CHALLENGE!

CAN WE MEET THE NEW COMPETITION?

"In the forty years that have elapsed since its Revolution, Russia has devoted a far larger portion of its gross national product to education than have we. As a result of this intense commitment to education on the part of the Soviets, we as a nation are presented for the first time with a challenge to our leadership in all of the values that we cherish.

"If we rightly interpret the significance of this event, our first reaction of dismay and consternation will herald a rededication of ourselves to the best that we have learned from our first century of educational effort. We have a longer and a stronger tradition, greater resources in depth and diversity, a freedom of enterprise, and a talent for innovation which can all combine to more than redress the present balance and carry us to new heights of educational accomplishment if we display the requisite wisdom and determination."

GAYLORD P. HARNWELL
President, University of Pennsylvania

WE CAN AND MUST MATCH THEIR ZEAL—because our strength as a nation will depend on how we treasure and build our educational assets. Yet the hard facts are these:

1. Low salaries are not only driving gifted college teachers into other fields but are steadily reducing the number of qualified people who choose college teaching as a career.
2. Many college classrooms are already overcrowded yet in less than ten years entrance applications will double in number.

You can help in this crisis, one of the gravest in our history. Support the college or university of your choice—now!

For further details of what this can mean to you and your children write:

There are 105 students attending Otterbein College during the present school year whose parents or grandparents attended Otterbein. These second and third generation students make up twelve per cent of the 900 Otterbein student body.

Among the graduating classes, fifteen students have parents who were graduated in the class of 1934. Fourteen students have parents who were graduated in 1929, and ten have parents from the class of 1936.

Each year approximately ten per cent of the students follow their parents' precedent and attend Otterbein College.

PROGRESS ON THE TEN-YEAR PLAN

The Ten-Year plan adopted by the board of trustees last June is proceeding according to schedule.

Enrollment on Schedule

According to the forecasted student enrollment at Otterbein from 1960-70, a total of 882 students was anticipated for the fall of 1960. The actual number of full time students enrolled as of December 6 was 899 or 17 above the forecast.

The actual figures are as follows:

	Forecasted Enrollment	Actual Enrollment
Freshmen		
Men	162	159
Women	144	139
Sophomores		
Men	116	136
Women	105	92
Juniors		
Men	120	110
Women	76	78
Seniors		
Men	88	107
Women	71	78
TOTAL	882	899

According to the forecast, the total enrollment for 1961-62 will be limited to 988.

Finances on Schedule

The projected income for 1959-60 under the Ten-Year Plan was \$1,172,600; the actual income was \$51,866 more than anticipated.

The projected expenditures under the Plan were \$1,168,000; the actual expenditures were \$1,207,756, or an increase of \$39,756. The operating surplus last year was \$16,710.

Buildings on Schedule

The one building project scheduled for 1960 — a new dormitory for men — was completed on September 1 and dedicated on October 22. It houses eighty men and is occupied by freshmen. All freshman men are now housed in new, ranch-type, fireproof dormitories.

Two of the four men's dormitory units are now in use and a third will be completed by next September 1. It will also house eighty men and it will be required to accommodate the increase in enrollment projected for 1961-62.

Since 1959, Freshman Men's Dormitories have been erected which now house 160 men on the north campus of Otterbein.

Plans Being Drawn For New Buildings

The building objectives for 1961, as indicated on the preceding page, call for the construction of four buildings. Two of these buildings will be completed during the year and the other two will likely be started sometime before the end of 1961.

The Women's Dormitory

Early in November the building contract for the women's dormitory was awarded to the Barnes Construction Company of Logansport, Indiana. Work was begun in December and the completion date is set for September 1, 1961. Other contracts were awarded as follows: plumbing and heating, the T. O. Murphy Company of Oberlin; electric, the American Electric Works of Columbus; and cabinet work, the Palmer Manufacturing Company of North Carolina.

The furnished building will cost approximately \$500,000 and is being financed by a loan from the Housing and Home Finance Agency of the Federal Government.

