketball Officials. Members on the roster include Virgil Hinton, '34; Wayne Hinton, '40; William Holxworth, '42; and Paul Roby, '27.

1937—The Loudonville high school paper, "The Redbird," has been cited with an All-American honor rating by the National Scholastic Press Association, the highest honor bestowed by that organization. Mrs. T. H. Robinson (Marjorie McEntire, '37) is the faculty adviser.

1937—Among Miamisburg, Ohio, city officials elected in November, was Louis H. Rutter, '37.

1937—Donald R. Martin, Ph. D., '37, is co-author of a newly published book, *Boron Trifluoride and its Derivatives*. The subject treated is a material used industrially in petroleum, plastics and by organic chemists. Don is Assistant Professor of Chemistry at the University of Illinois.

1939—A picture which recently appeared in an Albuquerque newspaper shows Canon Kenneth K. Shook, '39, and his family at a reception in their honor at St. John's Episcopal Cathedral. Mr. and Mrs. Shook (Mildred Welsh Shook, ex'39) with their family of two boys and one girl, moved to (Continued on page 20)

W. Rodney Huber, '16

W. Rodney Huber in New Position

W. Rodney Huber, '36, is the new general manager of retail marketing of Gulf Oil Corporation.

In his new post, created as part of the firm's reorganized domestic sales program, Mr. Huber will be responsible for sale of all Gulf products through retail markets on the farm, airport, service station, home heating and marine fields.

After serving in the army in World War I, he became assistant secretary of the Greater Dayton Association. For the following 11 years he was employed by Delco-Light Co., Dayton, becoming general sales manager. He later became sales promotion manager for the Buick, Oldsmobile, and Pontiac Divisions of General Motors Corp., in Detroit.

Mr. Huber joined Gulf Oil in 1935. He has served that firm until the present as manager of advertising and sales promotion. He is a resident of Mt. Lebanon, a suburb of Pittsburgh, Pa., is married, and has two daughters.

IN THIS ISSUE

Harvey S. Gruver, '02

J. Warren Ayer '07

Francis M. Pottenger, '92

On the front page of the September 19 issue of the *Daily Evening Item* of Lynn, Massachusetts, Dr. Harvey S. Gruver was awarded the Bouquet of the Week. The following are excerpts from the article about Dr. Gruver.

"The Item awarded its 'Bouquet of the Week' to a man who gave 22 years of unselfish, untiring and efficient service to the Lynn public school system and who is now enjoying a well-earned rest in retirement.

"He is Harvey S. Gruver, 'Superintendent Emeritus' of the School Department, an honorary title bestowed upon him by the School Committee when he retired in June, 1945, after serving as superintendent since 1923.

"Few educators are better known in Massachusetts than Mr. Gruver. His tenure in Lynn saw a vast expression of the physical facilities of the department, a broadening and modernization of its curricula and a step-up in the development of high standards in the selection of teaching personnel."

The article continues with an elaboration on the many civic and philanthropic organizations which claimed his interest and service.

Mrs. Gruver was the former Mary Kemp, '00.

J. Warren Ayer is another Otterbein grad who has had a distinguished career as a college professor, high school teacher, principal and superintendent.

Prior to his retirement in 1943, he had served for 21 years as Superintendent of Schools in California, first at Los Gatos, then at Monrovia, and last at Eureka.

His teaching record is equally impressive. His experience included Winona Boys Academy, Lebanon University (Ohio), Southwestern State Teachers College (Pennsylvania), and Cincinnati and Phoenix high schools. During the summer term of 1911 he taught at Otterbein.

Mr. Ayer received his M.A. degree at Stanford in 1923 and did considerable work toward his doctorate in the same university.

As a student at Otterbein he participated in many activities including literary society (Philophronean), YMCA, Debate Association, and Varsity "O" Association.

He was a member of the football teams of 1905-06 and served as student coach of track. He held the 880 yard and mile records from 1906 until they were broken in 1933.

Mr. Ayer is president of the Los Angeles area alumni club.

Dr. Francis M. Pottenger, '92, has been for years one of the world's leading authorities on tuberculosis. His sanatorium at Monrovia, California, founded in 1903, is one of the best known in the West.

On September 26 he observed his 80th birthday and on that day a special birthday party and homecoming for former patients was arranged in his honor. The party was held in the beautiful sanatorium gardens and was attended by 575 guests.

Dr. F. M. Pottenger, Jr., '25, was master of ceremonies and gave a talk on his father's life and career.

Dr. Pottenger attended the Medical College of Ohio, the Cincinnati College of Medicine and Surgery and went abroad four times for study. He was professor of clinical medicine and diseases of the chest at the University of Southern California in 1903-04; 1905-09; 1914-20; 1931-42.

Space does not permit an elaboration of the many offices he has held in medical organizations and the honors bestowed upon him. He is the author of over 350 papers on medical subjects. The interested reader is referred to WHO'S WHO for complete details.