The dormitory, to house 136 women, will be built on the lot east of Clements Hall and will be joined to Clements by a one-story connecting unit which will serve as a lounge for the new dormitory.

The Men's Dormitory

In the early spring work will start on the third men's dormitory of the same type and materials as the units completed the last two summers. It will house 80 men and it will be ready for occupancy next September.

Science Hall Annex

Plans have been drawn for a new life science building to be erected west of the present McFadden Science Hall. It will be 64 x 160 feet in size, two stories high with basement and connected with McFadden by an enclosed passageway.

In addition to the thirteen lecture-laboratory rooms, research areas, seminar library and faculty offices it will contain a lecture room seating 259 students. This lecture room will be available to other

departments which can use such a facility with profit.

The method of financing this new annex has not been determined at this time. It is hoped that a substantial part of the cost can be secured from foundations and corporations.

McFadden Science Hall, after some renovation, will henceforth provide expanded quarters for the mathematics, chemistry, and physics departments.

The Campus Center

For a number of years the need for a student and faculty center has been urgent. The present Student Union, erected in 1948, was a war surplus building donated by the Government.

The need is so urgent that the students have voted their willingness to contribute \$15 per semester for 15 years in order to raise \$300,000 toward its cost. Beginning last September, this amount is being added to student fees. It is anticipated that the building will cost approximately \$400,000.

A committee of faculty and students is working with the architect in drawing up plans for the building.

The building will be located in the "heart" of the campus on the corner of Grove and Home Streets directly across from Saum Hall. It will become the social center of campus activities and will include facilities for meetings, conferences, student publications, recreation, parties, and "snack bar" food service.

Sabbatical Leave

Dr. Paul Frank, professor of music, will be on sabbatical leave the second semester of the academic year 1960-61. During his leave he will visit in various musical centers in Europe.

Dr. Frank will spend some time in Paris, Vienna, and several cities in Germany. At Salzburg he will visit students studying abroad from the Oberlin Conservatory of Music.

Stellar Photometry

Mr. Philip E. Barnhart, instructor in astronomy and physics at Otterbein College, read a paper, "A Program of Stellar Photometry at 3 to 4 Microns," before a joint meeting of the American Astronomical Society and the American Association for the Advancement of Science, December 29, 1960, in New York City.

Mr. Barnhart has done considerable research in stellar photometry, and is currently working with an Eastman-Kodak research team in designing a new photometer, or infra-red detecting device. The photometer will indicate the behavior of a charted group of stars in terms of infra-red rays emitted, as compared to theoretical calculations.

Tours In Spain

Miss Lena May Wilson, associate professor of foreign languages at Otterbein College, spent last summer touring in Europe and taping material for her Spanish classes.

She spent most of her time in Spain, although she did visit in ten other European countries.

In her stay at Cartagena, Spain, she lived with Emilio and Pepita Gabas, whom she had originally met in New Mexico. The Gabas family helped Miss Wilson make tapes which were put on records at Otterbein. The students

in Spanish use these records for oral drill to supplement regular instruction.

Miss Wilson also uses numerous color slides of Spanish people and customs as an aid in her class instruction.

Dr. Harold Hancock

Gilpin Paper

Dr. Harold Hancock, chairman of the Department of History and Government and of the Social Studies Division at Otterbein College, flew to London, England, December 20, where he delivered a paper before the Newcomen Society.

The Newcomen Society, which has its headquarters in the Science Museum in London, is interested in the history of engineering and industry, and has a sister society in the United States.

The paper, "Industrial Observations of an American Traveler in England," is the concluding installment of two written by Dr. Hancock and Dr. Norman B. Wilkinson, research associate of the Hagley Museum in Wilmington, Delaware. They are based upon the travels and observations of Joshua Gilpin, Delaware industrialist, in England in the 1790's.

Gilpin also drew sketches concerning the manufacture of iron, glass, paper and other industrial processes. Both papers will later be published in the proceedings of the society. The first paper was read before the society by proxy in November 1959.

Before returning to Otterbein on January 5, Dr. Hancock did additional research on 18th century Delaware. The study will correlate with that in 1958-59 when he spent a sabbatical year in England on a grant from the American Philosophical Society doing research in 18th century American history.

First Performance

Mr. Richard Chamberlain, professor of music, gave the first public performance of two songs by Dr. Paul Frank at a recital, January 22. One of them, "Remembering," is a musical setting of a poem by Mrs. Cleora Fuller, English professor, which won the first award of the poetry division of the National AAUW creative writing contest.

Arena Theater

Mr. Charles Dodrill, speech professor and director of the Otterbein College Theater, addressed the annual Speech Association of America convention, December 26, St. Louis, Missouri.

Professor Dodrill was one of three speakers on a panel discussing "Arena Theater: 25 Years Later." His speech was entitled "Why Not Flexible Theater?"

Debaters Take First

Otterbein debaters took undisputed first place at the first annual Kenyon Invitational Debate Tournament held Saturday, November 12, on the Gambier, Ohio, campus. The team composed of Dave Norris and Ken Joyce of Westerville, James Walter of Birmingham, Michigan, and John Muster of Canton, Ohio, won all six of their debates.

The first place plaque was presented to the Otterbein team by Gerald Fields, president of the Kenyon College debate society.

The team is sponsored by the Department of Speech and is coached by Dr. James A. Grissinger.

Festival of Arts

The first annual Festival of Arts will be held at Otterbein College during March. The festival will consist of a number of events, centered on contemporary art, scheduled throughout the month.

The various events are as follows:

March 3-4 - The Otterbein College Theater production of Tennessee Williams' "The Glass Menagerie."

March 5 - Artists' Coffee Hour for Edward Hewitt, painter; Sydney Chafetz, printer; and David Jacobs, sculptor, whose works will be on exhibit.

March 9 - The annual Thomas Lectures will feature Professor Huston Smith of the Philosophy Department of MIT who will speak on "The Art of the Post-Modern Mind."

March 10 - Professor Huston Smith, discussion of "Why Art?" at the convocation hour.

March 12 - Professor Walter Anderson and Donald Keats of the Antioch College music faculty in a panel discussion on the problems of the contemporary composer.

March 14 - The Westerville Concerts Association presentation of the José Limon Dance Company.

March 16 - The home concert of the Otterbein College Brass Choir.

March 19 - A joint concert of the Otterbein College A Cappella Choir and the Men's and Women's Glee Clubs.

March 22 - A coffee hour sponsored by the Quiz and Quill Club for Elizabeth Kytle, novelist.

March 26 - Professor Richard Chamberlain's presentation of contemporary art songs in a faculty recital.

March 28 - An evening of Avant-Garde Theater, The Otterbein College Theater presentation of "The Bald Soprano" by Eugene Ionesco, and the Ohio State University Theater presentation of Gertrude Stein's "In the Garden."

Dr. Huston Smith

The annual Thomas Lectures at Otterbein will be held this year on Thursday, March 9, with Dr. Huston Smith, professor of philosophy at the Massachusetts Institute of Technology, as the lecturer. His subject will be "The Art of the Post-Modern Mind."

Dr. Smith has devoted his teaching career to bridging intellectual gulfs between East and West, between science and humanities and between the formal education of the classroom and informal education via television.

Born of missionary parents in Soochow, China, and a resident of that land until the age of 17, Dr. Smith's early years provided an appropriate background for subsequent research in his special field of comparative philosophies and religions. More recently, a seven-month trip around the world in 1957 enabled him to study the cultures of nineteen countries at close hand.

He is the author of *The Religions of Man* and *The Purposes of Higher Education*, and editor and co-author of *The Search for America*.

A graduate of Central College in Missouri, Dr. Smith received the Ph.D. degree from the University of Chicago in 1945. He lectured at the University of Denver and the University of Colorado before join-

Homecoming Queen

Sharon Martin

Miss Sharon Martin, sophomore from Mowrystown, Ohio, was chosen by the student body to reign as Homecoming queen at Fall Homecoming, Saturday, October 22 at Otterbein College. She was the representative of Talisman sorority.

Maid of honor to the queen was Miss Sue Milam, Arbutus, Nitro, West Virginia. Caroline Kaderly, Greenwich, Galloway, Ohio, was chosen as the queen's first attendant.

Others in the court were Miss Sharon Knoff, Owls, Columbus, Ohio; Miss Jean Riffer, Onyx, Wilmot, Ohio, and Miss Charlotte Smalley, Tau Delta, Celina, Ohio.

Basketball Season

Although the Otterbein College Cardinals have a younger and less experienced basketball team than in some previous years, they give all indication of concluding the season with a winning record.

As of January 5, the Cardinals possess a 3-4 win-loss mark. During these first seven games the Cardinals have been somewhat inconsistent in their performance, but with experience should develop into a solid team.

Players seeing the most varsity action are Dale Stewart, 6'1" guard, George Gornall, 6'2" guard, Jerry Whitacre, 6'3" forward, Kelley Boyer, 6'4" forward, Dan Jordan, 5'11" guard and Alf Washington, 6'3" center.

Washington, a sophomore from Columbus and last year's leading scorer, is again the leading point maker, with a 17.4 average per game.

All - Conference Players

The Otterbein College Cardinals claimed six positions on the All-Ohio Conference football teams.

Two players, quarterback Larry

Cline, senior from Danville, Ohio, and end Ron Jones, senior from Bremen, Ohio, were placed on the offensive first team. Both gridders hold Ohio Conference records for touchdown passes thrown and caught.

Jack Pietila, junior guard from Warren, Ohio, won two spots in the selections. He was named as a guard on the second team offensive unit and as defensive middle guard in an honorable mention choice.

Two other players received honorable mentions on the offensive unit. Don Eppert, Columbus, Ohio, junior, was selected at tackle and Gary Allen, Columbus, Ohio, senior, at fullback.

THE BEST IN OTTERBEIN FOOTBALL

The 1960 Otterbein College football team completed the season with the best record in the history of Otterbein football. The Cardinals won eight of nine games, and surpassed the achievements of the 1946 squad which finished with a 7-1 mark, the best previous record in Otterbein's 71-year football history.

Not only did the Cardinals win eight of nine games, but rewrote almost every scoring and offensive mark in the school record book. More spectacular, however, is that Otterbein erased or tied every record in the Ohio Conference that pertains to touchdown passes.

Fourth in the Nation

The high-scoring Cardinals compiled 352 points in the nine-game schedule, compared to 140 for their opponents. With a 39.1 points-per-game average, Otterbein ranked fourth in the nation among small colleges. The team netted 3471 yards offensively for a 385.5 yards per game average.

Otterbein tied for third place in Ohio Conference team standings with a 5-1 conference mark. Only Muskingum (6-0) and Ohio Wesleyan (6-1) finished ahead of the Cardinals.

Cline Is Second

Much of the team's success can be attributed to a senior from Danville, Ohio, quarterback Larry Cline. An outstanding passer, Cline completed 66 of 115 passes for 1080 yards and 23 touchdowns. His combined yardage was good for 1181 yards to place him second in the conference in total offense.

Two other backfield men, Gary Allen, senior fullback from Columbus, Ohio, and Gene Kidwell, junior halfback from Miamisburg, Ohio, contributed in the offensive effort. Allen picked up 768 yards in 127 carries to place fifth among conference rushing leaders. Following closely was Kidwell with 727 yards in 99 attempts.

Jubilant football players carry Coach Robert Agler on their shoulders after the 50-12 victory over Capital and the climax of the best football season on record. In the foreground are Jim Wilson (62), Glen Aidt (66) and Rodger Black (55).

Eight Marks Broken

All eight Ohio Conference touchdown pass marks were broken or tied as a result of the 1960 season. Cline holds three of the new records, for career, single season and single game touchdown passes. His career record of 43 tops the old one of 33 set by an Oberlin player in 1948-50. Twenty-three touchdown passes in 1960 give him a Capital player's mark set in 1952. In the 1960 finale against Capital, Cline threw six touchdown passes to tie a 1948 conference single game record.

Ron Jones, a senior from Bremen, Ohio, set two Ohio Conference marks in his play at end. During his four-year career he caught 21 touchdown passes, six better than a long-standing conference mark. He also broke by one his single season touchdown passes caught record with a total of nine.

Another end, Jerry Whitacre, Columbus, Ohio, junior, caught four touchdown passes in the Capital game to head the Ohio Conference in the single game category.

Two team records for scoring passes were also set by Otterbein.

Twenty-seven touchdown passes breaks a Capital mark of 20 set in 1952. In the games against Hiram and Capital, Otterbein quarterbacks completed six touchdown passes to tie a 1948 conference record.

Agler's Best Season

Coach Robert Agler's, '48, squads in the last two years have respective records of 7-2 and 6-1. During his six years as head football coach, his teams have won 29, lost 20 and tied three.

The Chemistry Department Serves...

In keeping abreast of the demands of industry and graduate schools, and to remain an essential part in the liberal arts curriculum, the Otterbein College Chemistry Department has a record of 69 years of combined service among the four members of the department.

Professor A. J. Esselstyn, the senior member of the department, has been a member of the Otterbein faculty for 32 years, since 1928. Dr. Lyle J. Michael, '19, chairman of the department, came in 1937, Professor Keith D. Crane, in 1947, and Dr. Roy Turley in 1959.

During the last two decades the facilities in the Chemistry Department have been expanded considerably. New equipment, a larger teaching staff and a solid curriculum have been important in the advancement of the department.

One of the department's chief considerations is the service it provides for other areas. The curriculum is planned to satisfy the requirements of graduate schools and industry. Also certain courses must be made available to students in pre-medicine and pre-dentistry. Thus, the Chemistry Department undertakes to offer a limited number of courses with an emphasis on a balanced program.

In keeping pace with advancing science techniques, the department has added several pieces of new equipment in the last two years. A Fisher zone-refiner was installed in the summer of 1959. The zone-refiner is used in the purification of organic compounds.

Six Mettler automatic analytical balances were also acquired in 1959. Obtained through a gift, the automatic balances will do twice the work of the old pan beam balances.

With anticipated higher enroll-

Sixty-nine years of combined service have been given by the dedicated members of the Chemistry Department of Otterbein College. Left to right are Dr. Roy Turley, Dr. Lyle J. Michael, Mr. A. J. Esselstyn and Mr. Keith D. Crane.

ment in the future, more equipment and expanded facilities will be added to meet the needs. Increased laboratory facilities will be available for classes and student and faculty research.

Of the four men responsible for the achievements of the department, Professor Esselstyn, who joined the faculty in 1928, has served the longest. He was graduated from Alma College and received the M. S. Degree from Cornell University in 1926. He has also studied at Ohio State University at various times. Before coming to Otterbein he spent some time in the chemical industry.

Dr. Michael has been department chairman since he came in 1937. An Otterbein graduate, he received the M.S. degree and in 1929 the Ph. D. degree from Ohio State University. He has also taken work at Harvard, MIT, Notre Dame and the University of Minnesota. Dr. Michael has also worked in the chemical industry, and was for 16 years a professor at Indiana Central College.

Professor Crane received the M.S. degree from Michigan State University in 1936, and has studied

at Washington University, University of Tennessee, Ohio State University and Montana State College. Before coming to Otterbein in 1947, he taught at Taylor University.

Dr. Turley, the newest member of this department, joined the Otterbein faculty in 1959. A graduate of Indiana Central College, he received his Ph. D. degree from the University of Missouri in 1958. For one year he was associated with the Midwest Research Institute, Kansas City, Missouri.

This last summer Professor Crane, Dr. Michael and Dr. Turley participated in three programs sponsored by the National Science Foundation. Dr. Michael attended a conference on the use of radioisotopes at Cornell College, Mt. Vernon, Iowa.

Mr. Crane was a member of a conference at the University of Denver on the detection of radioactive fallout absorbed by plants.

Dr. Turley took part in a conference at the Institute of Paper Chemistry, Appleton, Wisconsin, on the separation of natural substances from woods of interest to the paper industry.

Refresher Classes Planned

The success of the initial and second alumni institutes has been encouraging. More and more graduates are looking for opportunities to renew formal academic training. A third Alumni Institute is planned for Winter Homecoming, Saturday, February 4. Here is *your* opportunity to secure intellectual stimulation on *your* campus. The classroom may be renovated, your classmates may not all be familiar, and the instructor may not be your favorite professor, but he will be an Otterbein teacher; and he will be excellent.

Special guests for the day will be the emeritus staff and faculty and administration with twenty-five year's service. They will be presented to the alumni and other guests at the noon luncheon. Progress on the "Ten-Year Plan" will be reviewed at the luncheon by Arthur L. Schultz, Director of Public Relations.

The schedule of classes and activities for the day is listed below. It is hoped that many alumni especially those in Central Ohio, will support the institute. Registration will take place in the lounge of the Association Building. The special luncheon will be held in Barlow Hall.

Otterbein Featured Nationally

TIME magazine listed Otterbein as one of fifty outstanding, private four-year liberal arts colleges in an article appearing on pages 46 and 47 of the December 5th issue.

The December 18th issue of THIS WEEK magazine, a Sunday supplement in many newspapers, featured an article on Pages 8 and 9 by Pete Rozelle, Commissioner of the National Football League. Rozelle lists thirty-six very likely college prospects for the pro league. Larry Cline, Otterbein quarterback, is included in the list.

CHRISTIAN HERALD magazine placed Otterbein in a list of outstanding church-related colleges appearing in the November, 1960 issue.

Charles R. Burrows

American Ambassador To Honduras

Charles R. Burrows, '31, a career Foreign Service officer, has been appointed the United States Ambassador to Honduras. He was formerly Minister-Counselor of the American Embassy in Caracas since 1957.

President Eisenhower sent to the Senate on August 9 the nomination of Mr. Burrows to serve in this diplomatic post.

Mr. Burrows has spent most of his career in Inter-American affairs. After joining the Foreign Service in 1939, he served successively in Havana, La Paz, Buenos Aires, Ciudad Trujillo and Mexico City. In 1951 he was assigned to the Department of State as Deputy Director of the Office of Regional American Affairs. Two years later he was named Deputy Director of the office of Middle American Affairs.

In 1954 he was assigned to the American Embassy at Manila where he served as Counselor and Minister-Counselor. He gave up this post in 1957 when he was assigned to Caracas, Venezuela.

Following graduation from Otterbein in 1931, Mr. Burrows received a Master of Science Degree at New York University. He also studied at the George Washington University. Before joining the Foreign Service, Mr. Burrows worked in the Department of Agriculture.

Newly named U.S. Ambassador: Charles R. Burrows, '31, formerly Counselor of the U.S. Embassy in Caracas, has been nominated Ambassador to Honduras by President Eisenhower.

He is married to the former Lucy Mullin of Montgomery, Alabama. The Burrows have a son, James, 16, and a daughter, Joan, 13.

The following editorial appeared in THE DAILY JOURNAL of Caracas, Venezuela, on August 10, 1960:

CHARLES BURROWS

The nomination of Counselor Charles Burrows as U.S. Ambassador to Honduras means that that little country will get an excellent diplomat at the head of the American mission there, while the Caracas Embassy — and Venezuela — will lose the services of one of the most capable men in the diplomatic corps here.

Mr. Burrows is the kind of public servant who represents the finest traditions of the American diplomatic service. A serious student of international affairs — and especially of Latin-American affairs — he has made a positive contribution to good relations between his country and Latin America. Arriving in Caracas in 1957, he was in charge of the American Embassy during the dramatic days of January, 1958 — and he acquitted himself admirably.

We are truly sorry to see this good friend leave. But we also realize that his abilities may be needed elsewhere. We are sure he will distinguish himself in his new post; he has our sincere wishes for success.
